CLUB PREVUE  
RAIDED BY STATE  
POLICE, GAMING  
TABLES SMASHED

Names of 53 Customers  
Taken, Manager Held  
—Wortman in Bar  
as Officers Chop Into  
Gambling Room.

Frank (Buster) Wortman's Club Prevue on the East Side was raided last night by Illinois state policemen who smashed their way in with an ax, took the names of 53 well-dressed customers in the gambling wing, and chopped up three dice tables, two blackjack tables and a roulette wheel.

The raiders found Wortman sitting at a bar in the club, which is on U.S. Highway 40, near Fairmount Park race track, in Madison county. It has been open for about six weeks.

Only one person was arrested. He identified himself as the manager, giving his name as Robert Dunne, and said he lives on Kinder drive, just outside East St. Louis.

Building Surrounded.  
Five officers stormed into the place at 11 o'clock and seven others, all of them in uniform, surrounded it. They were led by Lt. Elza Brantley, an acting battalion commander, who said Phil Brown, superintendent of the state police, had notified Sheriff Kenneth Ogilvie and other local authorities that gambling was going on there.

The raid was a surprise, however, and the state officers were not accompanied by sheriff's deputies as they had been on a raid at Club Prevue last year when they found nothing but pool playing.

The officers concentrated on a gambling wing, called Club Corona, and did not disturb dining, dancing and bar patrons on the Club Prevue side of the building. Wortman was on the night club side.

Some of those in the gambling room tried to leave by a rear door and were stopped by the police.

Lt. Brantley said Wortman was "pleasant" and did not appear to be concerned over the raid, but refused to give any information about the establishment, where some 250 automobiles have been parked almost every night in recent weeks.

Buzz Warns Gamblers.  
Three brawny guards were at the door of Club Corona when the police arrived. One of them sounded a buzzer in time for the gamblers to get money out of sight and the raiders found only \$4.50.

The door, at the end of an interior hallway, was a solid one, and it took some time to hack through it. Two inner doors were pushed open, and when the officers got inside, the patrons were not gambling but were standing around and talking to each other. Some were at a bar.

Officers lined up the customers, mostly men, at one side of the room and asked for their names and addresses, with some proof of identity. After giving that information for the state police records, they were released. Brantley said all of them were polite and co-operative.

Brantley said he found that the club's liquor license was issued to Jack Langer, and that a gambling warrant against Langer would be sought today. The raiders had a search warrant, issued by Justice of the Peace Raleigh T. Paul of Collinsville.

They arrived in four automobiles and worked fast, having satisfied themselves by prior surveillance that a big-scale Continued on Page 3, Column 2.

## Snow Probable

Official forecast for St. Louis and vicinity: Mostly cloudy and colder tonight with occasional rain probably turning to snow; tomorrow partly cloudy and continued cold; low temperature tomorrow morning about 30; high in afternoon near 40.

WORKHOUSE RIOT  
LAID TO VISITING  
RULES AND FOOD

Complaints Voiced by  
Prisoners — Some  
Charge Medical Care  
Is Inadequate.

Dissatisfaction with food and tightened visiting regulations were the principal causes of Monday night's riot at the workhouse, inmates told the Post-Dispatch today. A few also complained that medical care is inadequate.

Conditions were normal today at the Workhouse after the outbreak of violence, which lasted until early yesterday. Warden Harold E. Baynes was continuing his inquiry to find the active participants in the riot.

The complaints about food, visiting regulations and medical care came from 20 to 34 prisoners segregated by Warden Baynes for questioning as to their part in the riot. The warden allowed the inmates to express their opinions freely to a reporter.

Objections to food related to quantity and quality, although not all of the prisoners voiced the same complaint. Those who protested against visiting regulations said the time allotment was too short and that only a limited number of persons was allowed to see the inmates.

"In Hole for Eight Days."  
Meanwhile, Circuit Judge James E. McLaughlin reported today that he recently ordered transfer of a prisoner from the Workhouse to City Jail to serve a term after the inmate complained he was "put down in the hole naked for eight days."

The prisoner, Carl Leroy Brown, wrote a letter to Judge McLaughlin complaining of this alleged treatment after he had been captured following his escape from the Workhouse Aug. 19.

The judge ordered Brown brought before him and directed he be transferred to the City Jail, saying in court: "I don't believe in treating men like animals."

However, the judge said he had made no investigation of the prisoner's complaint and did not know if it were true.

Warden Denies Charge.  
Warden Baynes denied Brown was put into "the hole naked for eight days." He said the prisoner was kept in solitary confinement for four days, "with his clothes on," after he had assaulted two guards and was generally unruly.

Brown, 20-year-old laborer, Continued on Page 4, Column 4.

U.S. Captain Hunting Apartment  
Lands Earl's Big 14-Room Manor

LONDON, Nov. 2 (UP)—A United States Air Force captain lunched with the Earl of Lucan in the dining room of the House of Lords today to seal a bargain.

Capt. Robert L. Foster of Elsinore, Calif., wandered into Lord Lucan's estate in Essex looking for an apartment for himself, his wife and their seven children. Lord Lucan offered him the whole place.

Foster, of United States Third Air Force headquarters, had just been transferred from London to Wetherfield in Essex and saw the big Lucan home on a house-hunting drive.

"I thought, well, they might be able to rent me some of it," he explained. "A butler opened the door. I thought at first he was the guy who owned the place, but he was not."

Lord Lucan, Labor party

HOLDUP WOMAN,  
MAN LOOT STORE  
OF DIAMONDS,  
WATCHES, CASH

Polite Pair Rob Manchester Ave. Shop of \$4000 in Jewelry After Binding Clerk and Manager.

(Picture on Page 3A.)

A woman and an armed man today held up and robbed the Joseph Jewelry Co., 4226½ Manchester avenue, of watches and diamonds worth an estimated \$4000, and about \$300 in cash.

J. Clifton Kalla, 4227 DeTonty street, the manager, said he and a clerk, Miss Naomi Peek, 1008 Tower Grove avenue, were forced to enter a rear room by the man, who then tied their feet and arms.

While the robber, armed with a nickel-plated revolver, stood guard over the employees, his woman companion looted the cash register, cases and one window, Kalla said. The woman took only the more valuable items among the diamonds and watches, he added.

Kalla said he had left the store in charge of Miss Peek for about five minutes while he went to a nearby drugstore before the holdup. When he returned, he said, the man robbed, who appeared to be alone in the store, promptly flourished the revolver, telling Kalla to obey orders and he would not be hurt.

Miss Peek was being held in the rear room by the woman accomplice, he learned when he was marched back to join them. Kalla later managed to free his feet from the bindings of surgical gauze and sound a burglar alarm. His arms were still bound when police arrived.

The robbers were polite and displayed a better than average knowledge of the value of watches and diamonds, Kalla said.

He said he recognized the pair as a man and woman who came into the store last Monday night and inquired about some repairs to a watch. They did not leave the watch but said they would be back later. Several merchants in the area said they observed them in the neighborhood last Tuesday.

The loot included 50 to 55 watches and 55 to 60 rings, Kalla said. An unlocked but closed safe was not disturbed. The business is owned by Miss Sophie Joseph, 5793 McPherson avenue, Kalla said.

DRIVERS CONTINUE  
TO PARK ON PLAZA  
DESPITE SIGNS

The city's Land Clearance Authority decided last week to prohibit parking of automobiles on the recently-cleared downtown Plaza area and stopped the operation of some parking lots there—but that did not stop the parking.

Some drivers have continued to leave their cars in the area, in total disregard of about 50 "no parking" signs. All but nine of the signs have been torn down.

"We are not getting the kind of co-operation from the Police Department that we would like," James Drought, assistant executive director of the Land Clearance for Redevelopment Authority, said.

The members of the authority said to discuss the problem at their meeting this afternoon. One solution under consideration would be to glue huge stickers on windshields saying parking was prohibited—really big stickers, covering the whole windshield, and a job to get off.

TIRED OF COOKING IN MIDDLE  
OF NIGHT, SHE GETS DIVORCE

CHICAGO, Nov. 2 (AP)—A wife obtained a divorce yesterday after saying she was sick and tired of getting up in the middle of the night to cook her husband a meal.

Mrs. Margaret S. Schultz, 23 years old, said that for four years of their marriage she had complied with the week-hours mess call of her husband, Raymond, 25. In September she told him he'd have to learn to eat at regular hours. Instead, she alleged, he hit her and left the house.

Judge Wilbert F. Crowley of superior court granted the divorce on ground of cruelty.

GIRL, 6, TRIES TO SPEND  
"ALLOWANCE"—\$100 BILL

MILWAUKEE, Nov. 2 (AP)—A 6-year-old girl entered a neighborhood store and told grocer Alfred C. Gretzke Jr., "I want some candy please." In her hand were two pennies and a \$100 bill.

"That's my allowance," said the girl as Gretzke did a fast double take.

The youngster and the century note were whisked home by a distraught mother, summoned by phone.

Commented the mother: "That girl is always getting into things."

PAIR FOUND SHOT  
TO DEATH, NOTES  
LEFT BY HUSBAND

Police Believe William  
Irvin Crowell Killed  
Wife and Himself—  
Each 79.

William Irvin Crowell, retired president of the old St. Louis Clay Products Co., and his wife were found shot to death today in their apartment at 816 Pennsylvania avenue, University City. Police said Crowell apparently shot his wife and then ended his own life with a 22-caliber rifle.

The bodies were found by a nurse, Mrs. Frieda Fischer, who lived with the Crowells. Police found a note Crowell had written to his son, Roland V. Crowell of 5 Parkway drive, Sappington, which said:

"Mother keeps telling me she wants to die so I will have to do something about it, which I hate very much to do, but we simply can't take any more. I ask you to forgive me."

Mrs. Fischer told police Mrs. Crowell had been in a wheelchair since suffering from a stroke four years ago and that Crowell had been suffering from a heart ailment since he retired from business 20 years ago. Both were 79 years old.

Police were informed by the nurse that Crowell instructed her to leave the house at 9 a.m. to "go out and buy some fish for dinner." She quoted him as saying, "Take your time, don't rush."

When she returned an hour later, she said, she found Mrs. Crowell in a chair in the front room of the five-room apartment with a bullet wound behind her right ear.

In a back bedroom, she said, she found Crowell slumped in a chair with a bullet wound of the abdomen. The rifle was slung up on a venetian blind cord, fashioned as a sling, with a string from the trigger to Crowell's right hand.

Both were pronounced dead at St. Louis County Hospital. Police said several other notes were found in Crowell's possession. In a telephone conversation last night, Crowell told his son to do several business errands this morning.

DENTAL WRITER  
OPENS UP ON V.P.,  
PAINFUL ERROR

"A feeble protest" in last month's St. Louis Dental Society Bulletin about the absence of a representative of dentistry among the floats in the Vellied Prophet parade was regretted by the writer after he saw the parade.

In this month's issue, the editorial writer frankly says he "should have stood in bed." He added that the float "Doctor and Nurse" did contain a dentist's figure which "kept smacking a huge plaster tooth with a wooden mallet."

The writer deplores the fact that "dentistry must always be synonymous with pain" and adds that "it's amazing that any child enters a dental office without hysterics."

The editorial closes with this plea: "Please, Mr. Vellied Prophet, the point of last month's editorial was GOOD publicity for dentistry."

TAX EMPLOYEE'S  
ADVICE UPSET  
BY TAX COURT

Tax collectors and taxpayers were surprised today to learn that a judge has ruled that the advice of Internal Revenue Service employees in tax matters is not necessarily reliable.

The United States Tax Court was considering the case of Clarence Jaeger and his wife, who did not file an estimated tax return on their income of \$24,362 in 1950 when they lived in St. Louis, because they were told by an employee in the internal revenue office here that it was not necessary if the return was filed by Jan. 15, 1951.

In the opinion of Judge J. Gregory Bruce, the Jaegers, who have moved to San Diego, Calif., did not show that the federal employee was properly authorized to render such advice, and they owed the Government a \$277 penalty. The opinion was handed down Monday in Washington.

Ernest Flinn, acting director of internal revenue here, said he believed the court's meaning was that the employee was not qualified in that he was not authorized to give such advice. "Misinformation gets out," Flinn said, "but that does not relieve the taxpayer of responsibility."

PIATIGORSKY BUYS  
STRADIVARIUS  
'BATTI' CELLO

LOS ANGELES, Nov. 2 (AP)—Cellist Gregor Piatigorsky has acquired the renowned "Batti" Stradivarius cello from the Horace Havemeyer collection.

The purchase, for an undisclosed sum, was announced yesterday. Informed sources estimated the price was in six figures. The "Batti" is acknowledged to be one of the three finest cellos in the world, and some experts rate it the greatest.

It was made in 1714. Alexandre Batti, the Belgian cellist, purchased the cello 100 years ago for 300 pounds.

Finally, his health and fortunes failing, Batti relinquished the instrument to the London firm of Hill & Sons. Since then it has been in the possession of various private collectors.

The "Batti" has not been played since the turn of the century. Piatigorsky, who lives here, says he will use it in his recital Jan. 13 at Stanford University, Palo Alto, Calif.

## This Mixed Up World.

HONOLULU, Nov. 2 (UP)—Mrs. James Ling, whose cat prefers canned dog food to the canned cat food bought by its mistress, solved her problem by swapping it for a neighbor's supply of dog food. The neighbor, Mrs. Joseph Ching, owns a dog which prefers cat food.

Spends 38 Years Writing Book,  
Loses It in Fire Set by Robber

NEW ORLEANS, Nov. 2 (UP)—The Rev. N. H. Melbert, even after devoting 38 years to writing "The Story of the Bible," will have a hard time forgiving the thief who ransacked his study.

Police said the burglar accidentally set the study in the First Methodist Church afire and fled, leaving the nearly completed manuscript representing Melbert's life work and all his notes to be burned.

When Melbert saw the ashes of his burnt manuscript and other "priceless things" including church records, books and paintings yesterday morning, he wept.

The fire swept through the church, causing damage estimated at \$25,000.

Police said a steel letter opener found wedged in the door of a safe in the study, along with a drill, a punch and a hammer left nearby, indicated the burglar tried to jimmy the safe. Sparks from the drill may have touched off the blaze.

UNITED AIR LINES  
CRAFT EXPLODED  
IN FLIGHT, SOME  
WITNESSES SAY

Flight Engineers of Carrier Are on Strike—Infant and Former St. Louis Resident Among Victims.

LONGMONT, Colo., Nov. 2 (AP)—Investigators were trying today to determine the cause of the crash of a United Air Lines plane last night with loss of 44 lives. The New-York-to-Seattle four-engine DC-6B, reported by some witnesses to have exploded in flight, cracked up in a northern Colorado sugar beet field. Killed were 39 passengers, including an infant, and five crew members.

It was the second tragedy involving a United Air Lines plane in this vicinity within a month. Oct. 6 a U.A.L. DC-4 smashed into 12,000-foot Medicine Bow peak in southern Wyoming, killing 66 persons in the nation's worst civil aviation crash.

An airline spokesman declined to speculate on the cause of last night's crash, explaining that accounts of witnesses varied widely. "Some say it exploded in the air, others that it hit the ground and exploded," he said. "It is difficult for us to say what took place. That probably will have to be determined by the Civil Aeronautics Board."

While the board will have charge of the investigation, the Civil Aeronautics Board in Washington announced three of its top officials also were leaving for the scene "to find out if any type of immediate remedial action is necessary."

## Flight Engineers on Strike.

Flight engineers of the airline are on strike in protest against a company demand that all flight engineers hired in the future be qualified pilots. The line said there was no connection between the strike and the crash. It said that in place of a regular flight engineer on the crashed plane was a pilot who was fully qualified and licensed as a flight engineer also.

The crash occurred in clear weather on comparatively level ground in a comparatively level country a few miles east of the Colorado Rockies. The time was fixed at 7:03 p.m. by Jake Heil, farmer on whose land the wreckage was scattered.

The plane left Denver about 10 minutes earlier and was 20 miles behind schedule, United Air Lines reported. There was no radio report from the plane after it took off.

A company official said it was on course toward Cheyenne, Wyo. He said the DC-6B had a cruising speed of about 300 miles an hour and was capable of carrying up to 64 passengers.

## Started in New York.

The flight, No. 629, originated in New York at noon and made a stop at Chicago before it landed in Denver.

In the crash the plane broke up and two sections tore holes four feet deep in the earth and burned. The nose—several hundred feet north—did not catch fire but was badly smashed.

Wreckage and bodies were strewn for a mile over a plowed field and a pasture six miles east of Longmont. The scene was about 32 miles north of Denver and 30 miles east of Rocky Mountain National Park.

The airline reported this morning that all 44 bodies had been taken to funeral homes at Greeley.

Although there was snow at higher elevations, the ground was clear here. The temperature was slightly below 20 degrees.

## 2 Tell of Explosion.

Two witnesses told of hearing an explosion before the plane struck and another after it hit. Heil said he and his family heard "sort of an explosion" and added:

"Then we ran outside and it looked to us like a skyrocket. It sounded like the motor was still running after the first explosion. Minutes after the plane hit there was another explosion."

He told his story to Jim Matlack, a co-publisher of the Longmont Times-Call and one of the first outsiders to reach the scene.

"There was nothing we could do but cover up the bodies," Matlack said. "There wasn't a sign of life."

He and Heil reported that as Continued on Page 4, Column 2.

## WEST REJECTS RED PROPOSAL FOR GRADUAL REICH MERGER

Macmillan Voices Western Reply—Again Demands Free Elections to Unify East and West Zones.

GENEVA, Nov. 2 (AP)—The Western powers rejected tonight new Communist terms for gradual merger of the two rival German republics. British Foreign Secretary Harold Macmillan called Russia's German unification plan "an unparalleled diktat (dictate)."

The three Western Foreign Ministers repeated their demand for free elections to unify Germany.

But Soviet Foreign Minister V. M. Molotov argued that his plan, setting up an all-German council from the two parliaments in East and West Germany, was the only way to tackle the unity problem.

The Russian idea envisages the continued division of Germany for some unspecified period. It also is designed to win recognition for the East Germans from the outset by the establishment of an all-German council consisting of representatives of both East and West German governments. The Bonn government has adamantly refused to talk to its Communist rivals in the east zone.

The plan follows in its broad lines ideas presented by the East German government, through its observers here, in a 3,000-word statement submitted to the conference secretary general yesterday.

Its principal points:

1. Creation of the all-German council by the parliaments of the two rival governments.

2. Establishment of mixed committees under the council to deal with questions of economic and cultural ties, German currency, finance, customs, post and telegraph and transport.

3. Search within the council for accord on strength, armament and location of units required to insure the defense of the two German republics.

4. Work in the council on European security and on questions relating to "the bringing about of prerequisites for the unification of Germany as a peaceful and democratic state."

Western officials, meanwhile, said the British government was abandoning its plan for an East-West German buffer zone at the urging of the United States Government.

These officials said Molotov therefore was trying to breathe life into an already dead Trojan horse by his sudden support of the idea of a semi-demilitarized zone along the East-West Frontier.

The proposal was first put forward by British Prime Minister Eden at the July summit conference here. The United States, however, feared the Eden plan would freeze the division of Germany and fix the present status of Soviet satellites in Europe.

Current West Position. As a result of a shift in the British position two or three weeks ago, the informants said, Britain, France and the United States now support the creation of a buffer zone only after Germany is unified.

They said Molotov apparently hoped to put Britain and Russia on the same side and divide the world into two camps, Britain and the United States by his adoption of the earlier British plan.

He apparently did not appreciate that the West again was united on washing out of the Eden plan those phases which would call for an experiment in disarmament in a divided Germany.

Fresh evidence of Molotov's basic opposition to German unification, except on his own terms, came in a report from an off-the-record briefing of Communist bloc correspondents by Leonid Ilyichev, the Soviet press officer here. Some of those present quoted Ilyichev as saying "there will be no German unification" at this conference. The Soviet delegation later denied he had said it.

United States Secretary of State John Foster Dulles, British Foreign Secretary Harold Macmillan and French Foreign Minister Antoine Pinay returned to battle with Molotov over German unity and European security today after a one-day recess in the conference because of the All Saints day holiday in France.

The Western Big Three met this morning and decided the best way to meet Molotov's latest European security plan was to keep on demanding that he produce proposals on German unification.

Western Merger Plan. The West is seeking the merger of East and West Germany under conditions that would gain the united nation as an ally. Under their proposal the center of the buffer zone would be along the new East-West frontier between the united Germany and Red Poland and Czechoslovakia, and Russia would have to retreat from East Germany.

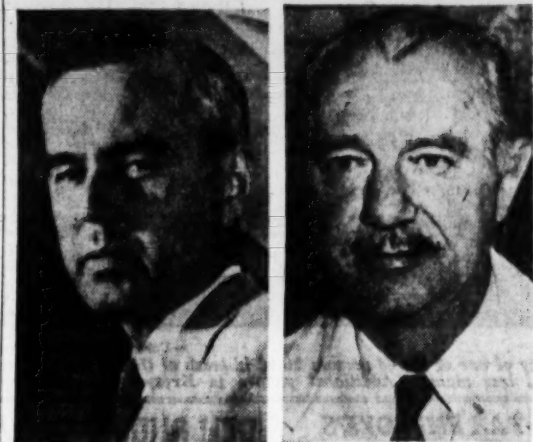

The semi-demilitarized area was offered as a reassurance to Russia in the hope it would agree to unification. American leaders believe the Russians want a sharp arms reduction for internal economic reasons. They want the Soviets to pay a price for it—German unity.

Molotov's game, apparently, is to get the advantage of some demilitarization without the price of German unification.

## 3 Americans Win Nobel Prizes, 2 in Physics, One in Chemistry

DR. POLYKARP KUSCH, co-winner of 1955 Nobel prize in physics, at work in his laboratory at Columbia University, New York.

Associated Press Wirephoto.  
DR. W. E. LAMB  
Shares physics prize.

DR. VINCENT  
DU VIGNEAUD  
Chemistry Winner.

STOCKHOLM, Nov. 2 (AP)—The Nobel prizes in chemistry and physics went to three Americans today.

Dr. Vincent du Vigneaud of Cornell university's medical college won the prize in chemistry. The physics award went jointly to Dr. W. E. Lamb of Stanford university and Dr. Polykarp Kusch of Columbia university.

The physicists will split prize money of \$36,720 for their work in correcting an error made by a British group previously won the Nobel prize. Their work was in connection with atomic measurements.

Dr. Du Vigneaud will receive the \$36,720 chemistry award for his work on two hormones that help in childbirth and keep a check on vital body organs like the kidney. The 54-year-old Chicago-born biochemist is the first scientist ever to take apart and put together a hormone produced by the pituitary gland. His work on the two substances—oxytocin and vasopressin—is described by Nobel authorities here as "a historic feat in biochemistry."

Complicated Feat. The Nobel prize comes to Dr. Du Vigneaud for an extremely complicated feat, but it all began with an amateur chemist's set.

"As a kid, I used to monkey around with a friend with his home chemical set," the cigar-smoking scientist said recently. "It's a wonder we didn't blow our heads off."

He and his researchers produced the most complex material of its kind ever made by human beings. The hormone oxytocin makes the uterus or womb contract at the time of birth. The same hormone stimulates milk glands to secrete mother's milk.

The Nobel prize is in recognition of the feat of synthesizing a hormone composed of eight of the different amino acids, or building blocks, of protein materials.

Dr. du Vigneaud, who took his bachelor's and master's degrees at the University of Illinois, lives in Scarsdale, N.Y. A son, Vincent Jr., is a freshman at Cornell medical college.

Major Advance. The correction that won the physics prize for the two Americans is described by the Royal Swedish Academy of Medicine as a major advance toward learning what goes on inside the atom. It enabled scientists to calculate correctly the properties of some of its component parts.

Nuclear physicists round the world were shaken when the two Americans published papers in 1947 proving that the energy level calculations for hydrogen atoms made by the British Nobel prize winner, P. A. M. Dirac, did not agree with experimental evidence.

Their results appeared likely, at first, to explode the foundation of the impressive theoretical structure of quantum mechanics, by which scientists were seeking to explain the

## DULLES SEEKING FRANCO'S AID IN MID-EAST CRISIS

Spanish Plea, However, Is Believed Unlikely to Halt Egypt's Arms Deal With Reds.

BY JOSEPH NEWMAN  
The New York Herald Tribune Post-Dispatch  
Special Staffer.

MADRID, Nov. 2—Secretary of State John Foster Dulles invited Generalissimo Francisco Franco yesterday to use whatever influence he has with Moslem peoples toward promoting a quieter situation in the Middle East and in French Morocco.

A communique issued by the Spanish foreign ministry after Dulles' flying visit here from Geneva said he and Franco reviewed "the principal problems which affect the peace, and security of the free nations," and "found themselves in mutual understanding."

Generalissimo Franco was not unresponsive to Dulles' requests, but it is questionable whether his influence is such as to be able to deter rising tension between Israel and Egypt.

Balance Threatened. It is also doubtful whether Franco would undertake to make a serious appeal to Egypt to abandon its policy of accepting arms from Communist countries of eastern Europe. It is this policy, with its threat to upset the present balance of power in the Middle East, which has aroused Israel.

In the case of French Morocco, where the French government would like Spain to cease giving at least moral support to native nationalists, the Spanish attitude is likely to improve with the expected restoration of the deposed Sultan, Sidi Mohammed Ben Youssef.

Dulles was unresponsive to requests by American and Spanish reporters for information about his talk with Franco. He flatly said he would answer no questions, and limited himself to brief remarks of the customary goodwill variety.

This was all the more unusual in view of the fact, as Dulles himself remarked, his visit to Spain was unprecedented. It was the first time a Secretary of State of the United States has visited Spain.

Prestige Is Goal. The Franco government, through diplomatic channels in Madrid and in Washington, has been pressing for many months to secure the visit of a top-ranking member of the American government. The purpose ostensibly was to secure greater prestige for the Spanish government.

Being only three hours away by plane, Dulles agreed to fulfill Franco's wishes during his present visit to Europe.

Dulles' six-hour visit was regarded as a great achievement for Franco since it raised his personal relations with the American government to a higher level than ever before.

It is reported, though there is no confirmation of any thing of substance that may have transpired, that the generalissimo used the opportunity to urge Dulles to make fresh efforts to get Spain into the United Nations.

In an impromptu speech over the Spanish radio before his departure, Dulles said the talks would serve to make United States-Spanish relations "even closer." He described the discussions as "most valuable."

ATHENS, Nov. 2 (AP)—A privately owned explosives and powder factory in Serres blew up today, killing six persons and injuring 90. The explosion wrecked a block of buildings in the central Macedonian town.

## EX-SULTAN GETS RESIGNATION OF THRONE COUNCIL

Ben Youssef Takes Matter Under Consideration — French By-Passed.

PARIS, Nov. 2 (AP)—The Regency Council named to take temporary custody of the Moroccan throne today handed in its resignation to Sidi Mohammed Ben Youssef, the ex-sultan freshly returned from exile in Madagascar.

Ben Youssef, deposed by the French two years ago for his nationalist sympathies, took the resignation under consideration.

At the time the four-man council was set up, the French government said it had no intention of allowing Ben Youssef to return to the throne. The council, bypassing the French government, apparently left it up to Ben Youssef to restore himself to the throne if he desires.

Long Negotiations. The council came into being after drawn out negotiations between Moroccan nationalists and the French. It was to guard the throne when aging Sultan Mohammed Moulay Ben Arafa left Oct. 1. Ben Arafa has now renounced his rights to the throne in favor of his uncle, Ben Youssef.

(The United Press said the throne council, after conferring with Ben Youssef, issued a communique announcing that "considering that their mission is very happily finished, the Throne Council have laid before him (Ben Youssef) their resignation. This resignation has been taken under consideration by his majesty. He will give them a reply within the 24 hours to come.")

Since Ben Youssef's return from Madagascar, French officials privately have admitted that he would be back in his throne by Nov. 18, the anniversary of his becoming sultan in 1927.

His unceremonious ouster two years ago touched off a blood-bath of Moroccan nationalism and he has become a powerful nationalist symbol, rallying even his former enemies to his banner.

The French were thus left as his sole opponents, a role they apparently do not intend to play.

'French' Hosts. Ben Youssef flew to Paris yesterday and was comfortably installed in a suburban hotel by his French "hosts." Later he met Foreign Minister Antoine Pinay who publicly referred to the ex-sultan as "his majesty."

Pinay later said Ben Youssef had agreed to work with the French government on administrative reforms so that the Moroccans will receive more self-government.

## Doctor Says President May Not Give Decision Before January

Indicates Eisenhower May Leave Hospital Nov. 11 — Executive Likely to Go to Washington, Then to Gettysburg.

By JAMES DEAKIN  
A Staff Correspondent of the Post-Dispatch.

DENVER, Nov. 2—A belief that President Eisenhower may wait until next January before announcing whether he intends to run for re-election in 1956 prevailed here today as a result of statements by two White House aides.

The two assistants, Press Secretary James C. Hagerty and Maj. Gen. Howard McC. Snyder, the President's personal physician, also indicated Mr. Eisenhower would leave Fitzsimons Army Hospital Nov. 11, a week from Friday.

This would mean the President probably would arrive in Washington the afternoon of Nov. 11 and stay at the White House over the weekend before going on to his farm home at Gettysburg, Pa.

Snyder's Prediction. Gen. Snyder, the President's physician for many years, told a reporter yesterday Mr. Eisenhower "will be in no position to announce his intentions before January." He added that the doctors "can only advise the President; the decision will be entirely up to Mr. Eisenhower himself."

Hagerty, asked to comment on the statement, would say only he thought Gen. Snyder was "repeating" what Dr. Paul Dudley White, Boston heart specialist, told reporters Oct. 22.

At that time, Dr. White, chief medical consultant on the President's illness, said it would be two or three months before the doctors could tell with any certainty whether the Chief Executive would make a full recovery.

It would take that long, Dr. White explained, to determine if Mr. Eisenhower's heart could stand the rigors of another campaign and another term. A two- to three-month waiting period would mean the medical decision would come about January.

A Surprise to Staff. Nevertheless, Gen. Snyder's statement that the President would be in "no position" to announce his plans before January was in the nature of a bombshell to the White House staff, which had agreed not to discuss the political future in any form.

Hagerty, apparently reluctant to discuss the Snyder statement, referred reporters to the transcript of Dr. White's Oct. 22 press conference.

Hagerty was somewhat more willing to talk about Gen. Snyder's remark that Mr. Eisenhower probably would leave the hospital Nov. 11, subject to consultation with Dr. White.

How to Lose an Election. NORTH ADAMS, Mass., Nov. 2 (AP)—Edward V. Dempsey, who ran for the city council last month, submitted his campaign expense form yesterday, as required by law. It listed: "No contributions, no expenditures, no success."

Violations of the conflict-of-interest laws, which are designed to prevent government officials from profiting privately from their government jobs, is a criminal offense and carries a maximum penalty of two years, a \$10,000 fine, or both.

## FBI GIVES REPORT ON STROBEL TO CRIMINAL OFFICE

Brownell Spokesman Refuses to Explain Why Findings Were Sent to Olney.

WASHINGTON, Nov. 2 (UP)—The Federal Bureau of Investigation has completed an inquiry of Public Buildings Commissioner Peter A. Strobel and turned its findings over to the criminal division of the Department of Justice.

The inquiry, an FBI spokesman said today, was finished Oct. 12 and submitted for evaluation to the office of assistant Attorney General Warren E. Olney, the Government's criminal chief.

The spokesman would not explain why the bureau's findings on Strobel went to the criminal section, and the Justice Department declined to comment on the current status of the case.

When a decision is reached, the spokesman said, a report will be relayed to General Services Administrator Edmund F. Mansure, who referred the case to the department originally.

Strobel has been under fire from a House Judiciary subcommittee which completed hearings Monday to determine whether the buildings commissioner violated "conflict of interest" laws by mixing government and outside business activities.

Chairman Emanuel Celler (Dem.), New York, summing up the hearings, said that Strobel at the very least had "used poor judgment" and was as guilty of impropriety as former Secretary of the Air Force Harold E. Talbot who resigned following congressional criticism of his outside business activities.

Strobel admitted during the hearings that on at least two occasions clients of his New York engineering firm—Strobel & Salzman—received Government contracts. He conceded also that after taking his Government job he pressed the Army Corps of Engineers for payment of \$7500 owed for Government work his firm performed.

He said also that he negotiated a new contract with the engineers the day before taking office as building commissioner. Strobel maintained, however, that he never used his Government post to further the interests of the New York firm, in which he retains 90 per cent interest.

## TUCKER AGAINST GIVING CITY FULL AUTHORITY OVER POLICE FORCE

However, He Tells Legislators He Favors More Autonomy for City in Administration of Department.

Mayor Raymond R. Tucker last night called for more autonomy for St. Louis in the administration of its Police Department, but said he was opposed to "the city taking over the department entirely."

Appearing before a special committee of the Missouri House, appointed to investigate the St. Louis Police Department, the Mayor said he favored granting the city many of the powers urged at a previous committee hearing by Victor D. Brannon, director of the Government Research Institute, a privately financed fact-finding agency. The committee met at Hotel Kings-Way.

**Favored Suggestions.** Suggestions by Brannon which the Mayor said he supported were:

Giving the city authority to regulate salaries, size of the force and number of commissioned officers and allowing the police board to determine residency rules, number of police districts, number of days off a year for officers, distribution of manpower among the three platoons each day and whether to maintain a Bertillon system of criminal identification.

Each of these matters is now determined by state laws. "It appears to me," the Mayor said, "that the Legislature has gone into the administrative end, sometimes to the disadvantage of the city and police board. The present statutes take upon themselves administrative tasks that restrict the board."

On the question of staggered terms for members of the police board, Tucker said he favored state determination of the policy because he believed the board should be appointed by the Governor.

Brannon had urged staggered terms for board members in his appearance before the committee.

**Some Control Now.**

In response to questions from committee members on whether he favored an audit by the city of the department's expenditures, he said he had "no objection to having an auditor review the business practices of the department. However, there is presently some measure of control since the police board obtains its funds from the city through vouchers."

There should be no "hard and fast rule" against selecting a police chief from outside the department, the Mayor said, adding, however, that it would be better "for the morale of the force if the men knew they had a top position to work for."

Commenting on his post of ex-officio member of the police board, Tucker said "the Mayor has to serve on too many boards. If the new city charter is passed, some of those positions would be eliminated. I think the Mayor's membership on the police board is important because the department is an essential part of the community."

**Judges Cite Crime Rise.**

Judges Louis Comerford and David W. FitzGibbon, both of the Court of Criminal Correction, told the committee of the rise in juvenile crime, citing an increase in the use of narcotics, lack of home training and sale of liquor to minors as factors. Amendment of state liquor control laws to eliminate the provision requiring that a tavern operator's license be re-

### Missouri-Illinois Forecasts

**Missouri:** Cold wave warning in northwest; thunderstorms in southeast, locally severe in extreme southeast this evening, clearing with cold wave in northwest tonight, temperatures dropping into 20s, precipitation ending as light snow tonight in east; tomorrow generally fair with diminishing winds, colder in southeast; low tonight 20 to 25 in northwest to about 35 in southeast; high tomorrow in upper 30s in northwest to 40s in southeast.

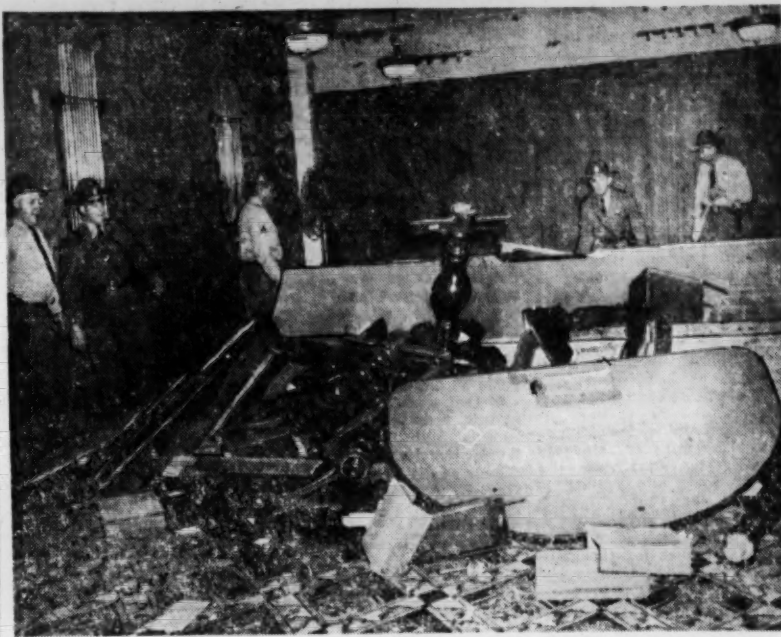

**Illinois:** Turning much colder tonight with rain ending in south and probably changing to snow before ending in north; drop in temperature will approach cold wave proportion in west half; tomorrow partly cloudy and colder; low tonight 20 to 30 in west to 30 to 35 in east; high tomorrow 35 to 45 in north to 40 to 45 in south.

## Wreckage of Gambling Tables

Chopped-up gambling tables being taken out of Club Prevue by Illinois state policemen after last night's raid.

### CLUB PREVUE RAIDED, GAMING TABLES SMASHED

Continued From Page One.

gambling operation was in progress at the club. It formerly was called the Mounds Club.

The plush decor includes thick carpeting, heavy dark brown drapery on two walls, and carved paneling on the others, with an acoustical ceiling serving to keep down the noise of the flying dice and chips.

**Gambling Chips Collected.** Pool cue racks were on the walls, relics of days when the room was equipped with pool tables. Wires strung with counting chips also were in place.

Three gunny sacks of chips were collected and they, along with the broken up furniture, were taken to the county jail at Edwardsville.

Access to the gambling club has not been easy, and persons not known to the guards—or those known to them unfavorably—were turned away with an explanation that it was private, for members only.

The raiders explained that they did not arrest anyone as a croupier or table attendant because those employees had mixed in with the crowd and could not be identified as such.

John P. Connor, an East Side gambler of long standing and an owner of the old Hyde-Park Club at Venice, which was closed by state police, was among those present. "This is old stuff to me," he told the officers.

### SEVEN ARE HEARD IN JURY'S WELLSTON POLICE INQUIRY

Seven witnesses were heard yesterday by the St. Louis county grand jury in its investigation of the Wellston Police Department and the alleged connection of some policemen with a series of burglaries.

Four of the witnesses are police officers. They are Sgt. Douglas Livesay and Patrolmen Robert Entenhorst, Albert J. Gleitze and Jasper Randazzo. Two former Wellston police officers, Lee Chamblin and Frank Liebisch, and a former city marshal, Ross Henson, also testified.

The jury will meet again Thursday afternoon to resume its inquiry. Prosecuting Attorney Edward F. Gamholz said.

Additional members of the Wellston Police Department will probably be called at that time, he said.

Called upon conviction of a violation was urged by Judge Comerford.

"The law is so severe it defeats its purpose. A jury just won't convict a man if it means he'll be deprived of his means of livelihood. It would be better to give the judge discretionary power in assessing the penalty," he said.

Declaring that present statutes on carrying concealed weapons are unsatisfactory, Judge Comerford said "some thought should be given to a law similar to New York's Sullivan law. All a person must do to get a pistol here is get a permit from the sheriff."

**Criticizes Jobless Pay Law.**

He criticized the state's law on unemployment compensation and aid to dependent children, describing them as laws which "subsidize crime."

"Many mothers of three and four children have found out they can live better with state aid than they can as married women."

Their children, lacking in proper home training, develop the same attitude, he declared. Judge FitzGibbon called for extension of the juvenile age from 17 to 18, and urged passage of statutes creating a job-finding agency for persons released from the penitentiary.

"When a man has the stigma of ex-convict it is hard for him to find a job. If he is rebuffed, he will return to crime. The number of second offenders would unquestionably be reduced if such an agency were established," he told the committee.

Both judges said morale in the police department was low. Judge FitzGibbon attributed it to the fact the "police board won't back the men up."

State Representative Jennie S. Walsh (Dem.), St. Louis, is chairman of the committee. Other members are Representatives Joseph W. Martino, Robert M. Uxa and Eugene P. Walsh, all St. Louis Democrats, A. Clifford Jones and Samuel B. Murphy, St. Louis county Republicans, and Francis M. O'Brien, St. Louis Republican.

## Robbery Suspect Held Illegally, Judge Rules, Frees Him on Writ

Scott Air Force Base Airman, 17, in City Jail Since Aug. 19, to Be Available if Indicted, Attorney Says.

A young robbery defendant was released from city jail yesterday on a writ of habeas corpus issued by Circuit Judge James E. McLaughlin, who ruled that the youth had been held illegally by the circuit attorney since Aug. 19.

In ordering the release of 17-year-old Airman Eugene Kmetz, Scott Air Force Base, the court called to the attention of Assistant Circuit Attorney Harrison Hollie a Missouri statute making it a misdemeanor for anyone "to interfere with an individual released under a writ of habeas corpus." Kmetz was turned over to military authorities, and his attorney said the youth would be available if he is indicted by the circuit court grand jury.

**Two Informations Issued.** An application for a writ of habeas corpus was filed recently by Joseph Nosky, assistant public defender representing Kmetz. Yesterday Nosky introduced in court two informations issued in the case by the circuit attorney's office.

The record on the original information showed that Kmetz was discharged at a preliminary hearing in Court of Criminal Correction last Aug. 15. Another youth also was released, and two others were held, for a \$12 holdup.

The preliminary hearing was before Provisional Judge William O'Toole, sitting for Judge David W. FitzGibbon, who was on vacation. The circuit attorney's office regarded the discharge of two defendants as not justified by the circumstances.

On Aug. 19, Kmetz was re-arrested on a second information in connection with the same holdup and he had been held in jail since that date, unable to furnish bond. Nosky attacked the second information, on which no witnesses were introduced, and which bore a notation: "Hold for the grand jury."

**Rights of Defendant.** The attorney said he was not questioning the right of a grand jury to indict an individual charged at a preliminary hearing, but contended the defendant was entitled to know the names of the prosecuting witnesses, and to a second preliminary hearing.

"It is our contention that the state cannot file an information and then hold a defendant indefinitely without trial," Nosky told the court.

Hollie observed that if a grand jury indicted the defendant for robbery, "some witnesses might be secret."

"Pray God, we have no secret witnesses here," Judge McLaughlin declared. "You must be talking about some other country. I am releasing the defendant because he was illegally held under this so-called information, which was more or less a fraud on the court. A defendant is entitled to know his accusers. The notation, 'Hold for the grand jury,' does not mean a thing."

Hollie suggested that Kmetz might have been able to furnish a lower bond than that fixed by the court. Judge McLaughlin replied: "Why should he be required to furnish bond? You have no right to hold him."

Says He Admitted Crime.

Circuit Attorney Edward L. Dowd said Kmetz and the three

other youths admitted participation in the holdup, in which the victim was slugged with a club and robbed of his wallet. He said the grand jury has been occupied with the investigation of reported police payoffs, and has been unable to hear evidence in routine cases.

"About 50 defendants are at present in jail, held for grand jury action," Dowd told the Post-Dispatch. "They are held under informations and warrants charging homicide, robbery, assault and other crimes. This has been customary procedure, and was in effect when Judge McLaughlin was an assistant circuit attorney."

In the Kmetz case, the circuit attorney said it was planned to use the same witnesses under the second information as in the original charge. "The defendant knew who his accusers were," Dowd asserted.

A petition for a writ of habeas corpus was filed in circuit court today for Airman Eugene Woodward, rearrested with Kmetz on an information following their release at the August preliminary hearing. It is alleged that Woodward, 17 years old, was being held unlawfully. Judge McLaughlin set the hearing on the petition for 2 p.m. tomorrow.

Dowd said he hoped to present against Kmetz and Woodward to the grand jury tomorrow.

**MAYOR TO FETE ALDERMEN**

A buffet supper will be given by Mayor Raymond R. Tucker Thursday, Nov. 10, at the Chase Hotel for members of the Board of Aldermen and their wives and employees of the board and their wives, it was announced today.

The Mayor said the supper would be strictly a social affair with no speeches or business discussions.

## CITY WILL DRAW UP OFF-STREET PARKING PLANS

Mayor Says Program Will Be Formulated Without Waiting for Legislature to Act.

Plans to draw up "an effective off-street parking program" without waiting for the State Legislature to give the city the required enabling legislation were announced by Mayor Raymond R. Tucker today.

Addressing the Scottish Rite Club at Scottish Rite Cathedral, 3637 Lindell boulevard, Mayor Tucker said the city's business men, who are most affected by the lack of parking space, would "no doubt have to make some kind of a financial contribution to such a program." He did not, however, go into the details of the proposed program.

Two changes in state laws are required to help the city solve its off-street parking problems by construction of the needed facilities, he said.

The city needs the right to condemn residential property for parking facilities, especially in the outlying shopping centers, and it needs the ability to pledge future parking meter funds for the retirement of revenue bonds issued for such parking facilities, he said.

While the city may use existing parking meter funds to help retire revenue bonds, it cannot earmark such funds for that purpose. It is the pledge of such funds that makes the bonds more desirable from an investment viewpoint, he explained.

**Bill Died in Legislature.** A bill to give the city the needed changes died in the last session of the Legislature despite several visits to Jefferson City by the Mayor and representatives of merchants' organizations interested in the measure.

"The General Assembly chose to listen to the pleas of special interest groups—the parking lot operators," the Mayor said. "Noting that the position of the parking lot operators is that there is no need for the city to get into the parking business, Mayor Tucker said he would not have urged the bill if he had believed there was enough parking space available at a reasonable price."

**Survey Shows Shortage.** A survey by the Ramp Building Corp. of New York, which the city engaged to make a survey of parking needs, found a deficiency of 5678 parking spaces on an average day in the downtown area, he said. The firm recommended construction of four parking garages and one lot in the downtown area. It also found a lack of parking space in the Well-

ston, Baden and Cherokee shopping centers.

Mayor Tucker said the city is now operating a 4000-car parking lot on the riverfront, without which the parking problem in the downtown area "would be unbearable." If the Federal Government ever goes ahead with the development of the Jefferson National Expansion Memorial on its riverfront site, including the parking lot, the city's downtown parking situation "will be nothing short of chaotic," he added.

The Third Street Interregional Highway is now completed, he said. When the Ozark Expressway, of which the Third Street is only the first segment, is finished, it will bring still more automobiles into the downtown area, thus adding to the already serious problem, he said.

**U.S.-BRITISH UNITY CAN AVERT WAR, STASSEN SAYS**

LONDON, Nov. 2 (AP)—Harold Stassen, special disarmament adviser to President Eisenhower, said yesterday, prospects for world peace will stay bright as long as the United States and Britain stand firm together.

In a speech at a Pilgrim society dinner, Stassen said: "If we stand together, many will stand with us. If we stand together and many stand with us, no one is likely to initiate a war adverse to us, and we will never initiate a war against others."

Stassen stopped over in London to address the Anglo-American society on his way to Geneva to join U.S. Secretary of State John Foster Dulles in disarmament talks with Russia, France and Britain.

### 60 POLICE RECRUIT CANDIDATES BEGIN TRAINING MONDAY

Two classes of police recruits will begin 12-weeks' training next Monday at the Police Academy in a program to bring the department to its authorized strength of 2010 commissioned officers as soon as possible, Chief of Police Jeremiah O'Connell announced today.

Fifty-six men and four women have been accepted for the classes, which will be directed by Capt. Joseph Gallagher, superintendent of the academy. The candidates were obtained in a recruiting drive last September to help fill 95 vacancies in the department. This will be the first time in eight years when the Police Academy has had two classes in session.

One officer, instead of two, will man each of the department's three radar cars, Chief O'Connell directed. The change was recommended by Maj. William G. Cibulka, head of the Traffic Division, to make more men available for general duty.

**House Weeks Train.** FORT WORTH, Tex. (AP)—The Texas & Pacific railroad brought suit for damages growing out of a train-house wreck. They said C. J. Ware was at fault when the house was moving got in the way of one of the T. & P. freights at a crossing.

When neither Moore nor his attorneys appeared for trial there, Judge Clemens entered an order affirming the police court conviction. Moore's application for a writ of habeas corpus was turned down by the St. Louis Court of Appeals, and he was taken to jail.

## List of Victims In Colorado Plane Crash

CHICAGO, Nov. 2 (AP)—The 38 adult passengers, one infant and five crew members killed in the United Air Lines plane that crashed near Longmont, Colo., last night were identified by the company and relatives as follows:

F. E. Ambrose, United Air Lines senior reservations agent at Seattle.

Mr. and Mrs. B. Beckstrom, Seattle.

John P. Bromberg, Seattle.

Frank M. Brannan, Seattle.

Mrs. J. W. Bunch, Forest Grove, Ore.

Mr. and Mrs. Horace B. Bynum, Sherwood, Ore.

Barbara J. Cruise, Denver (U.A.L. stewardess on vacation).

Carl F. Deist, Hillsborough, Calif.

John Des Jardins, Kansas City, Mo.

Mr. and Mrs. James Dorey, Whitman, Mass.

Mr. and Mrs. Gurney Edwards, Providence, R.I.

Mrs. James Fitzpatrick and infant son, Batavia, N.Y.

Mr. and Mrs. V. V. Herman, Vancouver, Wash.

Elson B. Hickock, Seattle.

N. P. Hobgood, Hatfield, Pa.

K. J. W. Jungels, Aurora, Ill.

Mrs. Dasie E. King, Denver.

P. F. Krouch (No home city available).

Mr. and Mrs. G. G. Lipke, Pittsburgh.

Mrs. Lewis L. MacClain, Portland, Ore.

Mr. and Mrs. Frederick Stuart Morgan, Wilmette, Ill.

Herbert G. Robertson, Ruthersford, N.J.

James W. Purvis, Tacoma, Wash.

Dr. Harold R. Sandstead, Silver Spring, Md.

Sally Ann Scofield, Denver (U.A.L. stewardess on vacation).

James E. Straud, Lansing, Mich., Okemos, Mich.

Dr. and Mrs. R. W. Van Valin, Newberg, Ore.

Clarence Todd, Tacoma, Wash.

Mrs. Alma Winsor, St. John's, N.F.

Military (name not released pending notification of next of kin).

The crew members, all of Seattle: Capt. L. H. Hall, pilot; first officer D. A. White, co-pilot; S. F. Arthur, pilot-engineer; and Peggy Peddicord and Jacqueline Hinds, stewardesses.

**CHANGE IN ADDRESS HAS OWNER CONFUSED**

LOUISVILLE, Ky. (UP)—L. F. Crutcher complained to city officials that he isn't sure where he lives anymore.

He said city employees came to his house and told him his house number was changed, giving him a new number. Now Crutcher and his next door neighbor have the same address. City officials promised to do something.

### 44 ARE KILLED IN PLANE CRASH IN COLORADO

Continued From Page One.

far as they could determine, no bodies were burned.

John McNeill, night marshal at Platteville, Colo., six miles distant, reported he saw two flames in the air, "a sort of an explosion—then a big bright light."

**Report on Flames.**

The United Press said some witnesses reported they saw a parachute flare in the sky last night about the time the DC-6B crashed. This gave rise to speculation that the pilot fired flares in hopes of finding a landing place, and that the flares had been mistaken for an explosion in the air. But the same witnesses said they heard an explosion before the plane went down, and another explosion when it struck the earth.

A 12-year-old farm boy, Charles Dalpra, at his home some five miles away, saw a "red flame" in the sky. He told a reporter "it kept getting bigger," then he heard a noise.

Colorado highway patrolmen, sheriff's officers, police, civil defense workers and volunteer firemen rushed to the scene from over the agricultural community. Ambulances came in from several towns.

Initial efforts to determine the cause of the wreck were launched under lights of portable electric plants as tumbleweeds blew across the scene.

Among the victims were two executives of the Oldsmobile division of General Motors, James Straud, Lansing, Mich., general sales manager in the western United States, and Carl F. Deist, San Francisco, regional manager of the Pacific division.

Also aboard were Mr. and Mrs. G. G. Lipke of Pittsburgh. Lipke was sales manager of the Hagan Corp., a chemical combustion engineering firm.

One of the dead was a member of the armed services, not otherwise identified. Another was a nationally-known nutrition expert, Dr. Harold Sandstead, a United States Public Health Service medical director, who was en route to Corvallis, Ore.

Two of the victims were U.A.L. stewardesses on vacation.

The crew consisted of Capt. L. H. Hall, pilot; first officer D. A. White, co-pilot; S. F. Arthur, pilot-engineer; and Peggy Peddicord and Jacqueline Hinds, stewardesses, all of Seattle.

Carl F. Deist was zone manager in the St. Louis office of Oldsmobile division, General Motors Corp., from 1949 until 1952, when he was promoted to the position of southwest regional manager at Dallas, Tex. From 1921 until 1935, he had

### Crash Area

Map locates Longmont, Colo., (A) near which a United Airlines plane crashed last night with loss of 44 lives. Medicine Bow peak (B) was scene of another United Airlines crash last month.

worked here as an accountant for several firms.

Deist is survived by his wife and two daughters.

**CAA CHIEFS GOING TO CRASH SCENE**

WASHINGTON, Nov. 2 (UP)—Top officials of the Civil Aeronautics Administration will fly to Denver today to study the crash in that area within a month.

A CAA spokesman announced that Administrator F. B. Lee, W. H. Weeks, chief of the CAA aircraft engineering division, and Ward Masden, chief of the CAA air carrier safety division, would leave "as soon as possible" aboard a scheduled United Airlines flight.

The spokesman pointed out that the Civil Aeronautics Board, rather than the CAA, is responsible for official investigations of air accidents. However, the CAA has administrative responsibility for airline safety.

Lee and his aids will try to determine whether any "remedial action" needs to be taken in regard to aircraft, operational practices or otherwise in the light of the two crashes in the Denver area, the spokesman said.

Meanwhile, Bill Kent, president of the AFL Flight Engineers International Association, which is on strike against United, said here he had brought to the attention of the CAA some matters "about United's flight operations. He declined to say what they were.

The flight engineers have been on strike against United Airlines for 11 days, seeking job security guarantees.

Kent said that after the strike began the company recalled pilot-qualified flight engineers to pilot duties but then assigned them to flight engineer posts. He said Sam F. Arthur,

pilot and flight engineer who was killed in the crash last night, was one of these.

Kent also said that his union sent within an hour of the crash two of its own investigators to the scene. He said they work with CAB investigating teams.

**WORKHOUSE RIOT LAID TO VISITING RULES AND FOOD**

Continued From Page One.

went to the Workhouse June 20 on an automobile theft charge to serve a one year sentence. An additional six months was added for his escape.

Mrs. Edward G. Brungard, director of public welfare, said she ordered abolition of the "hole"—a dank solitary confinement cell in the basement of the Workhouse—several months before Baynes took over as warden last May 2.

"Brown was not placed in any 'hole,'" Warden Baynes said. "He kept telling us to go ahead and put him in a hole. We put him in a cell in the 'old house.'"

The warden said he and a physician checked Brown daily during the four days he was in solitary confinement. He said the prisoner once chewed glass and did other things that caused physicians to conclude he was antisocial and had a limited intelligence.

In his inquiry into circumstances of the riot, Baynes had narrowed his list of suspected participants today to 16 inmates. There were 125 prisoners in second-floor cells in the south building, where the disturbance broke out.

One prisoner has admitted breaking windows in cells and damaging a lock, the warden said. Vandalism by the rioting inmates included smashing of plumbing, burning of mattresses and starting of other small fires.

Despite the recent riot and a similar outbreak on June 8, Baynes has received a vote of confidence from Mrs. Brungard, director of public welfare. She said she thought he was doing a good job.

Isaac Gurman, director of the St. Louis Bureau of Men, made an investigation of conditions at the Workhouse that led to the resignation of Baynes's predecessor, Clarence Weismann. Gurman praised the new warden.

"While I'm disappointed about the latest outbreak, I'm by no means discouraged," Gurman told the Post-Dispatch.

"I'm convinced the situation will be remedied when we get a new Workhouse under the \$3,000,000 bond issue approved by the voters.

"Certainly no man has worked harder than Baynes to try to get conditions straightened out. He does not come from the old school of 'treat 'em rough.' His interest is with the inmates.

"Baynes is trying to put into effect all the recommendations I made in my report. He has gone all the way down the line."

Judge David W. FitzGibbon

of the Court of Criminal Correction, a member of a parole board for workhouse prisoners, said today:

"The major factors which brought on the riot are overcrowding and no work for the inmates. It is impossible to bring a group of young men together, not give them work and expect them to behave properly.

"Someone has said that strict confinement would solve the problem. I disagree completely. Strict confinement would only create additional problems."

Judge Louis Comerford, also of the court of criminal correction and a member of the parole board, told the Post-Dispatch he had been trying to decide what caused the prisoners to riot.

"Possibly, it's because they're going through a transitory period at the Workhouse—a change from one system to another," he said. "Warden Baynes is using modern methods.

"What baffles me though is that most of the prisoners who were at the workhouse under the old administration have gone by now.

"What's needed, I suppose, is a maximum security building for those tough characters. Warden Baynes has quite a few tough, young hoodlums down there."

"The new warden has cut visiting down so nobody can come to see you but your parents," one inmate said. "It looks like your friends might be allowed to come to see you."

"It was that way before the new warden took over, and you didn't see all these riots then, and you didn't see people busting out of here all the time, the way it is now."

"Hungry All the Time."

"The food is okay," the man added, "but there's just not enough of it. I'm hungry all the time."

Like most of the 20 prisoners interviewed by a Post-Dispatch reporter, the man said the riot Monday night was intended as a protest against the food and Warden Baynes's visiting policies.

"My people can't get here for a visit any time but Sunday because they work," one prisoner said. "Then they cut short the 15 minutes that are allowed for a visit. About all you have time to do is say 'hello and goodbye.'"

One prisoner said that before Warden Baynes took over administration of the workhouse, inmates who worked were permitted to visit their relatives and friends in the warden's office.

Under these circumstances, he said, there were no partitions between the inmate and his visitors, whereas prisoners who did not have jobs talked to their visitors with a screen separating them.

The prisoner acknowledged there were not enough jobs available at the Workhouse to keep all inmates occupied, but contended that those who work deserve some privileges.

Another inmate asserted it was unfair to give working

prisoners privileges because there are many others who would like to have jobs.

"All of us can't get a job," he said. "They let the ones that work come out in the recreation areas a couple of hours at night. The rest of us who are not lucky enough to have a job have to stay in the cell."

Several of the inmates complained that they have had beans for breakfast recently. "That's not a meal to start a man on a working day," they said.

Monday's menu at the Workhouse was as follows: Breakfast—stewed prunes, creamed beef, two biscuits, coffee with sugar; lunch—vegetable beef soup; Polish sausage, green beans, boiled potatoes, bread, gelatin; supper—beef stew, fresh vegetables, bread.

A few of the inmates complained they could not get adequate medical treatment. They said that when they are ill or in pain, a doctor "always gives us some pills no matter what the trouble may be."

Four of the 20 inmates interviewed said they had no complaints. One said: "There's no

reason for any trouble here. We're all well treated."

**Warden Explains.**

Warden Baynes said that under the previous workhouse administration of Clarence Weismann, there were 30 or 40 inmates who had unsupervised visits in the warden's office.

"Because these visits were unsupervised, contraband could be taken in or taken out," he said. "Further, this was not equal treatment for all the inmates."

He said his policy established in June provided for visits from immediate relatives and girl friends. Before that, he said, "there were many teen-age girls visiting some of the younger inmates without the knowledge of their parents."

The warden declared that "visiting privileges have now been made equal for all the inmates."

He said that a visiting room has been provided under his administration with tables and chairs. The inmate and visitor sit across the table with a small partition about 18 inches high separating them.

"I believe we have fairly

good rations," the Warden said. "We have to stay within our budgetary limitations. We're feeding the best we're able to with the money available."

**Money Problem.**

LOS ANGELES (AP)—The Bank of America branch on East First street got a letter from a customer: "Please send me a savings account book. I destroyed the one I had as I did not want to carry so much stuff in my handbag while traveling."

**BEN-GURION BACK AS PREMIER, FOR MEETING ARABS**

Continued From Page One.

paper articles as mere propaganda, saying: "The Egyptian Foreign Minister tries to tell American public opinion that Cairo radio announcements are not official proclamations. However, he has apparently forgotten that Egypt is ruled by a military dictatorship and that the Egyptian radio is fully controlled by that dictatorship."

The new Premier said Nasser had announced "that his struggle is intended not only against Israel but against world Jewry as a whole." He declared such talk was reminiscent of Hitler. Ben-Gurion warned that Czechoslovakia, which is delivering arms to Egypt in exchange for cotton, should "be aware that these arms shipments to the military clique in Egypt are liable to cause a terrible conflagration in the Middle East."

He charged the Prague government had acted "not only on its own volition but on the initiative and decision of the Soviet Union."

He referred to Czech claims the deal was only a "commercial transaction" and added: "Formally, of course, the sale of poison to a known murderer, even when the vendor is aware of the use to which the poison will be put, can also be called a commercial transaction."

**Object of Sales.** Ben-Gurion declared the Czech government "knows that the Egyptian rulers are buying these arms for one object and one object only—to destroy the state of Israel and the people of Israel."

Criticizing other countries selling arms to Arab countries, he said Britain had sold arms to Egypt while refusing to sell them to Israel and that "even the United States has supplied arms to Iraq."

"The people of Israel, in the Land of Israel, will not be led like cattle to the slaughter," he declared. "Any assault on the peace of Israel is an assault on the peace of the Middle East."

The Knesset, which gave Ben-Gurion an ovation when he entered the chamber, listened attentively when he solemnly asserted:

"We have never initiated a war against anyone, and we never will. We do not covet an inch of foreign soil, just as we will not permit anyone to deprive us of a single inch of our territory as long as we are alive."

He warned that "any aggressive design against our freedom and existence is bound to lead to a dangerous explosion, the results of which cannot be foreseen."

A short time before Ben-Gurion spoke, a Syrian army spokesman in Damascus charged that Israeli army posts, supported by armored boats, had fired last night from the western side of the Sea of Galilee on Syrian army posts on the eastern shore. The Syrians said they suffered no casualties in the two-hour gunfire.

**Return to Cabinet.**

Ben-Gurion, who was Israel's first premier, retired in December 1953 and went to live in an agricultural settlement in the Negev desert. At the time he emphasized that no country should be dependent on one man. But last Feb. 17 he agreed to join Premier Sharett's cabinet as defense minister.

It was disclosed on the eve of Israel's parliamentary elections last July that Ben-Gurion would return to the helm of the government. The Mapai (Labor) party to which he and Sharett belong won a substantial plurality in the voting but not a clear majority in the Knesset. Ben-Gurion has spent the time since in consolidating a coalition that could govern effectively. He got fresh support last night when the religious-orthodox Mizrahi party decided to join the cabinet, making it a five-party coalition.

His return to leadership came as Sharett returned from Geneva, Switzerland, where the outgoing Premier discussed Middle East tensions with the Big Four Foreign Ministers. Sharett had previously been Foreign Minister under Ben-Gurion.

Informants in Geneva said Russia had tried to reassure Sharett that Israel would not be "hurt" by the flow of Red arms to Egypt. But these informants said Soviet Foreign Minister V. M. Molotov had refused to block the deal whereby Communist-

**JAP RESCUERS BRAVE FUMES IN SEARCH FOR 33 MINERS**

TOKYO, Nov. 2 (UP)—Rescue workers braved deadly gas fumes and fresh cave-ins today in a near-hopeless search for 33 miners trapped a mile underground in Japan's worst post-war mine disaster.

Twenty-seven bodies were recovered, blackened by the tremendous explosion that ripped through the Mofiri coal mine near Akahira, Hokkaido, Tuesday. Mining officials said there was little hope that any of the men still missing would be found alive.

Officials said 20 workers were in the shaft when the explosion occurred. Thirty of them made it to safety. All were treated for gas poisoning or bruises and three were in serious condition.

**Fresh Start by Burglar.**

FLAGSTAFF, Ariz. (AP)—A burglar who escaped with \$400 in cash and jewelry here apparently decided he was going to start his wardrobe anew. He left behind a hat and a pair of shoes.

governed Czechoslovakia agreed to send Egypt war supplies. However, Molotov was said to have told Sharett that the Kremlin has every desire to develop its friendship with the Jewish state.

**Arab Sources Doubt Leaders Will Meet with Ben-Gurion.**

CAIRO, Nov. 2 (AP)—Arab League circles here see little chance that any Arab leader will agree to meet Israeli Premier Ben-Gurion to discuss a Palestine settlement.

Formal official comment was withheld while Ben-Gurion's offer to meet Arab leaders made in the Israeli Parliament today is being studied. Arab League sources in close touch with the Ben-Gurion offer "useless."

Since creation of the state of Israel, Arab leaders have adopted a joint policy of refusing to confer with any Israelis lest it imply recognition of the Jewish state.

One Arab League source said Palestine is primarily a United Nations problem, and "any serious peace proposal must come from a neutral party like the U.N. and not from one or another party involved in the conflict—the direct proposal from Ben-Gurion to the Arabs is useless."

**Britain Denies It Intends to Send Tanks to Egypt.**

LONDON, Nov. 2 (AP)—The government today denied it intends sending British tanks to Egypt at this time.

Lord Vansittart asked the government in the House of Lords to suspend delivery of any such tanks in view of "the dangerous xenophobia (hatred of foreigners) now fostered by the Egyptian government." He apparently was referring to reports that Britain arranged some months ago to ship Centurion tanks to Cairo. London newspapers have speculated that this reported deal would be dropped in view of Egypt's decision to get arms from Czechoslovakia.

Lord Reading, Minister of State for Foreign Affairs, said: "No tanks have been supplied to Egypt from Britain since the middle of August. No further deliveries are at present due."

**WESTERN DEFENSE MEASURES STILL NEEDED, POPE SAYS**

CASTEL GANDOLFO, Italy, Nov. 2 (UP)—Pope Pius XII said in a speech made public today that Western defense measures "unfortunately still are a necessity in a deeply divided world."

He appealed to North Atlantic Treaty Organization member nations, however, to keep in mind that their alliance is more than a simple military pact, and is founded on common ideals and ways of life.

The pontiff made his remarks in a brief French language address yesterday to a group of visiting officers and civilians from the NATO college.

**URGES U.S. ARMS FOR ISRAEL**

The St. Louis division of the American Zionist Council has urged the United States Government to send arms to Israel to offset arms shipments from Communist countries to Arab

nations, it was announced today. M. J. Slonim, president of the local group, said a resolution urging American arms shipments was approved at a

meeting Sunday. Slonim said the arms should be sent in the interest of maintaining world peace, and for the security of Israel and the western nations, including the United States.

## CHARGES BARS, GAMBLERS PAID OFF POLICEMEN

**Former Patrolman  
Quoted by Dowd —  
Amounts Said to  
Range Up to \$25.**

Some St. Louis policemen have been named as alleged recipients of payoffs from gamblers and tavern operators in statements made by a former patrolman, Circuit Attorney Edward L. Dowd said today.

The payments, usually of \$10 to \$25, were made to persuade the police officers to ignore law violations, the former policeman told Dowd.

An investigation will be made of the statements implicating policemen and a decision will then be made as to whether to bring the former patrolman before the grand jury to testify, the circuit attorney stated.

He said the policemen named by the man are not those involved so far in the current inquiry into reported pay-offs by brothel operators.

Dowd said he is inclined to believe the former patrolman's assertions, although no corroboration has been obtained yet. Circuit attorney investigators began working on the case.

The policemen named as having received pay-offs from gamblers and tavern operators are not high-ranking officers, the Post-Dispatch was told.

Dowd questioned the former patrolman after receiving a report that he acknowledged taking bribes himself while a member of the police department from 1946 to 1954.

In the interview with the circuit attorney, the man refused to discuss his own activities. The former patrolman, who has been arrested on at least three occasions since he resigned as a police officer, was described by his associates and former superiors as emotionally unstable.

## CHICAGO PLANS LIVESTOCK SHOW NOV. 25 TO DEC. 3

CHICAGO, Nov. 2.—The International Livestock Exposition will celebrate its fifty-sixth anniversary here Nov. 25 to Dec. 3. The management predicts record numbers of exhibits. More than \$100,000 in prizes are offered in competitions featuring 27 breeds of farm animals. Polled Herefords will be exhibited at the International for the first time this year.

Fourteen performances of the International Horse Show will provide a daily entertainment feature. An evening horse show on Nov. 25 will officially open the exposition.

Dr. A. D. Weber, dean of agriculture at the Kansas State College, will again select the grand champion steer, Nov. 29. The auction sale of the grand champion steer on Dec. 1 will start off three days of show animal auctions in which the country's top meat animals will be purchased for select holiday trade.

Entries for all livestock classes closed Nov. 1.

## RED ARMS FOR EGYPT LIKELY TO AFFECT PLANS OF NATO

TRIPOLI, Libya, Nov. 2 (UP)—Gen. Alfred M. Gruenther, North Atlantic Treaty Organization supreme commander, believes Communist arms shipments to Egypt may affect plans of the Atlantic defense alliance. "But this depends on future circumstances," Gruenther told a press conference at Wheelus Field near here yesterday. "Egypt and Israel are on our flanks."

He denied that NATO arms are being used in North Africa, where France is battling nationalist forces. "We have no arms which you can call NATO arms," Gruenther said. "Every country in NATO has arms of its own plus United States arms supplied to them."

## Flashes of Life

### Premature.

OKLAHOMA CITY, (AP)—A new Oklahoma City osteopathic hospital was opened 5½ hours ahead of schedule by an impatient stork. The staff planned a 3 p.m. opening. Mrs. Robert Gilmore was admitted as the first patient at 9:30 a.m., and the hospital's second patient, Lawrence Robert Gilmore, was born at 11 a.m.

### Trojan Stuff.

HENDERSON, Ky., (AP)—The phone rang in the fire station and an excited voice shouted: "Come quick. A horse is on fire." "What did you say?" the surprised fireman asked. He hadn't misunderstood. The voice repeated the request: "It's a wooden horse marking a hole in the street." Firemen extinguished the blaze in routine fashion.

### Hear Dem Bells.

ROANOKE RAPIDS, N. C. (AP)—A Halloween prankster had the whole town hopping when he played a recording of "Shake, Rattle and Roll" on the chimes amplifier of the First Baptist church.

"He turned the volume on full blast and, boy did he wake up the whole town," said reporter Carl Churchill of the Roanoke Rapids Herald. Police have the recording. They are looking for the prankster.

### EDGAR RAND ESTATE HELD FOR DAUGHTERS

Holdings Estimated at More  
Than \$1,000,000, Says  
Relative.

The estate of Edgar E. Rand,  
president of International Shoe  
Co., was left in trust for his  
three daughters, under terms  
of a will filed in probate court  
at Clayton today.

Value of the estate will ex-  
ceed \$1,000,000, a relative told  
the Post-Dispatch.

The will directed that the  
estate be divided into equal  
shares to be held in trust for  
Mrs. Owen H. Mitchell Jr., 7116  
Westmoreland avenue, Univer-  
sity City; Mrs. Donald S. Wohl-  
man, 876 North McKnight road,  
University City, and Miss Helen  
O. Rand, who lived with her  
father at 50 Overhills drive,  
Ladue.

Mr. Rand, a civic leader here,  
died unexpectedly of a heart  
attack Oct. 26 when attending a  
national shoe convention in  
Chicago. He was 50 years old.  
His wife, the former Miss Sarah  
Frances Moore of Nashville,  
Tenn., divorced him in 1931.

### HOMER CURTIS RENAMED TO FARM CREDIT BOARD

Production credit associations  
of Illinois, Missouri and Arkan-  
sas have re-elected Homer Cur-  
tiss, Stockton, Ill., to the Farm  
Credit Board of St. Louis, ac-  
cording to an announcement  
made by Joseph R. Cosgrove,  
general agent. Curtiss' new  
term is for three years begin-  
ning Jan. 1, 1956. Curtiss owns  
and operates a 472-acre live-  
stock and grain farm in Jo  
Davies county, Illinois. He is a  
graduate of the University of  
Illinois and for many years has  
been active in local and state-  
wide agricultural co-operatives.

The Farm Credit Board of St.  
Louis is composed of seven men  
and is the policy making body  
for the four cooperative credit  
units of the Farm Credit dis-  
trict of St. Louis, namely: The  
Federal Land Bank of St. Louis,  
Federal Intermediate Credit  
Bank of St. Louis, Production  
Credit Corporation of St. Louis,  
and St. Louis Bank for Co-opera-  
tives.

Other members of the board  
are: Fred A. Groves, Chairman,  
Cape Girardeau, Mo.; Rufus C.  
Branche, Joiner, Ark.; W. E.  
Fletcher, Scott, Ark.; R. D. Pen-  
newell, Palmyra, Mo.; Howard  
M. Shirley, Richmond, Mo., and  
Enos Waters, Carlinville, Ill.

### RITA HAYWORTH LAWYERS DENY DIVORCE INSTRUCTIONS

RENO, Nev., Nov. 2 (AP) —  
Actress Rita Hayworth's Reno  
attorneys said yesterday they  
have had no instructions to file  
a divorce action against her  
fourth husband, Crooner Dick  
Haymes.

In Chicago last weekend  
Haymes said he was told by her  
New York lawyer, Bartley Crum,  
that the actress had told her  
Reno attorneys to proceed with  
a divorce action.

But Attorney William Wood-  
burn and his associates, who  
represented her when she di-  
vorced Prince Aly Khan, said  
yesterday they had no word  
from her or from Crum.

She now is in Paris, permit-  
ting Aly Khan a visit with their  
daughter Yasmin.

It's possible to make an ordinary shoe look like a Florsheim Shoe—but there the resemblance ends! Florsheim good looks are built in, not polished on; Florsheim perfect fit is lasted in for the life of the shoe; Florsheim longer wear

is fact, not fancy. Yes! Florsheim Quality is real—a combination of finer leathers, materials, and workmanship—from stitch to stay, from tip to top lift. That's why Florsheim Quality is the Quality that can't be copied.

## Peron Leaves Paraguayan Exile For New Haven in Nicaragua

Former Dictator Departs From Asuncion on Military Transport Under Cover of Secrecy.

ASUNCION, Nov. 2 (UP)—Juan D. Peron, the deposed Argentine dictator, left his Paraguayan exile today by plane for a new haven in the Republic of Nicaragua.

Peron left Asuncion national airport aboard a Paraguayan military transport service airliner en route to the new place of exile by way of Rio de Janeiro and Belem, Brazil.

The deposed Argentine leader, who was exiled to Paraguay on Oct. 2 after his 10 years of dictatorship was ended by revolution, left his exile at a lonely villa outside Villarrica at 3:25 a.m.

He moved in great secrecy and only seven persons were at the airport to see him off.

Most of those waiting at the airport for Peron's automobile

by Provisional President Eduardo Lonardi.

Peron had flatly stated Monday in an interview with the Diarios Asociados newspaper chain he did not plan to leave his exile in Paraguay.

He also said he had been transferred from the capital city of Asuncion to the inland city of Villarrica "because that is the way I want it."

The deposed president said then he would not carry out political activities in his exile, but in an interview with United Press he maintained he was still the legal president of Argentina.

Peron never has been to Nicaragua before but Somoza visited Argentina some eight months ago and was warmly greeted by Peron.

**Workers Strike as Argentina Takes Over 2 Newspapers.**

BUENOS AIRES, Nov. 2 (AP)—Thousands of defiant workers went on strike at scattered points in Argentina today as the provisional government took charge of two General Confederation of Labor newspapers.

Diehard Peronista leaders of the C.G.T. had called off a general strike scheduled for midnight yesterday but C.G.T. sources said today that other

labor leaders had not agreed.

Many businesses were open but many others closed their doors because workers stayed home.

Buenos Aires appeared normal, with transportation and other services operating as usual. A check of outlying factories showed much absenteeism in key industries such as meat-packing, tanning and glass-making.

The provisional government took over the newspapers El Lider and La Prensa, the big one-time independent daily which was expropriated by the deposed Juan Peron government.

A Government announcement said both would be administered temporarily by one Gov-

ernment appointee, to be named later.

Since the fall of Peron there have been demands that the Government return La Prensa to its former owners. La Prensa of late has been following a subdued course though backing the pro-Peron wing of the General Confederation of Labor.

El Lider has bitterly attacked the provisional government of President Eduardo Lonardi.

The C.G.T. bosses had called

a general strike, effective last midnight, to enforce demands for the ousting of anti-Peron officials who took over some labor unions when Peron's dictatorship toppled last September.

**Rumors of Possible Trouble in Paraguay Reported.**

BUENOS AIRES, Nov. 2 (AP)—La Nacion's correspondent at Formosa on the Paraguayan border, said today that Argentine city was full of rumors of possible trouble in Paraguay.

He said reports were circulating that elements of the Paraguayan army were unhappy over political developments and were threatening to do something about it.

The report could not be confirmed by communication with Asuncion immediately.

## KAMIN ACQUITTED ON TWO COUNTS OF CONTEMPT

Judge Dismisses Two Charges Against McCarthy Witness — Two Remain.

BOSTON, Nov. 2 (AP) — United States District Judge Bailey Aldrich, upholding defense contentions that Senator Joseph R. McCarthy (Rep.), Wisconsin, asked questions beyond the scope of his authority, today acquitted Leon J. Kamin on two contempt counts and dismissed two other counts of a six-count indictment.

The action, taken before counsel for the 27-year-old former Harvard research assistant began presenting his defense, left only two counts standing against him.

The charges on which Kamin was acquitted concerned his refusal to answer, at a one-man subcommittee hearing conducted by McCarthy in Boston on Jan. 15, 1954, whether he knew any Communists teaching at or "connected with" Harvard.

McCarthy's questions were too broad and not pertinent, the judge said, adding that the Senator, sitting as a one-man subcommittee, "had no right to engage in a general 'fishing expedition.'"

The Wisconsin Senator was not identified by name in the decision but only as the chairman of the subcommittee.

McCarthy's questions asking Kamin if he knew anyone "connected with Harvard" who had been a Communist "was so manifestly outside the admitted scope of the inquiry, both as to persons and as to time," the court said, "that I am surprised the Government has required the defendant to stand trial on his refusal to answer."

Judge Aldrich's ruling was announced a few hours after United States District Judge James W. Morris in Washington convicted Lawrence Baker Arguimbau, formerly of the faculty of Massachusetts Institute of Technology, of contempt for refusing to name past Communist associates. Judge Morris ruled in the Arguimbau case that questions put to him by a House Committee on Un-American Activities were pertinent.

Morris fined Arguimbau \$500 and gave him a one-year jail term, but suspended both payment of the fine and serving the sentence. He placed him on probation for a year. The maximum possible sentence would have been a year in jail plus a \$1000 fine.

Judge Aldrich retained counts 1 and 5 against Kamin and said he would hear the defense on them, but threw out counts 3 and 4.

He noted considerable duplication involved in the questions.

Judge Aldrich's opinion said: "Even if the count 2 question as to the teachers had been limited solely to the war years, it is apparent that it embraced a much wider group than those engaged in the defense work in which the subcommittee professed interest."

"But the question called for far more, even, than that. It asked for the identity of every Communist member of the faculty perhaps down to January 1954, the date of the hearing, or, in any event, down to the fall of 1950, although Harvard had done no classified work since 1946."

Kamins remains accused in count 1 of refusal to answer whether he knew of Communist party members then working in defense plants. Count 5 covers refusal to answer if he knew whether an Emmanuel Blum had "contact with persons holding classified Government material."

### CREDIT BUYING UP \$657,000,000 IN SEPTEMBER

WASHINGTON, Nov. 2 (AP) — The Federal Reserve Board reported yesterday that consumer credit purchasing shot up by \$657,000,000 in the month of September. Over half the increase — \$382,000,000 — was for automobile purchasing.

The increase brought the public's indebtedness for goods and services to a total of \$34,293,000,000. That was \$5,437,000,000 higher than outstanding consumer credit a year earlier.

Some \$544,000,000 of the September increase, including the new automobile credit, was for installment credit. This compared with an increase of installment credit in September 1954 of \$34,000,000. During the year from September 1954 to September 1955, installment credit increased by \$4,764,000,000, bringing the total of this type of pay-in-the-future debt to \$26,699,000,000.

### ETHIOPIA HAILS SELASSIE ON 25TH YEAR AS EMPEROR

ADDIS ABABA, Nov. 2 (UPI) — Ethiopia paid tribute today to Emperor Haile Selassie, the "Lion of Judah" whose stubborn faith helped his country survive defeat and occupation in the battle prelude to World War II.

It is the twenty-fifth anniversary of the Emperor's accession to his throne. His capital was gallantly defended. Gifts and greetings poured in from around the world.

Haile Selassie sent his tribemen against Italian forces in 1935 and later stood up in the League of Nations assembly to protest against the occupation of his country.

## U NU INVITES RED CHIEFS TO BURMA AND THEY ACCEPT

MOSCOW, Nov. 2 (UPI) — Burmese Premier U Nu announced today that he has invited Soviet Premier Bulganin and Soviet Communist party head Nikita Khrushchev to visit Burma. The visiting Premier said both men accepted.

Previously, U Nu had suggested that the Soviet Union send delegates to the next Asian-African conference, tentatively scheduled for Cairo. The Burmese leader spoke at a dinner given by 12 envoys of the Bandung bloc countries after his return from a tour of the Soviet Union.

Nu said many of the Soviet republics seemed to have much in common with Asia. When he suggested Russia should be represented at the next Asian-African conference, Bulganin replied it would be more desirable for the eastern republics of Russia to participate in such a conference than Russia as a whole.

### POLICEMAN SHOTS WIFE IN COURT WAITING ROOM

NEW YORK, Nov. 2 (UPI) — A policeman shot and seriously wounded his wife, the mother of four children, in the waiting room of Brooklyn Family Court today. They had been in court repeatedly because of domestic disputes.

Some 70 men and women saw the patrolman, Herman Baker, 37 years old, approach his seated wife from the rear. He fired a pistol shot into her neck and then fled into the street, police said.

He was caught and subdued without a fight by a patrolman attached to the court.

### MICHIGAN MOTORISTS SAID TO DRIVE WITHOUT PERMITS

DETROIT (AP) — Half of all motorists in Michigan whose drivers' licenses are revoked or suspended continue to drive, says the Automobile Club of Michigan. It made a study in 40 Michigan cities and a number of rural areas.

Club General Manager E. S. Matheson says the problem "is one of apprehension and punishment." He said "stiffer penalties would help." The current maximum sentence for the misdemeanor is 90 days in jail or a \$100 fine, or both.

### TURTLE EDITORIAL TOPIC AFTER BOY'S COMPLAINT

RICHMOND, Va. (AP) — A Richmond man motoring with his family ran over a terrapin. A 12-year-old boy ran up and said bitterly: "Think you're pretty brave, don't you, killing a little turtle." A woman walked over and said it was a terrible thing to do "making two little children cry."

The man said the glares of the boy and his mother had turned a pleasant Sunday into a wretched memory. He took his plight to the Richmond News Leader and asked the editor if there wasn't some way he could make the children—whose names and addresses he didn't know—understand he didn't run over their pet on purpose.

And the editorial ended with this: "Hey, lady! He didn't mean to hit the terrapin. Tell your boy so, will you?"

# MRS. ROOSEVELT HONORED BY HADASSAH YOUTH GROUP

CHICAGO, Nov. 2 (AP) — Hadassah, women's Zionist organization of America, honored Mrs. Eleanor Roosevelt yesterday as a "world mother."

Mrs. Roosevelt was proclaimed "world mother" of youth Aliyah, a Jewish youth group sponsored by Hadassah. It was the first time the organization issued the award.

Mrs. Roosevelt also was cited for "her devoted service over many years to the welfare of homeless and orphaned Jewish children of the world."

She told the organization's convention about her recent trip to Israel.

# ANHEUSER-BUSCH GIVES \$122,122 TO UNITED FUND

Corporate Donation 22 Pct. Above Last Year's Gifts — Drive Total Is \$1,455,253.

A corporate gift of \$122,122 has been made to the United Fund by Anheuser-Busch, Inc. It was announced today. The brewery's gift is 22 per cent above the total amount donated by the firm to the separate drives conducted in the area last year, William A. McDonnell, chairman of the campaign said.

A total of \$1,455,253 in gifts and pledges was reported at the United Fund first report meeting yesterday at Hotel Statler. The amount is 17.6 per cent of the \$8,245,925 goal.

McDonnell told the workers: "We must keep in front of us constantly that both the major part and the hardest part of the job we have volunteered for lies ahead. The earliest gifts are often those whose donors are most aware of the need... some of our divisions have barely gotten started on their work."

Actress Joan Crawford is to visit the South Side Day Nursery, 2930 Iowa avenue, today in behalf of the United Fund drive. The nursery is a member agency of the fund.

Yesterday Fran Warren, principal in the play, "The Pajama Game," and other members of the cast, spoke briefly to the workers at the meeting. Entertainment was provided by members of the Scott Air Force Base quartet.

The next report meeting is to be held Friday at 12:15 p.m. at the Statler. The fund raising campaign opened Oct. 21 and is scheduled to close Nov. 22. Proceeds from the drive will aid 114 health and welfare organizations in the St. Louis area.

# 1955 ST. LOUIS TAX BILLS TO BE MAILED THIS WEEK

Bills for 1955 taxes on St. Louis real estate and tangible personal property will be mailed this week, it was announced today by Collector Del Bannister.

The bills, which become delinquent after Dec. 31, represent total taxes of \$44,137,221, slightly higher than the \$44,064,176 in 1954 billings.

The tax rate this year is \$3.09 on the \$100 of assessed valuation. It represents a net drop of 1 cent from last year. Tangible personal property was taxed \$6,423,063; real estate, \$36,142,175 and the distributive property of public utilities, \$1,566,982.

**Honduras Cities Flooded.**  
TEGUICIGALPA, Nov. 2 (UP) — The government and United Fruit Co. today rushed rescue and relief parties to flood-stricken cities in the banana areas of northwestern Honduras. Hardest hit were Chamelecon, Villa Nueva and Progreso. Authorities appealed for United States helicopters from the Panama canal zone to aid in relief and rescue work.

# CAT IN CRATE 3 MONTHS ON AFRICA-BOUND SHIP DIES

DURBAN, South Africa, Nov. 2 (UP) — A black cat that lived for three months without food or water when trapped inside a packing crate died today.

The cat was found when the crate was opened yesterday. It had been imprisoned in the box of automobile parts shipped from Oxford, England.

Workmen at an automobile assembly plant here, who found

the emaciated, half-dead animal, called a veterinary surgeon who stayed awake through the night in an effort to save the animal. One theory was that it probably had lived on the grease used in packing the car parts.

# JOHN HODIAK ESTATE VALUE PUT AT LESS THAN \$25,000

LOS ANGELES, Nov. 2 (AP) — Actor John Hodiak's sister has filed a superior court petition asking for letters of administration to dispose of his estate estimated at less than \$25,000.

Mrs. Ann Sliva said her brother, who died of a heart attack Oct. 19 at 41, left no will. She said Hodiak's assets include not more than \$10,000 in cash, stocks not exceeding \$5000 and other personal property worth not more than \$10,000.

Listed as heirs were a daughter, Katrina, 4, living with Hodiak's former wife, actress Anne Baxter; his parents, Mr. and Mrs. Walter Hodiak Sr., a brother, Walter Jr., and Mrs. Sliva.

# LIBRARY BOND ISSUE LOSES 778 TO 251 IN COLLINSVILLE

A \$110,000 bond issue proposal to expand the Collinsville Memorial Public Library was defeated in an election yesterday. The vote was 778 against the proposal and 251 for it.

The plan was to buy property on both sides of the library, 408 West Main street, and add a wing to the structure. The

# ST. LOUIS POST-DISPATCH

Wed., Nov. 2, 1955 13A

bond issue was sponsored by the library board, which said the present library is unable to obtain more books because of overcrowded shelves.

## 3 MEN ENTER APARTMENT, ROB WATCH SELLER

**They Bind Him, Search  
Place 30 Minutes but  
Steal Only \$25 and 2  
Watches.**

Milton Green, salesman for the Bulova Watch Co., reported to police he was bound with tape last night in his apartment at the Gatesworth Hotel, 245 Union boulevard, by three men who conducted a 30-minute search but departed with only \$25 and two watches.

Green told detectives he was in his kitchenette at 10 o'clock when he heard a knock at the door. He called, "Come in," thinking a friend was calling, and was surprised when a stranger walked in.

The man shoved him against a wall, Green said, warning him to "keep quiet if you don't want to get hurt." Two other men entered, and the three bound Green's hands and feet, covered his eyes with adhesive tape, and forced him to lie on his bed.

In the ensuing search the men rummaged through sample cases, Green reported, and took his billfold containing the \$25. They took two alarm wrist-watches, valued at \$100 each and 65 watch cases, which Green described to police as "sample dummies, of no value to the robbers." He said he thinks the robbers were searching for 75 diamond-studded watch cases he recently shipped to his home office.

Following the departure of the robbers, who disassembled the telephone receiver, Green worked his hands free and notified the hotel manager. He said the robbers were young men.

## EMBEZZLES \$3352, WINS PROBATION, WON'T BE FIRED

SPOKANE, Wash., Nov. 2 (AP) — An accountant was granted probation yesterday because the boss he had stolen from had so much faith in the admitted embezzler he even took the company books to jail to be brought up to date.

Walter E. Anderson had surrendered to the prosecuting attorney and admitted the undetected embezzlement of \$3352 from a warehouse and storage company.

The president of the firm told the judge that Anderson still had a job awaiting him.

## MONEY ORDER SYSTEM HAS BEEN STREAMLINED

WASHINGTON, Nov. 2 (AP) — Postmaster General Arthur E. Summerfield says the money order system is now "streamlined for safety, convenience and efficiency to an extent hitherto unknown in postal history."

The system was put into operation on Nov. 1, 1954. During its first eight months, money orders totaled \$400,000. This year, Summerfield says, "The total will be approximately six billion dollars."

## Record Japanese Rice Crop.

TOKYO, Nov. 2 (AP) — The Agriculture-Forestry Ministry today predicted Japan's 1955 rice crop would set a record high by more than 40,000,000 bushels. The ministry said the crop would total 387,267,678 bushels, topping the record crop of 1933. The crop is more than 60,000,000 bushels over the average yearly total.

## FAURE CALLS FOR NEW VOTE OF CONFIDENCE

Chances of Retaining  
Control Called Even  
—Rift Is Now With  
Mendes-France.

PARIS, Nov. 2 (UP)—Premier Faure gave the National Assembly its fourth chance in four weeks today to vote him out of office, this time on his program for special parliamentary elections in December. Debate on the issue of confidence was set for 9 p.m. (2 p.m. St. Louis time). Usually several hours of debate precede the actual balloting. Observers gave the premier a 50-50 chance of surviving the vote and saving France from another international crisis.

Faure's own Radical Socialist party was split this time, with former Premier Mendes-France against him.

Faure raised the confidence question last night over a one-sentence bill dissolving the current Parliament Jan. 2. Its adoption would clear the way for a general election on either Dec. 4 or Dec. 11.

**Majority Cut.**  
Faure has survived three votes on his North African policies—two of them formal votes of confidence—which could have toppled his government. But each time his slender majority was trimmed. The last vote was so crucial it brought Foreign Minister Antoine Pinay flying home from the Geneva Big Four conference.

Faure's formal challenge stopped the debate in the bickering lower chamber until the 9 p.m. session. Deputies already had turned down 11 different electoral system reform schemes in three days of deadlocked and highly complex discussion.

Faure hoped to force the hand of the deputies, most of whom have come out publicly in favor of early elections but who hoped by parliamentary maneuvering to put off the day of decision. Now their votes must be counted.

**Intra-Party Fight.**  
Faure's call was regarded as a severe blow to Mendes-France who is just getting started with his own election campaign. So in the strange arena of French parliamentary disputes the real battle centered between Faure and Mendes-France, both members of the same party.

One of the major reforms sought by Faure is a system by which parties would form alliances before the voting and not after. Under the alliance system, small parties could gang up on big ones, a system that held the Communists to a sixth of the seats in the Assembly they normally would have won. But French voters detest the system because they find their votes go to a candidate they had no intention of supporting. Under Faure's proposal, the voters would know whom they were voting for and the Communists still would be cut down.

### MEADVILLE, PA., HOTEL FIRE SPREADS, 60 GUESTS FLEE

MEADVILLE, Pa., Nov. 2 (AP)—Fire broke out early today in the 80-room Lafayette hotel in the heart of the business district. Sixty guests fled from the burning structure, most of them in night clothes. Five hours after the blaze was discovered it was still raging and had spread to two adjoining stores.

"As far as I know everyone got out safely," said David Agnew, the hotel manager. Five guests were trapped on the fourth floor but firemen got them out with ladders.

## TVA CHAMPIONS DERIDE HOOVER GROUP'S POLICY

Clement, Hill, Sparkman Say Power Transfer Would Be Burden on Congress.

MUSCLE SHOALS, Ala., Nov. 2 (AP)—Gov. Frank G. Clement of Tennessee said yesterday his impression is that the Hoover commission is recommending "the New England system—private power paralysis and early flood washouts"—for the rest of the country.

Clement testified before a House subcommittee on water resources and power, which is hearing testimony on commission recommendations affecting the Tennessee Valley Authority.

Clement and Senators Lister Hill and John J. Sparkman of Alabama, all Democrats and strong champions of TVA, were the lead-off witnesses.

The commission generally approved recommendations of a task force which would halt TVA steam plant expansion and turn its rate-fixing powers over to the Federal Power Commission. Nonpower producing functions would go to other agencies under the plan.

#### Rate Table Challenged.

Hill charged that some of the commission's rate-fixing recommendations were "based on a fraudulent table." He said the commission table was not actual costs, but what the commission thought the cost should have been.

The Hoover commission was formed to recommend steps for increased economy and efficiency in government.

The first three witnesses charged that proposed transfer of TVA powers to other agencies, instead of increasing efficiency, would place greater burdens on Congress.

Clement said the Hoover commission reported that "with some exceptions, the critical place for co-ordination of water developments is at the river basin level."

But he added, the Hoover commission would strip "TVA of flood control and other non-power activities; prohibit construction of new system capacity, revive Dixon-Yates type deals by forcing TVA to supply growing power needs from surrounding private power companies, and force up rates by legislative action."

Clement and Hill assailed proposals that agencies administering revenue-producing water resource and power projects should pay all cash revenues to the Treasury as miscellaneous receipts, and receive annual appropriations for cash operating expenditures.

Clement said this would in effect put Congress in the business of administering not only the TVA but every other federal corporation.

He called a proposal that regulation of rates for sale of electrical energy by federal agencies be vested in the FPC "a pious disguise for the real pocket-picking, planned for the people of this country in this Hoover report."

## SIR PIERSON DIXON CITES NEED FOR RADIATION STUDY

The New York Herald Tribune Post Dispatch Special Dispatch  
UNITED NATIONS, N.Y., Nov. 2—Sir Pierson Dixon, British delegate, is supporting a Western resolution calling for a world-wide survey on the effects of atomic radiation on human beings, said in the United Nations Political Committee yesterday.

"It is a problem about which we have all need to know more facts before we can proceed to draw deductions. It is a problem which easily lends itself to unscientific speculations and popular misconceptions. It is a problem vaguely connected, in the popular mind, both with the terrors and with the allurements of the age of the atom."

"It arouses more curiosity than all the alchemy of the Middle Ages. It is as hair-raising as a werewolf, as sensational as witchcraft. But we live, not in the Middle Ages, but in the twentieth century. If ever there was a problem which demanded a scientific factual approach, here is one. In this age of enlightenment we do not fear facts; but let us know first what the facts are."

## ABSENTEE BALLOT REQUEST FORMS GO OUT TO DOCTORS

Request forms for absentee ballots are being sent to physicians by the Citizens' Bond Issue Committee of St. Louis County so that persons confined to their homes because of illness may have an opportunity to vote, it was announced today. Ballots will be sent out by the Election Board after the forms have been certified and filed.

Dr. Willard Bartlett, chairman of the physician's committee, said every effort will be made to give patients an opportunity to vote Nov. 22. A total of \$39,712,000 is sought under the bond issue to provide needed services and facilities in the county.

Other members of the physicians' committee are: Dr. Delevan Calkins, Dr. M. A. Diehr, Dr. Charles C. Drace Jr., Dr. Louis F. Howe, Dr. Carl C. Irick, Dr. John G. Kellett, Dr. Guy N. Magness, Dr. Charles E. Martin and Dr. Max Starkloff.

## FRENCH SEND FISH NETS DEEP IN RESEARCH TESTS

PARIS (INS)—A French scientific research ship, the Caluso, is exploring the deeper reaches of the Aegean sea with a net that will go as far down as 4000 meters below sea level.

The experiment is designed to establish at what depth the largest number of fish can be caught. French scientists hold that great schools of fish can be found at depths ranging from 600 to 1200 meters.

These deep sea regions have not yet been worked on an industrial scale because ordinary nets will not go that deep.

## KING HAAGON'S ANNIVERSARY FESTIVITIES ARE POSTPONED

OSLO, Nov. 2 (AP)—King Haakon of Norway is recovering steadily from injuries received last June, but he may not resume his official duties for some months yet, his doctors say.

The government announced yesterday the indefinite postponement of planned festivities on the fiftieth anniversary of the King's crowning later this month.

The 83-year-old king fractured his thigh bone when he slipped and fell in the bathroom of his summer home.

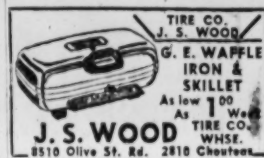

## ST. LOUIS POST-DISPATCH FLAG FLOWN OVER CAPITOL MAKES ROUNDS OF STATES

ELIZABETHTOWN, Ill. (UP)—J. T. Hearrell, a former sheriff has an unusual hobby. He obtained a flag which flew over the Capitol in Washington, and started it on the rounds to the various states, asking that it be flown over the capitol buildings and returned to him.

So far, 37 states have obliged Hearrell, but Iowa turned down his request. The flag is 5-by-10 feet, and Iowa regulations call

Wed., Nov. 2, 1955 17A

for flags of only 5-by-8 feet to be flown over its capitol.

## QUALITY SCALE SUGGESTED FOR CROP SUPPORTS

**U.S. Representative  
Proposes 90 Pct.  
Floor Under Better  
Grades.**

FRESNO, Calif., Nov. 2 (AP)—The Senate Agriculture Committee found new backing today for the idea that farmers be required to produce top quality products in order to be eligible for full benefits of farm programs.

Representative B. F. Sisk (Dem.), California, suggested that price supports on major crops be placed on a sliding scale. Highest grades would be supported at 90 per cent of parity with poorer grades drawing lower price guarantees in the parity scale.

Parity is the price goal of federal farm programs. Sisk offered this proposal to the committee which scheduled a hearing to get ideas of farmers on how to improve agricultural prices. The committee is holding hearings in all major farming areas of the country.

Sisk criticized the Eisenhower Administration program of flexible price supports, contending that it "ignores human principles and works hardships on small farmers."

The proposal that farm programs offer higher price guarantees than at present on top quality wheat, corn, cotton and other commodities was advocated by many farmers testifying at hearings in the Midwest last week and at Pendleton, Ore., Monday.

It also is one in which committee chairman Allen J. Ellender (Dem.), Louisiana, has shown a deep interest.

Sisk said a plan offering high supports for quality products and lower supports for poorer grades would discourage farmers in many areas of the country from producing low-grade cotton and other crops for disposal to the Government under the Government's surplus program.

"In cotton," the Congressman said, "we have a striking example of what this overproduction of inferior grades has meant to our own California growers."

He explained that the same production restrictions are placed on California growers of high quality cotton as are placed on growers in other areas who produce a poorer grade.

Today's hearing was to devote much of its time to problems relating to cotton, livestock, and fruits.

## REDS' ARAB POLICY IS DISCOURAGING, SENATOR ASSERTS

CHICAGO, Nov. 2 (AP)—Senator Humphrey (Dem.), Minnesota, said last night that "the Kremlin's dangerous new diplomacy" in the Middle East is "the most discouraging indication yet that Russian intentions have not really changed."

Humphrey, a member of the Senate Foreign Relations Committee, told a Temple Shalom Men's Club dinner meeting.

"The Soviet Union's sudden and reckless promotion of an armament race between the Arab states and Israel is scarcely consistent with the Geneva spirit."

"If the Soviet Union insists on supplying arms to Middle Eastern governments whose leaders are daily making more inflammatory speeches about Israel, the inevitable result will be to sharpen the probability of hostilities."

"Judging by Soviet moves in the Middle East, we can say that since Geneva Soviet policy has been a subtle combination of smiles and selective irritation."

## JOHN ALLEN KENDRICK PUT ON FBI 'MOST WANTED' LIST

WASHINGTON, Nov. 2 (UP)—The Federal Bureau of Investigation today added gunman John Allen Kendrick to its list of "10 most wanted fugitives."

Kendrick, about 55 years old, is wanted for prosecution on six different criminal charges as well as for violating his conditional release last year from Leavenworth penitentiary. His criminal record dates back to the 1930s.

Kendrick is five feet, seven inches tall and, the FBI said, weighs a "solid" 202 pounds. He has blue-gray eyes, dark brown hair which is graying at the sides and his face bears numerous cut scars. The FBI urged any individual having information about Kendrick to contact FBI Director J. Edgar Hoover.

## NEWSPAPER CARRIER HURT

Bernard Weishar, a newspaper carrier, suffered a broken leg when his truck, driven by his wife, was struck by an automobile early today, causing him to fall from the rear platform. He was taken to City Hospital.

The driver of the car presented a driver's license and gave his name as that on the license when he was booked by police. He inadvertently signed his real name when filling out a receipt for his personal property, police said. He said he was David Frazier of the 4500 block of Emerson avenue. He was booked on charges of careless driving and having an improper driver's license. Weishar lives at 6027 North Point place.

## BOY CONVICTED OF KILLING HIS GRANDMOTHER, GETS LIFE

WARREN, Ark., Nov. 2 (AP)—Young Kenneth Nevels was convicted of first degree murder yesterday for killing his

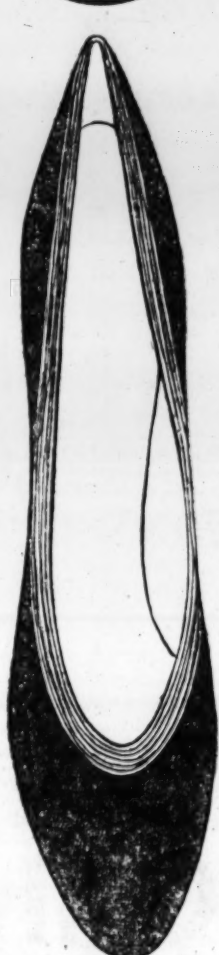

grandmother. His sentence was set at life in prison.

The verdict was returned by a jury of 12 men after they had heard the 15-year-old Corpus Christi (Tex.) youth calmly relate how he had shot Mrs. Melinda Nevels, 83, as she sat at the breakfast table. The boy had testified he was

a user of narcotics. He said he took a heroin capsule, drank a bottle of beer, then got a rifle from another room and went to the kitchen where he shot Mrs. Nevels in the head. Neither the prosecution nor defense questioned the boy about a motive for the killing.

## PROWLER TELLS OF WOODWARD ESTATE RAIDS

Re-enacts 2 Intrusions—Was Looting Near-by Snack Bar at Time of Killing.

MINEOLA, N.Y., Nov. 2 (AP)—A prowler has re-enacted on a Long Island estate the two intrusions that Mrs. William Woodward says had her upset and nervous on the night she shot her wealthy sportsman husband to death.

Police took Paul W. Wirths, a convicted burglar, to the 60-acre Woodward home at dusk yesterday. They said he admitted breaking into the garage and bathroom of the estate on two occasions several days before the shooting.

Mrs. Woodward had told police that evidence of these break-ins caused her and her husband to arm themselves with shotguns before going to bed early last Sunday. An hour or so later, the statement went on, she fired at what she thought was the prowler on a return visit. Instead she hit and killed her husband.

After questioning Wirths for hours, Stuyvesant Pinnell, chief of Nassau county detectives, said he was convinced the 22-year-old German refugee was "not on the Woodward property" at the time of the shooting. Pinnell said Wirths at that time was rading a golf course snack bar at a nearby country club.

Mrs. Woodward Confined. While Nassau authorities continued their investigation, Mrs. Woodward remained in Doctors hospital in New York City. She was taken there in what her doctor called a state of deep shock and under sedatives for hysteria after the shooting.

Although her doctor's reports have indicated steady improvement in her condition, he said yesterday he would forbid her to leave her bed to attend her husband's funeral in New York City.

Her doctor said Mrs. Woodward wept uncontrollably when told she would not be permitted to attend her husband's funeral.

From her bed, she ordered a blanket of flowers—in red and white, his racing colors—sent to the funeral. She instructed also that his and her private nicknames be inscribed on a small ribbon attached to the bouquet.

More than 1000 persons crammed St. James Episcopal Church in Manhattan for Woodward's funeral.

Eddie Arcaro, the jockey who usually rode Nashua, attended the funeral services, as did James (Sunny Jim) Fitzsimmons, trainer of the horse, and Sammy Renick, a former jockey.

Among those attending were Alfred Gwynne Vanderbilt, the Marquess of Milford-Haven, Francis X. Biddle, Mrs. Winston Guest, the former Lady Ashley, Robert Strawbridge, Mrs. Bernard Gimbel, Count Vava Adlerberg, Major and Mrs. John Warner, Serge Obolensky and Jane Pickens.

Mrs. Woodward requested that her husband's favorite hymn at Groton be sung at the service. Two hymns were sung—"Ten Thousand Times Ten Thousand" and "The Strife Is O'er"—but it was not disclosed which was the one she requested.

The 35-year-old Woodward, owner of this year's outstanding racehorse, Nashua, was a member of one of New York's most socially prominent families. The Woodwards, parents of two young sons, were spending the weekend at Oyster Bay when the shooting occurred. They moved in top level social circles and that evening had attended a party given on a nearby estate for the Duchess of Windsor.

The Woodward Investigation

Includes a check on whether the couple's marriage was harmonious. There have been reports from various sources of discord, but so far police have not reported any such findings. There were also reports that the two were quite happy together.

District Attorney Frank Gullotta of Nassau county said questioning is planned for everyone present at the party, indicating that the duchess was among those who will be questioned.

The investigation yesterday was largely confined to Wirths. He was held on a burglary charge not directly related to the Woodward case.

Pinnell said Wirths told police he did not hear any dog bark when he was prowling around the estate on the two occasions prior to the shooting. Interest in the dog stemmed from Mrs. Woodward's statement to police that the noise that work her could have been her dog barking.

Pinnell said Mrs. Woodward answered "yes" when he specifically asked her: "Does the dog bark usually on the first strange noise it hears?"

## CHILDS

Current Geneva Talks Becoming  
Diplomatic Duel Between Old  
Adversaries Dulles and MolotovEach Under Special Urgency to Appear  
as Victor in Parley—Some Progress  
Beyond Words of Summit Conference  
Essential for Success.By MARQUIS W. CHILDS  
A Staff Correspondent of the Post-Dispatch.  
(Copyright, 1955, The Pulitzer Publishing Co.)  
GENEVA, Nov. 2.

THIS SECOND ROUND of the effort to negotiate a peace between East and West is resolving itself into a diplomatic duel between two old adversaries. For nearly 10 years John Foster Dulles, the American Secretary of State, and Vyacheslav M. Molotov, the Soviet Foreign Minister, have been sparring with each other and now this conference has become for each one a test of power.

Dulles has set out to demonstrate that the Soviet Union through Molotov means to block any real security for Western Europe by obstructing the reunification of Germany, which in the Western view is essential to peace. Molotov is trying with all his considerable skill to concentrate attention on a security pact that will, by implication, at least, accept the two Germanys. That was the heart of the struggle when the conference resumed today after Dulles' quick flight to Madrid. It will continue to be day after day, no matter what the subject officially on the agenda.

The two other Western Foreign Ministers—Pinay of France and Macmillan of Britain—seem content to follow Dulles' lead. Both have had far less experience in foreign policy than the American and they seem willing to let him act as quarterback calling the plays of the Western team.

**Special Urgency for Dulles.**  
With the Democrats prepared to make foreign policy an issue in next year's campaign—both Stevenson's and Dean Acheson's recent blasts against administration policy had echoes over here—Dulles must feel a special urgency to make this conference look like a success from the Western viewpoint. The responsibility is more than ever his, in view of President Eisenhower's illness.

The gauge of success on this second round cannot be a mere repetition of the words about harmony and peace that ended the summit meeting in July. There must be some progress, however slight, toward the goals set forth by the four heads of government last summer. And, failing that progress, the blame must rest on the Soviet Union.

For Molotov, too, there are special reasons why he must not fail at Geneva. He was publicly rebuked not long ago for deviating from the correct Communist line. This public scolding coincided with reports that he would soon be replaced as Foreign Minister. His prestige and authority have declined and the current conference could well be his last.

**Dulles' View of Molotov.**  
What Molotov thinks of his adversary we are not likely to know short of a sudden alteration in the present climate of amiability. But what Dulles

thinks of Molotov is written for all to read.

Having served as Republican representative after 1945 on many American delegations to the United Nations and for sessions of the Foreign Ministers, Dulles in his book "War or Peace" called Molotov the most effective diplomat of our time. To document this he cited some of the tricky plays that the Soviet Foreign Minister had put over on the West. Before he left Washington for the Berlin conference in the winter of 1954, Dulles showed something like awe and dread at contesting with so formidable a foe.

Today the Secretary of State seems confident of his ability to best his old enemy. He takes a positive pleasure in the parry and thrust of the current duel.

When Molotov kept insisting on inviting both Germanys to send representatives to the conference, Dulles readily detected the satisfaction Dulles had in turning this back on his adversary by showing that since all four ministers wanted West Germany—and only Molotov wanted both West and East, and since Molotov refused to have the West alone represented, it was Molotov who was blocking any German representation at Geneva. These are fine points and they are unlikely to get over to the general public. But they are part of the score that will decide the final result.

**Both Nearing Retirement.**  
Both men are nearing the end of long and crowded careers. Dulles is 67 years old and Molotov is 65. Both must feel the strain of the long hours of preparation that precede the exchanges across the conference table.

When they meet on formal occasions, as at the dinner that Molotov gave for the Secretary, they exchange agreeable pleasantries and the smiles of the "Geneva spirit" prevail. Dulles was once asked if he thought he had impressed Molotov by a certain argument and he replied that the Soviet minister's face was so completely expressionless that he could never tell whether he was impressing him or not. From behind the diplomatic mask that each carefully maintains, these two longtime adversaries warily watch one another, both knowing that this is far more than a personal duel.

Reds Aiming to Disturb Balance  
Of Power in the Middle EastUsing Old Tactics to Isolate Western  
Powers From Markets, Raw Materials  
in Asia, Africa.By J. M. ROBERTS  
Associated Press News Analyst.

SEVERAL years ago international Communism consolidated into a continuing program several lines of action which previously had been laid down for different parts of the world. Briefly, this program calls for separation of the European powers from their markets and sources of raw materials in Asia and Africa, which could then be acquired by Communism while the western economy was collapsing. Communist hopes for conquest of the West always have been predicated on such a collapse.

The program was adopted when the West failed to collapse after World War II, which the Communists had done so much to bring on when they signed their 1939 pact with Hitler. The postwar situation was saved very largely through the economic strength of the United States.

**Repeats Tactics.**  
Now Russia is acting in the Middle East very much as it acted in middle Europe in 1939. While the United States and Britain were working very hard and very carefully to prevent a new war in that area, the Communists moved in to disturb the balance of power by practically giving heavy arms to Egypt.

That made Russia the virtual sponsor of one side in the Arab-Israeli dispute, a position into which the United States had refused to be maneuvered when it insisted that it would supply only defensive weapons on a cash basis.

The problem now is the very delicate one of trying to restore the balance, either by arms or security pledges for Israel, without creating a situation similar to that which developed in Korea. There the United States and the United Nations sponsored one side and Russia subverted the other, and a war resulted in which the free

world had to fight very large Communist-controlled forces.

The danger in the Middle East is not to be minimized. The Arabs are bitterly dedicated to reconquest of Israel. Arab children are drilled in hatred. Their elders are drilled in fear that the dynamic Israelis will eventually attempt to expand the territory they have been given.

Thoughts of war, therefore, take on preventive aspects on both sides.

**Mid-East Penetration.**  
There are no indications that Russia will do anything to help alleviate the situation. Instead, it seems to have deliberately taken advantage of a long-watched-for opportunity to inject itself into the Middle East and Africa, and is working hard at it.

In the meantime, the Big Four conference at Geneva exerts itself toward better cultural understanding. Better political and military understanding, a square face-up to what the Communists are doing is more important at this moment.

## Castillo at Inter-American Meeting

PRESIDENT CARLOS CASTILLO ARMAS of Guatemala addressing special session of the Organization of American States at Washington yesterday. Seated, as Castillo pledged support to inter-American solidarity, are (from left): DR. JUAN BAUTISTA DE LAMALLE of Peru, M. L. O. LEGER, Haiti; DR. JOSE A. MORA, Uruguay, and DR. GUILLERMO SEVILLA SACASA, Nicaragua.

Castillo Warns U.S. to Beware  
Of Russia's New FriendlinessWhen Communists Say Something Is  
'White' It Is Black, Guatemala's Presi-  
dent Says—Will Call on Eisenhower.By RICHARD DUDMAN  
A Washington Correspondent of the Post-Dispatch.

PRESIDENT Carlos Castillo Armas of Guatemala, describing his country as the first in history to overthrow a Communist dictatorship, warned today against trusting Russia's new attitude of friendliness toward the West.

"Experience tells us that when the Communists say something is white it is black, when they say it is cold it is very warm," he said.

He said the Western nations were sincere in their hopes to avoid armed conflict, but he added that he doubted "the sincerity and possibility of success" of the "spirit of Geneva."

The Guatemalan president, who overthrew a Communist-dominated dictatorship in Guatemala last year, addressed the National Press Club here. He and his wife are making a two-week state visit to the United States.

Asked what he would say to President Eisenhower, whom he will visit next Wednesday at Fitzsimmons Army Hospital at Denver, Castillo said: "I will not worsen his condition as a patient by speaking of our problems. I will limit myself to extending our best wishes and our hopes for his rapid recovery."

Problems facing the new Guatemalan government took up most of his speech. He warned that "it is not enough to defeat Communism with arms."

"Our ultimate objective is to see all classes free of fear and want, and we have been working hard to achieve that objective as rapidly as possible," he said.

The government's primary goals, he added, are to develop a health democracy, streamline administrative machinery, develop the nation's distinctive culture and "strengthen our spiritual heritage on the basis of work, justice and liberty."

Predicting that the remaining Communists would take advantage of political liberty to try to regain power, Castillo said: "If need be, we shall take recourse to force to keep them in their place."

## PEARSON

Welker Tries  
To Alibi for  
Hiring His KinSenator Busy Ex-  
plaining in Ida-  
ho, but Omits  
Some Relatives.By DREW PEARSON  
(Copyright, 1955.)

WHEN Senator Stennis of Mississippi got home on a MATS government plane he felt rather unhappy about having taken his wife with him on that plane and offered to reimburse the government. The government said: "Delighted."

Mrs. McClellan of Arkansas, wife of the third traveling Senator, did not come home on a government plane.

When the hullabaloo broke about the two special Air Force planes grounded across the Atlantic for three Senators, she went to the Spanish air line in Madrid and bought two commercial tickets for herself and husband. Senator McClellan, however, declined. He said he hadn't done anything wrong and he would come home by MATS. He was on official business, he said, and he would occupy one seat in a regular transport plane.

Mrs. McClellan insisted that she would come back commercial, so boarded the Spanish plane. Over the Atlantic, however, a motor caught on fire, they had to turn back. No one was hurt, but Mrs. McClellan, shaken up by all these events, figures next time she'll just as soon stay home.

## Relatives on Payroll.

Senator Welker, the Senate's Junior McCarthy, has been going around Idaho trying to alibi for putting his relatives on the payroll. However, he's carefully omitting some of his relatives, among them his sister-in-law Eloise Welker, and his brother-in-law Neal D. Nelson, who used to work in Welker's office and for whom Herman got a job as regional director of land management in Salt Lake City. ... Brother Ted Welker, an ex-truck driver, whom the Senator put on the payroll at \$5200 a year, had nothing to do except sit in Idaho, answer a few letters and visit relatives in the East. When this column called attention to Welker's nepotism, brother Ted resigned.

There was much more than meets the eye behind that sudden press conference called by Senator Welker last week.

Continued on Page 8, Column 4.

## ALSOP

Stevenson in Trouble in South,  
Truman Also a DisappointmentBig Question for Illinoisan Is Whether  
He Can Exploit Present Advantages,  
Get Bandwagon Started.By JOSEPH and STEWART ALSOP  
WASHINGTON.

THE PRESIDENTIAL CANDIDACY of Adlai E. Stevenson is not developing quite according to plan. Some of the disappointments have been obvious enough, as in the South. Stevenson gave a remarkably large share of the last three years to making southern friends. The southerners were also elaborately wooed on his behalf by the able former chairman of the Democratic National Committee, Stephen Mitchell.

As recently as a fortnight ago, there was no doubt in the Stevenson camp that these efforts had met with solid success. Stevenson believed that Senator Richard Russell of Georgia would publicly endorse his candidacy. A massive bloc of 250 southern and border state delegates was the planned key to the convention strategy.

It was a heavy blow, therefore, when Senator Russell announced that Stevenson was "too far to the left" for Georgia. It was a blow, too, when Senate Majority Leader Lyndon Johnson of Texas issued a rallying call for a southern effort to impose a "centrist" party. The Stevenson strategy has plainly run into trouble on its crucial southern flank.

Then again, it is pretty plain that the recent attitude of former President Harry S. Truman has been another severe disappointment to the Stevenson camp. Those who know the two men best are pretty sure that Truman urged Stevenson to "get in there and fight" for the nomination; that Stevenson made his stock lament about fighting fellow Democrats; and that Truman, always impatient of anything savoring of political niceness, got a bit peppy about Stevenson's lack of gusto. And so Truman, who actually wanted Stevenson to announce his candidacy last summer, came out of the recent meeting with no warm praise for Stevenson to balance what he had said on New York Gov. Harriman's behalf earlier.

On the other hand, the last few days have also brought clear confirmation of Adlai Stevenson's status as the Democratic front-runner.

One sign was the invitation of the Minnesota delegates to enter their primary, which virtually read, "Come on in and win." Another is the now-solid commitment of Pennsylvania to Stevenson. This came over the weekend, when Pennsylvania's

MOLOTOV HAS 'RED' FOOD  
FLOWN TO HIM AT GENEVA

GENEVA, Nov. 2 (UPI)—Soviet Foreign Minister V. M. Molotov sends a Russian plane to Communist East Berlin every day to pick up food. Swiss security officials disclosed today.

It was not known whether this was a security measure or simply that Molotov does not like Swiss foods. He also has gasoline for the plane sent from Communist Prague.

at Central Hardware  
KITCHEN WALL CABINETS

Buy Them Separately, Or in Sets  
According to Your Wall Space

**SALE!**  
Regularly \$5.09  
**4 29** PER CABINET

Beautifully finished with 2 coats of gleaming white baked-on enamel—chrome handles. The right and left-hand cabinets are 15 in. wide by 24 in. high. The 2-door center cabinet is 24 in. wide, 15 in. high.

## Mother-of-Pearl TOILET SEATS

FINISH NEW LAMINATED-PLASTIC COVERING! CAN'T PEEL! CAN'T DISCOLOR! SEAT CAN'T CRACK!

Mother-of-Pearl colors: white, black, peach, green or blue.

Regularly \$6.95  
**\$5.88**

## FILE CABINETS

**1/2 OFF!**  
Regularly \$15.95  
**SALE! 7 95**

The ideal file cabinet for offices, small stores, service stations, etc. Only a special purchase enables us to sell them at such a terrific savings! These sturdy cabinets have four drawers... 3x5" card size with a name plate holder on each drawer. 10 1/2 x 12 1/2 x 16 inches over all.

## STOP CONDENSATION DRIP

FROM WATER PIPES  
Roll Covers \$1.49  
15 Feet of 1/2-in. Pipe!

Insulate does not absorb moisture, but actually keeps moisture from condensing on water pipes! Put it on in only a few minutes—just wrap around pipes.

## AIR CONDITIONER COVER

Protects from rain, ice, snow and dust! Fits standard size conditioners! Made of heavy-duty water-repellent duck!

Regularly 3.95  
**\$2.95**

Extra Large Size Cover \$3.95

## DESTROY ROOTS IN SEWER LINES

Destroys Other Foreign Matter At the Same Time!

**\$2.50** Pkg.

Just pour "Root-Ban" down the basement sewer. It goes to work as it passes through the sewer line, destroys the clogging roots without harming the tree! Dissolves paper and other foreign matter at the same time.

## THE POST-DISPATCH PLATFORM

I know that my retirement will make no difference in its cardinal principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight for the rights of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare; never be satisfied with merely printing news, always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER  
April 16, 1907.

Wednesday, November 2, 1955

## LETTERS FROM THE PEOPLE

## Charter in Georgia

To the Editor of the Post-Dispatch:  
The State of Georgia granted a charter Oct. 25 to the Knights of the Ku Klux Klan. Two days prior, Attorney General Cook of that state unleashed a vicious attack against the National Association for the Advancement of Colored People. He declared it was "subversive and Communist inspired," and that he would seek to have its charter revoked.

How farcical can Mr. Cook and the State of Georgia get? If we, sober Americans, compare the two organizations, we can only conclude that something is drastically wrong with the logic used in the sovereign State of Georgia.

The N.A.A.C.P. has dedicated itself to promote the economic, social, and political status of the Negro and other minorities, and by every legal means possible has worked fervently toward that end. History portrays it as a courageous, ever vigilant organization fighting for the principles of equality and justice.

On the other hand, the Ku Klux Klan, listed by the office of the United States Attorney General as subversive, is allegedly dedicated to promote a better way of life among its members and to uphold the Constitution of the United States. But history shows it ruthlessly depriving millions of Americans of rights guaranteed by that Constitution.

Through intimidations, lynchings, murders, economic pressures, poll-taxes, and other Nazi-like tactics the Klan has maliciously attempted to keep a race of people as close to the shackles of slavery as possible.

How long can the proud, humane and compassionate leadership of our inspired America continue to tolerate such intolerance? How long can we condone such contempt for the Constitution, the Declaration of Independence and the Supreme Court of the United States?

WILLIAM L. CLAY, President,  
St. Louis Branch, National Association for the Advancement of Colored People.

## Who's Who in Sports?

To the Editor of the Post-Dispatch:  
Last week the sports writers of America picked Navy as the team to beat in the nation, Notre Dame No. 9 or No. 10. The bookmakers of America (Yes, Virginia, there still are bookmakers) picked Notre Dame to beat Navy by seven points or more. The score: Notre Dame 21, Navy 7. Who knows?

VOX UNPOPULI

## No Mere Slogan

To the Editor of the Post-Dispatch:  
Reader C.W.S.'s recent remark that the "Spirit of Geneva" was merely another advertising slogan of the Eisenhower Administration struck me as just a little petty. It also displayed C.W.S.'s ingratitude to a great man for a job well done.

Maybe C.W.S. is just bitter because he wasn't so "liberal" and didn't give any important position of our country to a Jew. He is ashamed of what he had to say?

The thing that amused me the most about that letter was not what C.W.S. had to say but rather the fact that our cynical cynic couldn't sign his name. Is he ashamed of what he had to say?

BILL EMERSON,  
Hillsboro, Mo.

## 10 Days for Uprooting

To the Editor of the Post-Dispatch:  
I'm fit to be tied!

I am all for getting rid of rats and their breeding places, but I hardly think my tomato vines will harbor them.

We have 10 days to get rid of the vines; but just a stone's throw from our back door, an important public official's brother has opened a dump.

All summer we and our neighbors had to put up with flying papers. The odor that permeated the air was too horrible to describe.

We could hardly eat a meal, we were so nauseated by the stench that emanated from this so-called sanitary landfill.

After a neighbor and I had taken this smell as long as we could bear it, we decided to investigate.

What we found was a lot of uncovered rotten fruit and vegetables, swarming with flies and stinking to high heaven.

We asked to see the owner, but conveniently, he was out of reach.

Now I should like to ask the \$64,000 question:

How can I get a relative or friend a job at the City Hall?

MRS. JOHN S. SOOS.

## Signs in the Country

To the Editor of the Post-Dispatch:  
A front page news item in the Post-Dispatch states that the Citizens' Bond Issue Committee is erecting about 50 signs to urge the passage of the county bond issue in this month's election.

Are the funds necessary for this project being contributed privately? Or is this cash coming out of the pockets of the taxpayers?

If being paid for with taxpayers' money, are there also to be a similar number of signs protesting the passage of this additional levy on county taxpayers? No? Then why not?

St. Louis County, A. W. OLSEN.

Editor's Note: Signs erected by the Citizens' Bond Issue Committee are privately financed.

## Bonn Watches Geneva

The Geneva stalemate on German reunification has set off echoes in Bonn which are not reassuring. The official West German observer at the foreign ministers' meeting has been fully supporting the Western proposals, but they are being criticized at home as offering no basis for negotiation.

Thus Heinrich Krone, floor leader of Chancellor Adenauer's Christian Democrats in the Bundestag, has warned German Foreign Minister Heinrich von Brentano that the situation is "deteriorating" and that there is an increasing demand for a "German approach" to the problem.

There is danger, too, of new splits in the none too solid ruling coalition, especially since illness is preventing firm control of the situation by Dr. Adenauer.

The Social Democratic opposition leaders—particularly Herbert Wehner, their foreign affairs expert—are again attacking the government for following the lead of the Western Big Three too blindly. They are urging the German government to approach Paris, London and Washington to see if these may not be willing to modify somewhat their conditions for reunification. What they want is relaxation of insistence on NATO membership for a reunited Germany.

It would be less than realistic not to recognize that this agitation in Bonn—together with Von Brentano's slightly enigmatic remark at Frankfurt that he believes the Russian desire for a settlement to be sincere—is playing into Soviet hands. Certainly it backs up Walter Lippmann's observation that there is "every reason to think, as Moscow certainly does think, that Adenauer's successor will not stand upon, that he will negotiate about, the terms that the West is proposing at Geneva."

Under these circumstances, it is somewhat paradoxical that the Western position was taken not only with a view to Western security, but perhaps even more to uphold Dr. Adenauer against his adversaries. In view of the Chancellor's strong pro-Western record, he can claim such support. Yet there must be concern over his failure to designate a strong and obvious successor or to impart to his coalition his own firm feelings.

As Mr. Lippmann also observes, the West is handicapped by President Eisenhower's illness, by Britain's economic troubles and by the grave colonial problems of the French government, not to mention its instability. But these factors are extraneous to the German question.

For the moment they may lessen the scope of the Western foreign ministers for diplomatic maneuvering. But while nobody expects a German solution to be achieved at this Geneva meeting, there is no reason to believe that more time may not generate new ideas and serve the West every bit as much as the Russians expect it to serve them.

## Riot at the Workhouse

The violent emotional explosion at the Workhouse is a painful reminder that the civic sore on South Broadway is still with us and, what is worse, that it is still festering.

This 100-year-old institution for petty offenders is physically outmoded, crowded to excess and patently incapable of providing little if any useful activity for the unfortunate inmates behind its ancient walls. If anybody has been rehabilitated there in years a miracle must have taken place.

In the face of such immovable obstacles Warden Baynes has been making a commendable effort to improve living conditions and to put all inmates on an equal basis, and this is all to the good. But in effect he is conducting a holding operation looking to the day when the present Workhouse can be abandoned and the inmates moved to the more suitable facility authorized by the voters in last spring's \$110,000,000 bond issue.

The new Workhouse will be a \$3,000,000 layout designed for 500 inmates, 400 of whom will be housed in cells but in dormitories, as befits an institution designed principally for misdemeanants. It will be located on a suitable tract in the country where truck farming will be possible. Sites at Mississippi Hills in north St. Louis county and in Meramec Hills at Valley Park already have been examined and declared suitable.

Unfortunately, however, some time is bound to elapse before the new institution is completed. How long this interval will be is a question, although the Tucker Administration has ordered priority attention for the project. Obviously every effort ought to be made to get started as quickly as possible.

Meantime perhaps Mayor Tucker might consider calling a conference of judges, prosecutors, police and city officials concerned, including Warden Baynes, in an effort to work out a reasonable program to help the institution through this interim period. Such a conference might seek means of reducing the Workhouse population, of increasing security so as to minimize the danger of future riots, and perhaps even of finding something useful for the inmates to do.

## The Only Kind of Solution

Israeli Foreign Minister Moshe Sharett describes his visit to Geneva as "modestly successful." Just what his round of interviews with the Big Four foreign ministers yielded must remain for future events to disclose. From the standpoint of the world at large, his trip will prove successful only if it contributes to the overriding cause of lessening the war danger in the Middle East.

At this moment the greatest contribution to that end could be made by the Soviet Union if it would undertake to halt the shipment of arms from Communist nations to the Arab bloc. Unfortunately there is almost no likelihood of this happening, despite the stern warnings handed to Molotov by the Western foreign ministers. Having just touched match to the flame, Moscow is unlikely to be much concerned with putting it out. Realists will accept this as part of the situation to be dealt with.

They will also accept the fact that Moscow is playing its devious game not out of admiration for the Arab bloc, but solely as an exercise in power politics. By arming the Arabs it is responding to and hoping to counteract the drive of the Western allies to organize the Moslem states into another barrier against Soviet expansion.

Ideally the best solution would be an agreement between East and West which stabilized their relations in the Middle East and brought to an end the competitive effort to line up the Arab bloc as a military asset on one side or the other. Until the time is ripe for such a stabilization, the West's supreme efforts must be applied to preventing the outbreak of a full-scale war between Israel and its Arab foes—a war which might expand into a larger conflict.

That objective requires the West to make perfectly clear to Israel that the "preventive war" which is mentioned by some Israeli leaders will

not be tolerated. It requires even more an unmistakable warning to Egypt and the other Arab states that aggression by them will not be tolerated—that the West stands by its 1950 pledge to maintain the present frontiers and a balance of arms levels calculated to render aggression by either side impossible.

The return of David Ben-Gurion to the leadership of Israel's government, together with his offer to meet Arab leaders at once to negotiate either a long-run or an interim settlement, offers some hope for improvement of the Middle East situation. It is up to the Western powers to make clear to both Israel and Egypt that the only permissible solution of their difficulties is a peaceful one.

## Thievery in Broad Daylight

News about the barefaced attempt on the part of the G.O.P. Wisconsin Legislature to gerrymander Congressman Henry Reuss of Milwaukee out of his seat is beginning to get around the country. The story of the ugly steal, which was described on this page a week ago, has now been told by Drew Pearson in his column.

The device hit upon to retire Mr. Reuss, a first-term Democrat with much promise, was to take away some of his Democratic precincts and to replace them with Republican precincts from an adjoining district. Although some Wisconsin congressional districts are far out of line in population no districts other than the Fourth and Fifth—Mr. Reuss's and the adjoining Milwaukee district of Democratic Congressman Zablocki—were touched.

The difference between the two districts before the gerrymander was only 5000 people. Under the steal the difference would be 24,000. It is obvious therefore that the boss-ridden Legislature at Madison sought only to insure Mr. Reuss's defeat in 1956.

But it may well be that the craven legislators over-reached themselves in their partisan greed. Here are comments from three Wisconsin daily newspapers:

**The Milwaukee Journal:** The gerrymander is a naked scheme to buy a Republican seat in Congress—nothing less. Its passage was the stated market price for filling G.O.P. campaign coffers. In terms not much less bald than that, the party's money raisers had laid the deal on the line. The Senate sold out. The spectacle of those 18 either approving or consenting to be blackballed into this degrading deed is tragic.

**The Racine Journal-Times:** If Gov. Kohler puts principle above politics, he will veto the offensive bill. Kohler essentially is a fair man, but it now appears that he is a candidate for re-election in 1956. He needs support of the organized Republican leadership which wants change of districts at all cost. So the Governor may lose some political support if he does not sign the bill. But he will lose a lot more support from the fair-minded, relatively independent voters if he signs it.

**The Madison Capital Times:** We call the editorial of the Racine Journal-Times to the attention of our readers to show that this raw effort to fix an election and buy a congressional seat is too smelly even for a Republican paper such as the Journal-Times. The editorial, but it squares up to Gov. Kohler who will soon have to act. Will he stand by principle and veto the bill or will he play along with this sordid effort to rig an election and sign it?

Many people outside of Wisconsin were sorely disappointed when Walter J. Kohler, a naval veteran with a good record in World War II, folded up rather than come to grips with McCarthyism three years ago. They will be watching now to see whether he has the courage to strike down one of the most transparent larcenies in the history of American politics. He ought to resent being put on the spot by such a crude effort at thievery by the shameless party bosses.

## If Surgery Costs Too Much

The American College of Surgeons is showing a commendable sense of its responsibilities to the public. After a noteworthy attack on the unethical practice of shoring surgical fees with referring physicians, the College is now launching a study of fees for surgery to determine whether they are sometimes too high.

Dr. L. S. Ravdin of Philadelphia, chairman of the board of regents of the College, says charges have been made of exorbitant fees in many instances. Some complaints have come from within the medical profession itself, notably in a report by a committee of general practitioners. This committee told the American Medical Association that surgeons were charging their patients too much, assailed fees of \$150 "for the 15 or 20 minutes' work required to remove an appendix," and recommended establishment of "a relative value scale for the whole practice of medicine and surgery."

The worst thing about excessive fees is that they reduce the value of the medical dollar. Most people cannot afford as much medical attention as they really should receive. When they must pay one type of practitioner too much, they may have to forego some other kind of needed medical aid. Or if they do get further aid, they may be compelled to defer paying the bill, or perhaps find themselves unable to pay it at all.

The American College of Surgeons is performing a fine public service, for which it deserves the thanks of all who ever need a surgeon's skill. Dr. Ravdin expects a preliminary report of the fee study by mid-December, and promises that it will pull no punches. On the basis of these findings the College of Surgeons will be able to proceed in the most enlightened way possible with this new crusade of protection for the patient.

## One-Hoss Shay to Jet Airliner

The automobile, the airplane and the atom have swept along so swiftly that it seems a far cry indeed to the horse-and-buggy age. Yet this week is only the centennial of that fateful "first of November, fifty-five" when, according to Oliver Wendell Holmes's poetic story, "the wonderful one-hoss shay" suddenly fell completely to pieces. And that old shay has a lesson for today.

It had been built by a worthy and practical deacon, according to the poem, with not only care but logic—especially logic. The idea was to make the weakest place in the shay "as strong as the rest." He did it and ran perfectly, outwearing horse after horse, until its centennial. Then, in a trice, it disintegrated.

Knowingly or unknowingly, Britain's De Havilland Aircraft Co. has found a lesson in the deacon's shay. It announces completion of more than 3000 separate fatigue tests on metal components for its Comet IV jet airliner in which they survived the equivalent of 120 years' wear.

Is De Havilland trying to show up the old deacon by constructing a plane that would outlast his century-old shay by 20 years? No, it simply wants to "insure an aircraft life of 10 years at maximum utilization with no cracks." That being the case, when and if a Comet IV rolls up in front of us we will climb in without our parachute and say, without a murmur to the pilot, "Blast off!"

THAT RED PEACE DOVE

## When Congress Investigates

The Mirror of Public Opinion

Investigating power is essential but has exceeded proper bounds, writer says; many authorities agree on reforms to assure more fair play in inquiries; but in the end, curbs on committees must come about from a sense of responsibility in Congress itself.

Alan Barth, Editorial Writer of The Washington Post and Author of "The Loyalty of Free Men," in Public Affairs Pamphlet No. 227

The notion that institutions such as the philanthropic foundations, the churches, the universities, and the press should exist primarily to serve the state is basically a totalitarian notion. The intrusion of any measure of congressional authority into their affairs casts an ominous totalitarian shadow.

A variety of proposals have been advanced, in and out of Congress, for the reform of investigating committee practices. For the most part, the suggested remedies deal with procedural matters, such as curbing the boorishness of some investigators and the flagrant trespassing on individual rights of which some committees have been guilty.

Procedural reforms of themselves can hardly go to the heart of the problem. They may, however, be temporary trends in congressional investigations. Nevertheless, they are urgently needed and can be extremely helpful in reducing infringements on the rights of individuals called before investigating bodies.

Reforms to Advance Power  
Sound procedural reforms need not, and certainly should not, impair the effective and proper use of the investigating power. They may, indeed, enhance the effectiveness of investigation, just as the effectiveness of courts is advanced, not impeded, by observance of the requirements of due process.

The American Bar Association's Special Committee on Individual Rights as Affected by National Security began its recommendations for the reform of investigating procedure with this observation:

"The whole history of investigations, confirmed by current examples, shows that it is not enough to create committees and let them proceed as they see fit, often at the whim of the chairman. The scope of their operations should be subjected to continuing congressional scrutiny by the whole of the particular house, through a specific group to which is delegated the express duty of supervision of the committees. The day-to-day procedure of the committees should be controlled by a uniform code of procedure which sets a proper standard for all investigations."

It has been the rule rather than the exception among the special investigating committees—especially among those engaged in the search for subversion—that the chairman has managed their affairs with absolute autocracy.

"Responsibility Is Collective"

Committee responsibility is collective, and committee control plainly ought to be no less so. Students of the subject tend to agree that any code for congressional investigations should embrace a firm provision for majority rule—applying it to the selection of staff, the scheduling of hearings, the subpoenaing of witnesses, the release of executive testimony, and the issuance of reports. Many take the view that majority rule ought wholly to forbid one-man hearings.

Equally important in bringing committee conduct into conformity with the will of Congress is the principle that when the House or Senate delegates its power of investigation to a committee it ought to do so only for a limited and precisely specified purpose. This kind of definition is essential if the parent body is to have any basis for judging whether a committee has behaved responsibly.

Witnesses should have a reasonable opportunity—at least 48 hours' notice—

to prepare for a hearing. And they should be advised as precisely as possible of the subject matter to be discussed in order that they may consult counsel and gather any needed material.

Under existing committee rules, counsel may accompany a witness to a hearing but may do no more than sit beside him and give him whispered advice when asked for it—which may not be when his client needs it most. If the right to counsel is to have reality, it must include opportunity for counsel to interpose objections, and, in the case of a witness under charges of personal misconduct, to cross-examine his accusers.

Leave It to Public Opinion

Finally, there appears to be widespread agreement that anybody defamed in a congressional hearing ought to be granted a prompt and fair opportunity to defend himself. Often in the past, committees have given a privileged forum to accusers, and have issued reports condemning the accused on the basis of such testimony, without giving them any chance to refute the charges.

It would seem an elementary decency that no comment should be made, either in a committee report or by any member of a committee, respecting a person under investigation until that person has been heard in his own defense and the investigation concerning him completed.

More fundamental than rules of procedure, however, is a recognition by both houses of Congress that there are limits to the investigating power—and that, even within these limits, wisdom dictates forbearance and restraint. There are areas of American life which it would be best for Congress to leave alone—to leave to the regulatory power of public opinion and the democratic process.

The conduct of congressional committees depends ultimately upon the character of Congress. The essential curbs on committee conduct must come from a pervasive sense of responsibility and dignity in Congress itself.

Self-Restraint Is Needed

They must come also, in part, from a firm insistence by the executive branch of the Government on its own powers and prerogatives. The executive branch in recent years has been lax in resisting legislative encroachments on its jurisdiction. This has been evident in the repeated failure of department and agency chiefs to support subordinates unjustly assailed by congressional investigators.

It has been evident, too, in the failure of the President himself to assert the full power of his tremendous office to counteract the power of the legislative branch. In the absence of resolute executive determination to be master in its own domain, legislative power coasts inevitably into the executive offices and threatens an imbalance which imperils the three-part structure of the American political system.

In seeking to confine the investigating power of Congress within rational and appropriate limits, there should not be any impairment of the uses of this power for proper purposes. It is a power which, on the whole, has served the American people well. To keep inquiry within proper bounds demands balance and self-restraint and the accommodation of conflicting interests. But these are the inescapable conditions of all democratic government.

(WHEN CONGRESS INVESTIGATES by Alan Barth, Public Affairs Pamphlet No. 227, 28 pp., \$1.00, published by the Public Affairs Committee, 22 E. 38th St., New York City.)

## THOSE SUPERWEAPONS

From The Lake Geneva (Wis.) Regional News.  
Just about every nation is producing superweapons and it makes us wonder what they'll think of last.

## Between Book Ends

Role of the German Generals  
THE POLITICS OF THE PRUSSIAN ARMY 1640-1918, by Gordon A. Craig. (Oxford University Press, 503 pp., \$11.50.)

From time to time a truly superior and formidably documented history is written to fill a gap in the understanding of European politics and history. Prof. Craig (professor of history at Princeton) has succeeded in presenting a study which will become a must to any serious student of European history.

Prof. Craig's main area of concentration is on the generals who reformed the Prussian and later the German armies. From the time of the Hohenzollern until the death of Hitler the army was always a separate entity from the people. As such, the army had a different policy to that of the democratic and liberal elements which at times tried to bring the two factions together. "This is not a study of Prussian or German governments, it is rather a scholarly history of the tactics employed by the military leaders in defeating any progress toward liberalism and democracy in Prussia and later Germany. In reading this history we meet such figures as Scharnhorst, Gneisenau, Boyer, Hindenburg, Seeckt, Groener as well as the almost forgotten, but nevertheless very important Gen. E. von Manstein, the prominent reactionary. Since the army had most to lose from political and social reforms, the generals were the stone wall against which democratic institutions foundered.

To understand Prussia and later Germany one must study the part the army played in this period described by Prof. Craig. For in this period fall the reforms of Stein and Hardenberg as well as the revolutions of 1848, 1860 and 1918.

The Prussian and later the German army was always regarded as a most formidable war-machine. This formidable war-machine was kept under a careful plan and kept under the control of civilian control. Yet strangely enough, when this army had reached the peak of its power it was mastered and finally destroyed by one man—Adolf Hitler.

ALEXANDER NIVEN.

## Katharine Cornell and Guthrie

ME AND KIT, by Guthrie McClintic. (Atlantic-Little, Brown, 341 pp., \$5.)

Both Guthrie McClintic and his wife, Katharine Cornell, have contributed greatly to the modern American theater, he as a director and producer and she as an actress of discrimination. But I find his account of their careers and their marriage rather long-drawn out and uninspired. It seems to me a series of facts and dates and anecdotes which fails to recreate or describe what must be an exciting and interesting marriage and professional partnership.

His description of their two productions of "Romeo and Juliet," the first imitative and the second painstakingly redone with an original plan, does come alive and do something to explain the steps by which Miss Cornell achieved her luminous performance.

The book is beautifully printed, and all the famous names and dates are well-indexed. But isn't there something ungentlemanly about the order of the "bills" in the title?

NELL CONVERSE PUTZEL.

## Girlhood in a Canton

I THREW A ROSE INTO THE SEA, by Alyce Simpson. (John Day, 247 pp., \$4.75.)

In this book the author of "Red Dust of Kenya" goes further back in her reminiscences and writes of her girlhood in the Swiss canton of Appenzell by Lake Constance. She has a strong feeling for natural beauty and simplicity, which contrasts well with her ability to describe the characters who were her relatives. She does especially well with her two aunts, one of whom lived in a fantastic museum-like house and collected cats. The other was Aunt Ida, with whom Lyse spent her holidays from the village school. She read philosophy and dressed in black to show her intense disapproval of her husband, Hypolite, captain of a Lake Constance steamer and a jovial bon vivant. The book has charm and sincerity.

## WALTER LIPPMANN

Geneva Shows West's Home Problems

THE MOST COMFORTING THING I can find to say, after a few weeks in Europe on the eve of the Geneva conference, is that the West does not need to be so weak as it looks. Our primary trouble is not that the Soviet Union has very strong cards and that we have no strong cards.

It is that for internal political reasons the Western governments are at this time unable to play their cards with confidence and conviction. The "summit" meeting at Geneva in July was a public recognition by both sides that they could not use thermo-nuclear war or the threat of it to settle the struggle between them. This did not mean that the struggle was over. It meant that the struggle would become a diplomatic contest.

In this contest the Soviet Union has since the summer shown a greater capacity for maneuver, for liquidating liabilities and for new initiatives. The four Western governments, Bonn, Paris, London and Washington have, on the other hand, remained frozen and immobile in all their pre-Geneva positions.

## Geneva No Red Surrender.

Moscow has been acting while the Western governments have been reacting—and reacting in the main not by actions of their own but by complaining. They have done nothing comparable in its weight and scope with the Soviet's gambit in Austria, with the Soviet's appeasement of Tito, with the Soviet's establishment of diplomatic relations with the two Germanies, with the Soviet's incursion behind the Western political front into Egypt.

The innocent public may have been led to believe that the Geneva accord to renounce nuclear war was a kind of understanding that the Soviet Union was going henceforth to accept our terms for a settlement of the cold war. But no one "in the know" ever had the slightest reason for thinking that this would happen.

The Geneva accord did not mean that we were going to have our own way. It meant that the great powers might be able to negotiate and strike bargains, and that unless they did this successfully, they might lose control of the problems they were supposed to solve.

## Weak Policy on Germany.

For this kind of maneuvering, governments have to be sufficiently sure of themselves at home to be flexible and responsible abroad. Governments that are unsure of themselves are usually able to be firm only if they are rigid and obstinate. They become immobile—unable to move lest they appear to be retreating.

It is the immobility of the Western governments, not the inherent weakness of the Western position in the world, that makes the prospects so dark in Central Europe, in North Africa and in the Middle East.

Thus in Germany we are immobilized upon a policy that not even the Germans, much less the Soviets, can be counted upon to believe in to the end.

The West Germans are immobilized upon a policy that not even the Germans, much less the Soviets, can be counted upon to believe in to the end.

The West Germans are immobilized upon a policy that not even the Germans, much less the Soviets, can be counted upon to believe in to the end.

WASHINGTON.

Adenauer

mobilized by Dr. Adenauer's illness and by the fact that, like Eisenhower, he has no recognized successor who can be counted upon to carry out his policy. There is, in fact, every reason to think, as Moscow most certainly does think, that Adenauer's successor will not stand upon, that he will negotiate about, the terms that the West is proposing at Geneva.

Our position at Geneva is inspired primarily by loyalty to Dr. Adenauer, by a determination not to concede anything which might be construed in Germany as rocking Dr. Adenauer's boat.

If we concede an inch, we fear that Dr. Adenauer's German opponents will be encouraged to concede a yard. So on Germany the West is immobilized and unable to put itself in a position to negotiate.

## Negotiable Position Needed.

The trouble with this position is that in the not so very long run it will alienate us from the Germans who mean, if they must, to negotiate for reunification directly with the Soviet Union and the East Germans.

Our problem in Germany is how to overcome the immobility of our position. This means that we must find a way to take a position about Germany that the Germans at least will regard as genuinely negotiable.

The French are immobilized by the crisis in North Africa which has posed the question of whether they have a government that can take decisions and have them carried out by its own generals and officials.

France has the primary responsibility for the relations between the Western world and the Arabs of Morocco, Algeria and Tunisia. The outcome depends upon what is in essence a constitutional crisis within France. For unless there is a French government that can govern, there is no prospect of a settlement in North Africa.

## Britain Has Its Troubles.

The British do have a government that governs. But they have a new foreign secretary. They are having a recurrence of their old money troubles. As they do not feel strong in the outer world, they are in the mood for the kind of brilliant initiative which Anthony Eden showed in his last years at the Foreign Office.

Here, the President reigns but does not govern, and, in addition, we are facing an election. Mr. Dulles has the President's confidence. He cannot have the President's authority, which is a non-transferable attribute. He cannot, therefore, initiate new policies with a certainty that he will have the support of the country.

The safest, and one might add the inevitable thing is to go on saying what we said before the President fell ill. Thus the strongest member of the Western coalition is in a large measure immobilized.

The picture is not pretty. But only a false reporter could pretend that the West's real policy for the time being is to hold on, to blunt the Soviet initiatives and to play for time, to avoid letting our hands be forced until the governments again feel strong enough to think flexibly and to act firmly.

The West Germans are immobilized upon a policy that not even the Germans, much less the Soviets, can be counted upon to believe in to the end.

## DRIVE FOR \$2,500,000 FOR SCHOLARSHIPS

Business and Labor Leaders Plan for Aid to Gifted Students.

An organization is being formed to raise by private contribution a \$2,500,000 scholarship fund to enable especially talented St. Louis high school students to obtain college training, the Board of Education was told yesterday.

The money also would be used to permit talented students to complete high school in cases in which they otherwise would be forced to quit school to earn money to help support their families, board members were told.

The scholarship plan was drawn up by a committee of business and labor leaders appointed by Superintendent of Instruction Philip J. Hickey.

Withdrawals Cited. Robert T. Baker, principal of McKinley High School and chairman of the committee, said the proposal grew out of a survey made last year which showed that 200 gifted students were forced, for financial reasons, to curtail their education.

Of these, he said, 57 withdrew from high school, and 143 who completed high school were unable to afford further education.

Since September 1954, "enriched" studies have been devised for gifted students, under a "major learning program" begun by a group of teachers and counselors, Baker said.

The objectives, he said, have been to help students develop their talents in high school and "to impress them and their parents with the extreme importance of obtaining education beyond the secondary level."

As far as talented students without financial means are concerned, Baker added, "if we can't put them through college, then we might as well forget about the program."

He explained to board members that the talented students were not necessarily those with high I.Q.s, but were young persons with unusual potential ability in fields such as art, science and music, or with special qualities of leadership.

Bases of Awards. Baker said scholarships would be awarded on the basis of three factors: Financial need, an "ability to learn" test, and evaluation of a student by teachers and other adults who are acquainted with him.

First step in setting up the program, he said, would be the incorporation of a non-profit scholarship organization under state law. Contributions from the public then would be sought, he said.

The fund would be established on a non-sectarian basis and include St. Louis county students, as well as those in the city, Baker said.

Several board members said they were in sympathy with the objectives of the program. Oscar A. Ehrhardt, one of the members, added that he felt efforts should be made to provide college facilities in the city for students who cannot afford the expense of attending out-of-town institutions.

The board was not asked to endorse the program, although Baker said he hoped members would give it their support.

The board, which met as a committee of the whole, approved awarding of contracts totalling \$111,905 for equipment for the new O'Fallon Technical High School. The money is to be taken from 1951 bond issue funds.

Prof. John C. Tracy Dies. NEW HAVEN, Conn., Nov. 2 (AP)—John C. Tracy, professor emeritus of civil engineering at Yale University, died yesterday, two days before his 68th birthday. He retired in 1936 as chairman of the Yale civil engineering department.

## Entry in Washington U. Exhibition

"The Encounter," large print by Fred G. Becker, among works on view in Washington University International Invitational Print Exhibition, being examined by DALE HAWORTH, Art History Instructor.

## 41 U.S. and European Artists In Washington U. Print Exhibit

Show Suggests Growth of Graphic Arts Toward Rivaling Painting and Sculpture as a Major Medium.

By HOWARD DERRICKSON

The Washington University International Invitational Print Exhibition, which opened today at Givens gallery on the campus, provides evidence of the recent growth of graphic arts toward rivaling painting and sculpture as a major and independent medium.

Included are engravings, etching, woodcuts and lithographs by 41 living American and European artists. All of the prints are the personal choice of the contributors, and most of them are dated 1955.

Practically absent are traces of the print's traditional minuteness and intimacy. Completely missing is any suggestion of print-making as a subservient medium used to imitate or reproduce works of art in painting or sculpture.

Superb craftsmanship in Charles Quest's "Two Nude Girls" gives the viewers the very sensation of the resistant wood blocks in which the design is carved. Fred G. Becker's "The Encounter," a three-foot by four-foot print-making in the direction of painting in scale while holding to essential print-like textures and restrained color.

Werner Drewes's black-and-white woodcut of a landscape exploits its medium brilliantly and represents the artist in his prevailing romantic trend of the last few years.

Stanley William Hayter, with whom Becker and several others in the show have worked, contributes a characteristic "Action in Two Fields," emphasizing deep space and swirling movement and utilizing the daring Hayteresque color combination of orange, violet and green.

Mauricio Lasansky, a former Hayter man of marked individuality despite enriching influences, rivals Becker in the size of his "Sagittarius." Here a floating Chagall-like form is balanced by a sculptural classic-Picasso figure, all executed

with remarkable depth and opulence of tone.

Eight Europeans represented, sensitive and more nearly traditional, constitute a foil to the exuberant Americans taking part. Henry Moore's lithograph is much like his sculpture, and Ben Nicholson's "Still Life" is a simple, classic, geometric line drawing that recalls his painting.

Others represented in the show, which was organized by the university and will close Nov. 23, are:

Josef Albers, Milton Avery, Wendell Black, Harry Brorby, Lee Chesney, Minna Citron, Worden Day, Arthur Deshaies, Hans Erni, Syd Fossum, Antonio Frasconi, Ernest Freed, Peter Gripe, Ynez Johnson, John Jones, Vincent Longo, Boris Margo, Robert Marx, Seong Moy, Gabor Petzold.

## \$42,625 IS RAISED AT CENACLE DINNER

All Debt on Retreat House Is Retired at \$100-a-Plate Gathering.

A total of \$42,625 was raised at a \$100-a-plate dinner of the Cenacle Advisory Board last night at Hotel Chase. All debt on the Cenacle Retreat House, Conway and Spode roads, St. Louis county, was retired at the dinner, attended by 650 persons.

Archbishop Joseph E. Ritter, principal speaker, said it was the duty of the laity to associate itself with the work of the church. He commended the group for bringing the drive to a successful conclusion.

Other speakers included Frank J. Guyol, president of the advisory board, and Mrs. W. A. Okenfuss of the Laywomen's Retreat League. Emil J. Lipic was chairman of the "Victory Dinner" for the Men's Advisory Board.

Construction of the retreat house was started in 1951, when the Cenacle at 7837 Natural Bridge road, Normandy, outgrew its quarters. The house now provides 54 private rooms for women and girls who participate in retreats throughout the year.

The retreat movement is supported in the St. Louis Archdiocese by the Cenacle Retreat League, which has 1800 women members from Catholic parishes.

## 2000 AT MISSOURI U. HEAR ST. LOUIS SYMPHONY

Special to the Post-Dispatch.

COLUMBIA, Mo., Nov. 2—A capacity audience heard the St. Louis Symphony Orchestra in the University of Missouri's annual concert series last night in the new Jesse auditorium.

The orchestra, under the direction of Vladimir Golschmann, drew sustained applause from the audience of more than 2000 persons, particularly for its performance of Brahms' Symphony No. 4 in E Minor, Opus 98.

Golschmann praised the acoustical qualities of the auditorium, completed last spring. Last night's performance marked the orchestra's first appearance in the new building, although Golschmann has led the St. Louis Symphony for 21 consecutive years in the university's annual concert series.

## MUSIC INADEQUATE FOR 'LA BOHEME'

Skinny Orchestra in Wagner Co. Production Hampers Singers.

By THOMAS B. SHERMAN. The Charles L. Wagner Opera Company opened the new season of the Civic Music League last night at Kiel Auditorium with a performance of Puccini's "La Boheme" which was inadequate as a whole but had a few redeeming features. These were, to be specific, the soprano, Josephine Asara, the tenor, Norris Greer, and the baritone, Richard Gordon; and they sang, in the order given, the roles of Mimì, Rudolpho and Marcello.

No one expects La Scala opera under circumstances such as these but a certain consistency of effort should be regarded as a minimum requirement. Mr. Wagner's production failed to meet such a minimum largely because the orchestra of 21 members could not play the score adequately. By this I mean that the pathos and sensuous coloring of Puccini's music could not even be suggested with a string section so thin as to be scarcely audible, such as labored in the pit last night.

So the principals named, who sang expressively at times, were never able to fit their parts into the continuum of sound which is a stylistic essential of this opera. There was no continuum.

If a larger orchestra was not economically possible, Mr. Wagner would have been wiser to stick to middle-Verdi and the "big guitar" accompaniment.

A commendable effort to make up for the lack of a large ensemble by imaginative staging was apparent in the second act. A low comedy waiter practically took over the stage when Musetta was singing her street song. This would have been a deplorable liberty if it had been possible to work up a climax with the music instead of without it; but as it was this horse-play added a needed touch of animation to the scene.

# U.S. Won't Stay in Baseball Business; to Sell Club at Auction

## Richmond Group to Bid for Franchise

RICHMOND, Va., Nov. 2 (AP)—The Federal Government today had something a little different on its hands—a baseball club.

The federal tax collector yesterday seized the assets of the Richmond Virginians of the Class AAA International League and will sell the club at public auction to satisfy a \$79,218.68 tax claim. It was believed the first time the Government ever seized a baseball club for back taxes.

An unidentified group of seven members quickly indicated it plans to bid for the club's purchase. E. E. Haddock, a Richmond city councilman who acted as the group's spokesman, said it would be "premature at this time" to identify the men involved.

The group met two weeks ago with Frank Shaughnessy, International League president. At that time, there was speculation one of the group was former major leagueer Luke Sewell, Toronto manager the past two years.

The order seizing the club was directed at Consolidated Enterprises, Inc., headed by Harry C. Seibold. Included in the seizure were contracts of 18 players, uniforms, bats, balls, a scoreboard, catchers' masks, shin guards, a lime spreader and a whirlpool bath.

Clifford W. Glotzbach, Virginia Internal Revenue service director, said the back taxes owed by the club included \$31,556 for admissions, \$1,189 for and \$47,660.13 for withholding and social security taxes during 1954-55. He added the club paid admission taxes for 1955.

Tax agents notified Seibold of the action yesterday. Seibold made no comment regarding the seizure. A suit was filed in law and equity court here nearly two months ago against Seibold and Consolidated for back rent on Parker Field. The plaintiff was Greater Richmond Elvics Assn. which leases the field to the Virginians.

No date has been set for the club's public sale. Federal regulations require the tax collector to hold up the proposed sale until 10 days after he publishes notice of sale but not more than 40 days after publication of the notice.

Shaughnessy indicated in Montreal he may postpone Saturday's scheduled meeting of the league in Buffalo "until the status of the Richmond franchise is clarified."

Richmond started its International League operation in 1954 when the Baltimore franchise was moved here. The Virginians, managed both years by former Chicago White Sox star shortstop Luke Appling, finished the 1955 campaign in the cellar.

## 7 Lettermen at Mizzou's First Basket Drill

COLUMBIA, Mo., Nov. 2 (UP)—Seven lettermen were on hand yesterday to open Missouri basketball practice. In all, Coach Wilbur (Sparky) Stalcup had a 20-man squad out for the first practice.

Biggest problem in the Tiger camp was finding a replacement for Bob Reiter, the 6-foot-9 center who graduated. Also gone from last year's starting lineup was Med Park, now a member of the St. Louis Hawks. Returning regulars are Norman Stewart, Lionel Smith and Redford Reichert.

Missouri won the Big Seven pre-season tournament last year but ended up second in Colorado in conference play. The Tigers face a 22-game schedule this year, opening with South Dakota here Dec. 1.

## After Rocky, Pompey's Okay With Archie

ARCHIE MOORE shakes hands with British boxing promoter JACK SOLOMONS (right) after signing a contract at New York to defend his world light-heavyweight boxing championship against Yolande Pompey in London, Jan. 10. CHARLEY JOHNSTON (left, standing) Moore's manager, and JIM NORRIS, head of the International Boxing Club, witness the ceremony at I.B.C. headquarters. Pompey, third ranking title contender, is from Trinidad.

## Jackie Robinson to Manage Vancouver, Coast Paper Says

NEW YORK, Nov. 2 (AP)—Add another rumor to the winter baseball guess game: Jackie Robinson will call it quits with the Brooklyn Dodgers and take a job as manager of Vancouver in the Pacific Coast League.

A Vancouver newspaper, The Province, published the report as "a possibility" yesterday.

Robinson thought the idea, of "any right proposition" along that line, would be fine. But as yet he's heard nothing from the Vancouver club itself.

Brick Laws, the club owner who moved his P.C.L. franchise from Oakland to Vancouver last September, wasn't available for immediate comment, but his wife thought "he certainly will be glad to know" Robinson's getting the job.

Jackie, who hasn't yet signed a contract for 1956 with Brooklyn's world champions, told the Associated Press from his home in Stamford, Conn., that "as far as I know right now, I'll be playing with the Dodgers again next year."

The 36-year-old veteran, first

## Illinois Warns of Tularemia Danger

SPRINGFIELD, Ill., Nov. 2 (AP)—The State Health Department warned hunters today to beware of possible tularemia infection during the handling of wild game, especially rabbits.

Incidence of the disease jumped from 29 cases in 1953 to 101 last year. So far this year there are 28 cases on record. The highest rate of incidence usually occurs in November and December.

Hunters were advised to wear rubber gloves while dressing animals and to cook the meat thoroughly.

## McKendree's Jayvees Enter Basket League

McKendree College's junior varsity has been admitted to membership in the Greater St. Louis College Basketball Conference which will start its season Dec. 7. McKendree's Jayvees join Belleville Junior College, Logan College, Eden Seminary and Sanford-Brown as league members.

John Campbell of Sanford-Brown was elected president. Ed Bruggeman secretary and Glen Woodson of Sanford-Brown, statistician at last night's meeting at Sanford-Brown.

## Willie Hartack Rides Three Laurel Winners

LAUREL, Md., Nov. 2 (UP)—Willie Hartack, the nation's leading jockey in victories this year, returned to the saddle yesterday and booted home three winners at Laurel Park, including the first half of an \$835.60 daily double and Dinner Winner in the featured allowance purse.

Rartack, who was set down for 10 racing days because of careless riding at Garden State park, now has 357 triumphs. He scored on Blazon Star (\$12,400) in the first and then booted Blue Lane to a \$3,400 victory in the third before scoring on Dinner Winner in the feature. Fleet Master won the second race at \$82.60 to complete the huge double.

## Vince Martinez To Box Dane at Arena Nov. 23

Vince Martinez of Engelwood, N.J., fourth ranking welterweight in the country, and Danish Champion Chris Christensen will meet in a nationally televised 10-round boxing bout at The Arena Nov. 23, the Post-Dispatch was informed today by the International Boxing Club.

Virgil Atkins, St. Louis's strong welterweight contender and listed No. 3 in Ring Magazine's latest rankings, had been trying to get a match with Martinez but apparently was by-passed in favor of the European.

It was Martinez who set off a recent investigation of the practices of fight managers in New York when, in a row with his manager, Bill Daly, Vince declared he was unable to get fights. Since then he and Daly waved the olive branch and this will be Martinez's second fight since his extended inactivity.

Martinez, a hard puncher, has a record of numerous knockouts. He is 26. Christensen, 29, has been campaigning both in Europe and the United States since last year.

The fight, under the promotion of the I.B.C., is one of the regular Wednesday night TV features and will be carried by KTVI, Channel 36, in St. Louis.

## German Boxers Gain 7-to-3 Victory Over U. S. Amateur Team

HAMBURG, Germany, Nov. 2 (AP)—The German national boxing team defeated a touring American squad 7-3 before 8000 fans last night.

It was the fourth meeting between German and the United States boxing teams since 1931. Germany beat the United States 5-3 in 1931 at Berlin, tied 4-4 at Chicago in 1932 and won 6-4 in 1951 at Wiesbaden.

The defeat was the third straight for the Americans on their European tour.

The United States boxers lost to England 7-3 and Ireland 8-4. They next meet Sweden, at Stockholm next Monday.

Lightweight—Karl Heine, Germany, defeated Ray Robinson, U.S. by a 10-0 decision. (Ring doctor ruled Robinson suffering from a concussion and was disqualified after three warnings.)

Welterweight—Former German champion Fritz Glimburg, outpointed Paul Wier, U.S. by a 10-0 decision. (Glimburg was disqualified after three warnings.)

Lightweight—Former German champion Dieter Weismann outpointed Paul Wier, U.S. by a 10-0 decision. (Wier was disqualified after three warnings.)

Champion Smith to Get Rest of Purse

CINCINNATI, Nov. 2 (AP)—Common pleas judge George E. Kearns dissolved the attachment under which part of lightweight champion Wallace (Bud) Smith's purse from his recent fight here against Jimmy Carter has been held up.

John Joiner, a former manager of Smith, obtained the attachment of \$6000 of the \$9000 purse the day after the fight. Still pending, however, is Joiner's claim to an accounting of Smith's earnings since 1950 and for recovery of money Joiner claims is due him.

Joiner has claimed he had a five-year agreement under which he was to share in Smith's earnings even though the fighter was being managed by others.

Judge Kearns ruled that Joiner failed to prove that Smith is not a resident of Cincinnati.

## RING RATINGS

NEW YORK, Nov. 2 (UP)—Jimmy Slade of New York and Johnny Holman of Chicago returned triumphantly to the well-shaken "top ten" among heavyweight contenders today in the Ring magazine's latest ratings because of their impressive victories last week.

Their return forced Don Cockell of England and Rex Layne of Utah out of the rankings.

There are the Ring magazine's latest ratings:

Heavyweights—Champion Rocky Marciano, 1—Archie Moore, 2—Bob Baker, 3—Nino Valdes, 4—Johnny Jackson, 5—Jimmy Slade, 6—Johnny Holman, 7—Ezzard Charles, 8—Lad Wally, 9—Heinz Neuhans, 10—Franco Cavich.

Light Heavyweights—Champion Carl Gotch, 1—Ray Robinson, 2—Rocky Casale, 3—Charley Humes, 4—Edward Lane, 5—Red Williams, 6—Felix Jones, 7—Robby Dykes, 8—Milo Savage, 9—Gene Fullmer, 10—Artie Turner.

Welterweights—Champion Carmen Basilio, 1—Vic Dorey, 2—Johnny Jackson, 3—Virgil Atkins, 4—Vince Martinez, 5—Sammy Frazier, 6—Lester Lagani, 7—Joe Mocco, 8—Lui Flanagan, 9—Mecor Contino, 10—Chico Vago.

Lightweights—Champion Wallace (Bud) Smith, 1—Jimmy Carter, 2—Duke Lee, 3—Ralph Dupas, 4—Frankie Ruff, 5—Clayton Andrie, 6—Henry Lane, 7—Johnny Gonsalves, 8—Loyd Lopez, 9—Orlando Zolenta, 10—Arthur Frazer.

Featherweights—Champion Sandy Saddler, 1—Cito Narvaez, 2—Ray Fenech, 3—Reddy Davis, 4—Carlos Costa, 5—Billy Kelly, 6—Hilary Hanesy, 7—Laurie Nolas, 8—Fred Cavan, 9—Frank Elford, 10—Sidney Rambo.

Bantamweights—Champion Robert Cohen, 1—Milo Tower, 2—Mario D'Amico, 3—Billy Franco, 4—Andre Valgren, 5—Rash Macias, 6—Hilary Frazee, 7—Joe Lopez, 8—Emile Chomene, 9—Lester Lagani, 10—Sidney Rambo.

Pyleweights—Champion Paul Pyle, 1—Lester Lagani, 2—Young Martin, 3—Denny Kid, 4—Dai Dower, 5—John Pyle, 6—Campy, 7—Nino, 8—Glasgow, 9—Nino, 10—Miles Diet, 11—Miles Diet.

# POST-DISPATCH Sports

Edited by J. ROY STOCKTON

4B Wed., Nov. 2, 1955 ST. LOUIS POST-DISPATCH

Considerable cloudiness prevails in all north-central sections and snow is falling in Manitoba, southern Saskatchewan and extreme northern North Dakota. Accumulations range from one to two inches in Minnesota and North Dakota to three to 10 inches generally in the Canadian provinces, and as much as 15 inches locally in northern Alberta. Temperatures range from 10 to 15 above in northern Alberta to 15 to 20 in southern Manitoba and North Dakota and 30 to 35 in southeastern Minnesota.

Snow will be partly cloudy in north-central areas this afternoon and scattered snow flurries are likely; fair weather is indicated for tonight, but cloudiness will increase again tomorrow. Temperatures tomorrow morning will range from around 10 degrees in North Dakota to 12 to 20 in southeastern Minnesota. Winds will be moderate northwesterly this afternoon, but will diminish tonight.

(Forecast by U.S. Weather Bureau.)  
Shooting hours tomorrow: 6 a.m. to 4:29 p.m.

## Early Start for Jaycee Tennis

The basketball season hasn't started, football still is going strong and the Junior Chamber of Commerce already is thinking in terms of 1956 tennis. The new Jaycee tennis program is to start Saturday at Sherman Park Recreation Center and instruction and tournaments under the supervision of Professional Earl Buchholz Sr. will continue through next June.

Free lessons are available to city and county boys and girls 6 to 18. St. Louis divisional tournaments will be held next May and June to qualify players for the state competition and perhaps a spot in the Nationals at Oak Park, Ill., next August.

Last season more than 800 St. Louisans took part in the Junior Chamber's program and Neil Drury won the consolation tournament in the junior division of the National Jaycee event at San Antonio, Tex. The year before Earl Buchholz Jr., son of the pro, won the U.S. boys' title.

A charge of \$3.75 covers all phases of the program, including tournament entry fees. Entry blanks are available at schools or the St. Louis Junior Chamber of Commerce, 224 North Broadway, St. Louis 2, Mo.

Eagle Eye Eagle. Eagle Day, Mississippi quarterback, averaged 41.7 yards on 11 punts against Georgia and Kentucky this season.

## Ryff Favored In TV Fight

BALTIMORE, Md., Nov. 2 (UP)—Frankie Ryff of New York, fourth-ranking lightweight contender, was favored at 13-5 to beat Ex-Champion Paddy De Marco here tonight in their TV-radio 10-rounder. (On KTVI, Channel 36, at 9 o'clock and KXOX at 9:15, St. Louis time).

Ryff, gunning for a shot at the 135-pound crown, seeks his nineteenth victory in 20 professional bouts. His only defeat was on a decision to third-ranking Ralph Dupas earlier this year.

For 27-year-old De Marco, who held the lightweight crown for slightly more than eight months in 1954, this could be a make-or-break fight. A victory could be a stepping stone to another title shot. A defeat might send him on the road to flistic oblivion.

## Two New Directors At Cahokia Downs

Barak T. Mattingly and Arthur Blumeyer were named to the board of directors of the East St. Louis Jockey Club, Inc., at a meeting of the officials, yesterday. They replace John Broadhead and John Sankey, who resigned.

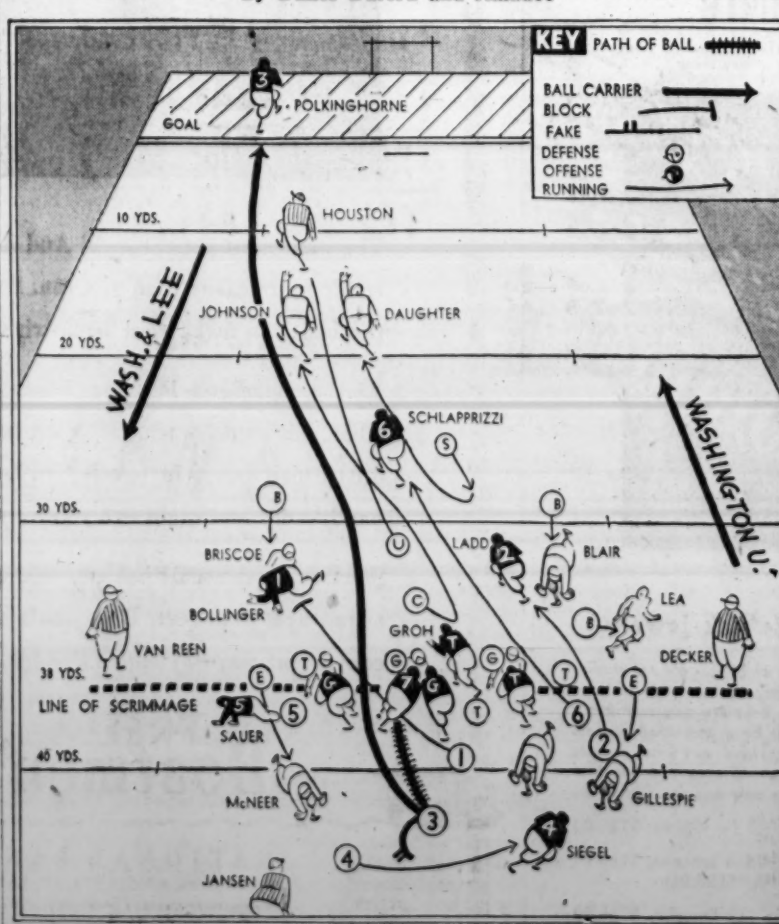

Paul W. Stephens was named president of the organization, which sponsors the Cahokia Downs race meeting. Sam Muchnick and Jacob Bunn Jr. were elected vice presidents; Andrew E. Ryan, treasurer and George Edw. Day was re-elected secretary and managing director.

A committee headed by John Steale and including Stephens, Ryan and Day, will handle all matters concerning operation of the track next year.

An application for 1956 racing dates will be presented to the Illinois Racing Board in the near future.

## Young Bears Romp for Old Grads

By Dukes Duford and Amadee

Washington University's football team pleased a homecoming crowd with a 27-0 triumph over Washington and Lee. Fullback Don Polkinghorne scored the first touchdown with a 38-yard half-spinner run. The Bears had the ball on the Generals' 38-yard line. Washington U. lined up in a single wingback formation, unbalanced to the right, while Washington and Lee went into a 6-2-2 defense. Center Stan Johnson (7) snapped the ball to Polkinghorne (3) who faked a toss to Tailback Mel Siegel (4) on a half-spin. Polkinghorne, who kept the ball, ran behind blocking back Mike Bollinger (1) and went through a big hole made by Bollinger, Johnson and Right Guard Dave Ladd. Bollinger also made a key block on the defensive right half to clear Polkinghorne's path to the goal line.

**In the Ozarks**  
By Z. Lee Stokely  
Ozark Sportsman and Outdoors Writer.

November and December are usually two of the most productive months for lake fishing. Stream fishing continues through Nov. 30 but often there is very little fishing activity on the rivers after October. All of the man-made lakes—Bull Shoals, Clearwater, Norfolk, Ozarks, Taneycomo and Wap-papello—are open for year-around fishing.

On the streams the eddies are clogged with fallen leaves and it is difficult for the float fishermen to find open water to cast their lures. November days are too cold for comfortable float fishing and the die-hard anglers, who find no interest in hunting deer, ducks, quail, squirrels or rabbits, so-journ to the large impoundments which afford first-rate white bass and crappie angling. Black bass and jack salmon also are taken in lesser numbers during November and December but a large percentage of angling success is dependent on the strippers and crappies.

White bass were almost an exotic species in Missouri until they were stocked in the man-made lakes. The lower Osage river, below Bagnell dam, now has a 17 per cent population of these fishes and occasionally they are taken on the lower reaches of the Gasconade, Meramec, Nangua and St. Francis rivers. For some unknown reason none is found in Lake Taneycomo. Clearwater was stocked two years ago and fishery biologists are confident that in the next few years they will be found there in goodly numbers.

Norfolk, Lake of the Ozarks, and Wap-papello, respectively, contain the largest population of strippers. Five pounds is about top weight for these fishes. It is believed that they are descendants of the much larger ocean strippers. Biologists are of the opinion that they were first landlocked in brackish water and then ascended upstream in fresh water and occasionally gradually adapted themselves to fresh water conditions and are actually members of the sea-bass family.

**Crappie the Old Reliable.**  
The crappie are stand-bys for anglers in the large impoundments. All of the six lakes in the Ozarks have an abundant population of these "kings of panfishes." The Missouri creel census for 1954 showed the percentage composition for crappie, as follows: Wap-papello, 91.4; Clearwater, 85.7; Nangua arm of the Lake of the Ozarks, 64.9; Taneycomo, 61.4; and the Little North Fork arm of Bull Shoals, 35.5. The fishes taken from the Little North Fork arm were all black crappie but in all the other areas the white crappie predominates. Fish weighing more than four pounds have been taken from Missouri waters, but the average crappie brought to creel weighs about 10 ounces.

There are no limits on these panfishes in Missouri. There is a limit of nine on white bass. In 1952 the limit on crappie was 12; in 1953, 20; and in 1954 the limit was removed. In 1954 tens of thousands of crappie were taken from the Wap-papello impoundment. Some fishermen actually filled large cans with these fishes, and anglers who frequent these waters are of the opinion, regardless of the findings of the biologists, that fishing on this lake has been seriously impaired by excessive catches. Crappie fishing has been at a new low this season on this body of water. Fewer crappie have been taken than in any previous year since the lake opened for fishing, according to resort owners. All who were interviewed by this writer favor a restoration of the creel limit.

**White Lures for White Bass.**  
Both the crappie and white bass are school fishes. When schools of white bass are feeding they may be caught virtually any lure, but white seems to be the much preferred color. Spinner and pork rind combinations are the best trolling lures. One angler on the Lake of the Ozarks reported encountering a large school of these fishes and creel the limit by using small strips from a white handkerchief on the bare hook. Spin fishermen cast white lures or live minnows into the feeding school and are soon rewarded with limit catches.

Live minnows, especially shiners, are the best baits for crappie. Trolling a small lure behind a slow-moving boat is another successful method. Fly and bait casting equipment, when fished slow and deep, will attract these fishes but a properly placed live minnow will prove the most successful of all the lures.

Cold weather is no deterrent to either of these species. In November and December their appetites seem to be on the upsurge. Fish are often taken when ice has formed on the edges of the lakes. In Minnesota, Wisconsin and other northern states fishermen by the thousands erect their fishing shacks and angle through a hole cut in the thick ice. Winter fishing is becoming more popular each year in Missouri but it is no pastime for weeklings when the snow drifts deep and the wind blows hard.

But there are many pleasant, mild days in the year's ending months when it is pleasant enough to be a-fishing—especially when the white bass and crappie are willing to greedily take every lure that is cast their way.

**Attendance Increase.**  
Binghamton, N.Y., led the Eastern League baseball teams in attendance during 1955 with 89,529 fans. It was an increase of 40,308 over 1954.

# USGA Repeats Stand Against Gambling on Golf After Hoax

## Identity Falsified; Handicap Wins Pool

NEW YORK, Nov. 2 (UP)—The United States Golf Association today was investigating the case of an amateur golfer who allegedly falsified his identity and credentials to play in an exclusive tournament in which his partner won \$4000 of a \$45,000 Calcutta pool.

Joe Dey, the executive secretary of the U.S.G.A., disclosed the association "already has begun to look into the case insofar as it could affect the amateur status" of golfers involved.

The New York World Telegram and Sun reported that Charles (Bud) Helmar, a 37-year-old factory worker from West Springfield, Mass., confessed "the hoax" to the president of the Deepdale Golf Club on Long Island.

"I cannot predict what action the U.S.G.A. will take because the committee on amateur status has not yet met," Dey said. "We certainly plan to call to the attention of member clubs the U.S.G.A.'s rules. The U.S.G.A. for many years has taken a strong stand against organized gambling on courses, like these Calcutta pools.

"An amateur conceivably could forfeit his status for participating in such a pool," Dey concluded.

The U.S.G.A. official likened the hoax case to the 1919 Chicago Black Sox scandal in baseball, which led to a stricter governing of that sport.

**Here's What Happened.**

Helmar, a sharp-shooting amateur, disclosed the hoax in a letter to officials of the Deepdale Golf Club, where the tournament was played last Sept. 18-19.

—United Press Telephoto.  
**CHARLES (BUD) HELMAR**

Helmar, playing under another name, and his partner won the tournament by five strokes. Helmar said the partner won \$4026 as his share of the \$16,017 payoff in the club's Calcutta pool, in which tickets on various teams were sold at private auction.

The amounts paid go into a huge pool. After a percentage usually is taken for expenses and a charity, ticketholders on the winning golfers are rewarded on a graduated percentage basis for the first 10 finishers in the tournament.

Helmar, who shoots in the mid-70s, has only a three-stroke handicap. He said his partner also has a three-stroke handicap, but claimed 18 strokes in the tournament and bought a 25 per cent share of himself in the pool, unknown to tourney officials.

**Hopes Honesty Pays.**

The worried amateur said he had been told by other golfers that hoaxes of this type were common in golf tourneys. "I wonder from what people say, if this doesn't happen a lot," he said.

"I hope I'm not going to be

crucified for being honest."

He said his partner told him Helmar was playing as a substitute for another golfer, who was sick. Helmar said the other golfer later "told me he never entered" the tourney because he had refused to play with the partner.

Helmar said now that he had written the letter, Deepdale promised a "letter of clearance" that would permit him to compete in other tourneys. But he would be cleared only on condition that he could get the partner to return the \$4026, he said. The partner could not be reached.

**How He Found Out.**

Helmar said, "We were halfway down there when he told me I would have to play" under the other golfer's name. "It didn't seem right. I didn't know I was playing with the (other's)

17 handicap until we got to the starting desk.

"I've got a handicap of three strokes, but I felt it was too late to back out. I knew I shouldn't have played, but there I was way down on Long Island and getting \$100.

"Of course, it turned out I never got a dime. If I did, I would give it back," he said.

"Right after the tournament, on Sept. 23, I wrote a letter to Mr. Doyle (Club President L. Dorland Doyle) and told him what happened. Then they called me and tried to get the money back. I said I didn't get any money."

The hoax victim said he told Doyle he would try to get the partner to give back the winnings, but had not been able to reach him.

"That's where it stands now."

Entries close Nov. 8.

Entries for the annual officers' bowling tournament to be rolled on the Bevo Lanes, beginning Nov. 12, will close Nov. 8. Bill Rohlfman will be in charge of the event.

## Little 'Shoe' Weighs In at 25 Pounds

Jockey Champion WILLIE SHOEMAKER, 24, and his wife VIRGINIA (left) show off their newly adopted son, JOHN LEE, 10 months old, after approval of their adoption papers by Judge MILDRED L. LILLIE (right). The boy, who has been in the care of the Shoemakers since he was four days old, weighed in yesterday at 25 pounds, only 75 less than his father who rode the Kentucky Derby winner this year. The Shoemakers, married five years, have no other children. Willie has been the American jockey champion the past two years. He is making his home in California and the child was adopted in Los Angeles.

## Deer Hunters, With 2000 Kills First Day, Likely To Pass Last Year's Total

JEFFERSON CITY, Nov. 2 (AP)—With more than 2000 kills in the first 24 hours of the deer hunting season, it appeared quite certain Missouri hunters would this year exceed the record of 8600 animals killed last season. This was a four-day season, this one, ending Saturday night, is a five-day affair.

Reports from all counties showed 1674 deer checked by conservation agents, but an estimated 400 or more animals probably weren't brought in, one agent said.

The first day kill included 966 bucks and 708 does. Only four counties reported a first day bag exceeded 100 animals. They included:

Camden county, in the Lake of the Ozarks region, 143 deer, including 79 bucks and 64 does.

Ste. Genevieve county, on the banks of the Mississippi river, 127 deer, including 73 bucks and 54 does.

Livingston county, on the northern edge of the hunting area, 114 deer, including 57 bucks and equal number of does.

Taney county, on Missouri's border, 105 deer, including 55 bucks and 57 does.

Most of the state was cloudy with some rain falling and temperatures cool throughout the 61-county deer hunting area. Much foliage already has fallen in central and northern Missouri, carpeting the woods floor and lessening the cover for the deer.

It was in Livingston county that last year's record animal was killed. The fat old buck tipped the scales at 369 pounds. Warren county, also north of the Missouri river, also put in a bid for this year's trophy list.

He said his partner told him Helmar was playing as a substitute for another golfer, who was sick. Helmar said the other golfer later "told me he never entered" the tourney because he had refused to play with the partner.

Helmar said now that he had written the letter, Deepdale promised a "letter of clearance" that would permit him to compete in other tourneys. But he would be cleared only on condition that he could get the partner to return the \$4026, he said. The partner could not be reached.

**How He Found Out.**

Helmar said, "We were halfway down there when he told me I would have to play" under the other golfer's name. "It didn't seem right. I didn't know I was playing with the (other's)

17 handicap until we got to the starting desk.

"I've got a handicap of three strokes, but I felt it was too late to back out. I knew I shouldn't have played, but there I was way down on Long Island and getting \$100.

"Of course, it turned out I never got a dime. If I did, I would give it back," he said.

"Right after the tournament, on Sept. 23, I wrote a letter to Mr. Doyle (Club President L. Dorland Doyle) and told him what happened. Then they called me and tried to get the money back. I said I didn't get any money."

The hoax victim said he told Doyle he would try to get the partner to give back the winnings, but had not been able to reach him.

"That's where it stands now."

Entries close Nov. 8.

Entries for the annual officers' bowling tournament to be rolled on the Bevo Lanes, beginning Nov. 12, will close Nov. 8. Bill Rohlfman will be in charge of the event.

University officials reiterated today.

The announcement followed a campus newspaper's suggestion that Northwestern drop out of the Big Ten because it was no longer possible for it teams to compete on even terms with other member schools.

Athletic Director Ted Payeur said "We have no intention whatsoever of leaving the Big Ten. These things always seem to come up. We were one of the first members of the conference and we intend to stay."

The Daily Northwestern, a campus publication, suggested in an editorial yesterday that the school drop out because of its poor football record.

Northwestern has failed to win a game in six starts this year and has only one conference victory in the last three seasons.

However, Faculty Representative F. George Seuberg said "I am chairman of the faculty athletic committee and as such I recommend to the president all matters of policy. No member of the committee or administration ever has entertained the slightest idea of withdrawing from the Big Ten. We shall continue in the con-

## Wright, Wynn On Missouri's Varsity Team

COLUMBIA, Mo., Nov. 2 (AP)—Coach Don Faurot yesterday promoted Robin Wright, quarterback, and Leroy Wynn, halfback, from the second team to the University of Missouri varsity.

They replace Bill Griep and Bill Rice, both of whom will miss the Oklahoma game Saturday due to injuries.

The Tigers worked on fundamentals and will have a light scrimmage today, with emphasis on defense against the Sooner T-formation.

NORMAN, Okla., Nov. 2 (AP)—Pass defense was featured in a stiff two-hour workout by the Oklahoma football team which also defended against Missouri running plays.

Oklahoma plays Missouri in a Big Seven Conference game Saturday at Columbia, and Coach Bud Wilkinson predicts it will be one of the toughest of the year for the Sooners.

Trainer Ken Rawlinson said alternate tackle Eldon Loughridge definitely will miss action, but his replacement Wayne Greenlee is expected to be recovered from an ankle injury.

## Conway, Wichita's No. 1 Back, Ruled Ineligible

WICHITA, Kan., Nov. 2 (AP)—Jack Conway, the University of Wichita's ranking quarterback, was ruled scholastically ineligible yesterday for the rest of the grid season.

Dr. Emory Lindquist, dean of the College of Liberal Arts at the Missouri Valley Conference school, said no other athlete is affected by the routine grades report at the end of the semester's eighth week.

The suspension begins immediately. That means that the 6-foot-3 200-pound junior from Wellington, Kan., won't play here Saturday, in the homecoming game against the University of Cincinnati. He also will miss games here against Drake university, Nov. 12, and against Tulsa in what looms as a possible conference title decider, Thanksgiving Day.

## Souchak 'Most Improved Golfer' In Vote of Pros

EVANSTON, Ill., Nov. 2 (AP).

MIKE SOUCHAK, Durham (N.C.) professional, was announced today as "the most improved golfer" of 1955.

The distinction was voted by members of the Professional Golfers' Association. His record shows a rise from thirty-six to fifth place money winner in one year.

Women professionals chose Fay Crocker of Montevideo, Uruguay, as "most improved golfer." She captured the Scribn, Waverline and Women's National Open tournaments this year.

Both polls were conducted by the Golf Digest magazine.

## Polkinghorne's 468 Yards Tops Bears' Rushing

DON POLKINGHORNE, sophomore fullback at Washington University, is averaging a first down every two carries, weekly statistics of the Bears showed today.

With 122 yards against Washington and Lee, the Myrtle and Maroon's homecoming victim last Saturday, Polkinghorne brought his season's ground-gaining total to 468 in 83 carries.

The Normandy athlete would need to average nearly 140 yards in each of the Bears' last three games to break Ted Dunn's postwar rushing record on the Hilltop—884 yards two years ago—but Polkinghorne is progressing rapidly enough he just might make it.

To add backfield depth for the Southern Illinois game Saturday at Carbondale, Coach Carl Snively said Jerry Clamp, originally a starter at wingback, had been shifted to fullback behind Polkinghorne and Jay Metcalfe. In addition, another wingback, Don Buercklin, ailing much of the season, was moved to tailback behind Mel Siegel and Ken Miles.

## Pro-Faurot Petition Being Circulated Here

A petition expressing "complete confidence in the able leadership of Don Faurot" as head football coach of the University of Missouri, has been drafted by three of his former players and is available for the signature of Missouri alumni and ex-Tiger athletes.

Ray Cliffe, Cleveland High School coach who drafted the petition with Clair Houston and Woody Hatfield, said he would have the document at the St. Louis showing of Missouri-Colo-rado game movies tomorrow noon on the fifth floor at Stix, Baer & Fuller.

In addition, the petition will be available Friday night at 8 o'clock at the Cabanne branch library, 1100 Union boulevard, where Elmer Ellis, president of Missouri alumni, Cliffe said.

The petition, in part, salutes Faurot for his "contribution toward the University of Missouri's sane and sensible athletic program."

Aside from his coaching record, Faurot is lauded by the petitioners for "moulding and influencing the morals and characters of his former students."

The action is a counter to a petition circulated from western Missouri and seeking Faurot's ouster, as disclosed by the Post-Dispatch last Sunday.

## Clinics by Miss Hart

NEW YORK, Nov. 2 (INS)—Doris Hart, 1954-55 United States women's tennis champion who recently turned professional, will conduct a nation-wide series of clinics beginning next April.

Miss Hart, who forsook amateur ranks for a teaching job at a Florida resort hotel, was signed yesterday to become a member of the advisory staff and conduct the clinics for a sporting goods manufacturer.

## Warriors Rally to Gain Second Exhibition Victory Over Hawks

By a Special Correspondent of the Post-Dispatch.  
HAMILTON, Ont., Nov. 2—Red Holzman, coach of the Hawks, today had a better appreciation of the Philadelphia Warriors and an even more thorough understanding of his rookies who could make or break the St. Louis professional basketball team in the league season opening Saturday night at Kiel Auditorium.

With Holzman starting three of his newcomers, rather than just one (Dick Ricketts), the Hawks led until the fourth quarter last night at Buffalo, N.Y., where the Warriors rallied for an 89-85 victory before a 10,231 crowd.

The two teams play again here tonight before the Hawks return to St. Louis.

Having lost two straight to Philadelphia, which has an 8-2 pre-season record compared with the Hawks' 7-5 mark in exhibitions, Holzman shook his head. "I'm glad they're in the Eastern Division, not the Western. They've got a real good chance to win it."

The Warriors impressed even without Tom Gola, the La Salle All-America who is still out with a broken hand. Paul Arizin scored 20, Jack George 16 and Neil Johnston 13 for the Easterners, who also got early important help from the 11 points Larry Hennessey, formerly of Villanova, scored in the first period. Ernie Beck, ex-Penn ace just out of service, is another Philadelphia standout.

Holzman started Notre Dame's Jack Stephens and Dayton's Chris Harris and the two rookie backcourt men did well before mistakes of experience proved costly late in the contest. Stephens scored 10 points in the first 14 minutes.

Bob Pettit led St. Louis with 21 points and Frank Selvy, the other half of the one-two scoring punch at Milwaukee last year, tallied 15, but Ricketts, though again rebounding well, was held to five points.

"He looked a lot better in the All-Star series," said George Senesky, assistant coach of the Warriors.

## Bears' Basket Contest With Illinois on TV

NEW YORK, Nov. 2 (UP)—The final round of the 1956 National Invitation basketball tournament will be nationally televised for the first time—and will be played for the first time in the afternoon, for that reason.

That was disclosed today in an announcement by Columbia Broadcasting System that it will nationally telecast 15 basketball programs during the coming season, including the N.I.T. final at Madison Square Garden, New York, March 24.

Although preliminary N.I.T. games were sometimes played in the afternoon, the final round always had been played at night.

One of the games to be televised will be the Washington University Bears' contest with Illinois U. at Champaign, Ill., Dec. 17.

The 15 games, which will be televised over a period of 17 weeks, all will be played in the time area of 3 p.m. (E.S.T.) to 4:45 p.m. (E.S.T.).

The schedule:  
Dec. 2—Nebraska at Iowa (Iowa City, Iowa).  
Dec. 10—Kansas at Wisconsin (Madison, Wis.).  
Dec. 17—Washington U. at Illinois (Champaign, Ill.).  
Jan. 7—Indiana at Wisconsin (Madison, Wis.).  
Jan. 14—Purdue at Michigan State (East Lansing, Mich.).  
Jan. 21—Iowa at Michigan (Ann Arbor, Mich.).  
Jan. 28—Northwestern at Minnesota (Minneapolis, Minn.).  
Feb. 4—Indiana at Ohio State (Columbus, O.).  
Feb. 11—Ohio State at Illinois (Champaign, Ill.).  
Feb. 18—Illinois at Michigan State (East Lansing, Mich.).  
Feb. 25—Indiana at Northwestern (Evanston, Ill.).  
March 2—Illinois at Iowa (Iowa City, Iowa).  
March 10—(Tentative) Marquette (original location undetermined).  
March 17—National Invitation Tournament, final game (New York City, N.Y.).  
March 24—National Invitation Tournament, final (New York City, N.Y.).

## FIGHT RESULTS

By the Associated Press.  
TRENTON, N. J.—Hurley Sanders, 160½, Newark, N. J., outpointed Larry Allen, 161, Paterson, N. J. (10).  
MIAMI BEACH, Fla.—Wayne Babin, 197, New York, outpointed Julio Morales, 180½, Cuba (10).  
HARTFORD, Conn.—Larry Boardman, 138, Hartford, Conn., stopped Denis P. Brady, 141, New York (10).  
HOLLYWOOD, Fla.—Ringo Nereo, 150, New York, outpointed Jay Anderson, 152, Philadelphia (10).  
HOUSTON, Tex.—Paul Jorgensen, 176, Galveston, Tex., outpointed Kid Campbell, 156, Mexico City (12).  
SACRAMENTO, Calif.—Lance Sales, 129, Monterrey, Mexico, stopped Pete Acurri, 122, Los Angeles (10).  
SAN JOSE, Calif.—Star Gony, 139½, Philadelphia, stopped Bob Sanders, 140½, San Francisco (10).  
SALE LANE (CTV)—Howard Sales, 179, Reno, knocked out Joe Dorsey, 175, New Orleans (8).  
DETROIT—Ken Hammer, 180, Detroit, outpointed Larry Watson, 181, Chicago (10).

## THE BOX SCORE

St. Louis (85)	Philadelphia (89)

Referee—Rudolph. Umpire—Pittoff.

## Hanson Returns To Left End on Illinois Squad

CHAMPAIGN, Ill., Nov. 2 (AP)—Illinois' footballers scrimmaged in the mud yesterday against Michigan plays as demonstrated by freshmen.

The unbeaten Wolverines from Ann Arbor, Mich., play their second and final away from home game of the season here Saturday. In Michigan's only other road game, the Wolverines edged Minnesota, 14-13.

Illini quarterback Em Lindbeck skipped contact work because of an injured knee, but participated in other maneuvers.

Rod Hanson, 205-pound sophomore left end, was restored to the first string lineup in place of Gary Francis, who replaced him two weeks ago.

ANN ARBOR, Mich., Nov. 2 (AP)—Team physician fear an ankle injury may keep Michigan back Jim Pace out of Saturday's Big Ten game with Illinois.

The sophomore left half turned his ankle in the meeting with Iowa. Doctors said the ankle isn't responding to treatment.

The Michigan squad went through routine drills yesterday in a steady rain.

# Washington Tech Leads in Rushing With 763 Yards

## Central Is No.1 Team In Passing

By Harold Tuthill  
Washington Tech, co-leader in the Public High football race, is the league's best ground-gainer at the half-way point. Otis Finley's Golden Lions accumulated 409 yards against Soldan and moved from fifth place to first with a total of 763.

Summer, the former leader, dropped to second with 758, but both are ahead of the next three—Vashon (593), Southwest (533) and Beaumont (519).

Central, which shares the lead with Washington, each with three victories, no defeats, has gained the most yards by passing—305. Max Carlisle's Redwings picked up those yards on 10 passes completed out of 21, a remarkable average of 30.5 yards per completion.

Beaumont, holding the opposition to 120 yards on the ground, has the best rushing defense, while Southwest has held its opponents to a mere 40

FAN FARE—By Walt Ditten

yards by passing to be tops in that department.

There could be some drastic revisions after the fourth round of play because Saturday night Washington Tech will meet Vashon, its first of three, strong opponents. Tech will play Summer and Beaumont in its other remaining league games.

Central could improve its offense record against last-place Soldan. The teams will meet at 3 o'clock Saturday after Beaumont opposes McKinley in the 1 o'clock game. Roosevelt and Cleveland, traditional South St. Louis rivals, will meet tomorrow at the Stadium and Southwest and Summer will collide in an important engagement Friday night. Both are 2-1 so the loser will be all but counted out of the running.

## Speed Skaters Advised to Train With Bike Rides, Road Work

By Neal Russo

Long bicycle rides, road work in parks and jogs around golf courses—that's the kind of advice Jim Hawkins, head coach, already is giving although the Silver Skates workouts will just be getting under way tomorrow at the Winter Garden.

It's never too early to get into peak condition for the Silver Skates carnival (probably in January) and the out-of-town meets that will follow, said Hawkins, a five-time Missouri state champion and a runner-up in the Southwest Open.

"I got into condition by running around the golf course and bridle path at Kenrick Seminary three times a week," Hawkins pointed out. "There's nothing like cycling and lots of hard running to bring about healthy perspiration and deep breathing."

While a student at St. Louis University, Hawkins cycled a 20-mile round trip daily. He did all right in the classroom as well as on the rink—graduating cum laude from St. Louis U. Law School last February.

An attorney now, Hawkins will put aside his law books tomorrow night for the first of the 5:30-to-7:30 p.m. workouts at the Winter Garden, 520 De-Baliviere.

Hawkins, a runner-up in the California and Illinois state indoor meets in 1951, said that special emphasis would be put on the proper fitting of skates. A plan to trade off skates may be set up, he said, to cut down on the number of oversized skates purchased with the thrif-

ty thought of making them usable for several years.

"Skates should fit like pigskin gloves," he said. The opening workout will be only for those who registered at the first meeting Oct. 23. Others may register tomorrow or at subsequent Tuesday (6:30 to 7:30 p.m.) and Thursday sessions. Only charge is a 50-cent registration fee with the Missouri Skating Association. There is no age limit.

The Post-Dispatch again is sponsoring the workouts as well as the Silver Skates carnival.

**IN MINIATURE AT OUR DOWNTOWN TOYLAND**
**NO ADMISSION CHARGE**

Entrance in Toyland—Eighth Floor, DOWNTOWN

Disneyland... that fabulous new playground that Walt Disney developed in California has been brought to St. Louis in miniature exhibition form by Famous-Barr. It's a fairyland for all good little girls and boys to see. Miniature mechanical reproductions of the Pink Elephant Ride, Donald Duck, Mr. Toad in his cavorting automobile, Pinocchio and Monstro, the Whale; Mickey Mouse playing his trumpet, Goofy with his Bongo Drum, Donald Duck strumming on his Harp. Then there is Donald Duck as a space ranger, and King Arthur's Carousel, too, as well as dioramas of Adventureland, Main Street, Frontierland, Fantasyland, and Tomorrowland. There is the Casey, Jr. Train to see, too. Remember there is no charge for admission!

Come to our Downtown Toyland,  
Eighth Floor, and see Disneyland  
wonders in miniature!

Stroll up and down  
the aisles of our  
Disneyland and see  
Walt Disney's beloved  
characters brought to  
mechanical life!

SEE... the  
giant, animated  
Whale with Pi-  
nocchio!

SEE... Donald Duck riding  
with Mr. Toad in his car  
while the car bounces up and  
down and does everything  
except fall apart!

SEE... King Arthur's Carousel  
whirling round and round!

SEE... Mickey Mouse toot-  
ing his trumpet!

SEE... this miniature reproduction of the  
famous whirling Pink Elephant Doll Ride!

SEE... Donald Duck  
strumming on his Tin-  
ker Belle Harp!

SEE... Goofy hang  
away on his Bongo  
Drum!

## 'SUBSTANTIAL' FOREIGN AID IN 1957 PROMISED

New Chief of Program Hopeful of Cutting Outlay Some — Reports on Asia Trip.

WASHINGTON, Nov. 2 — John B. Hollister, director of the International Co-operation Administration, said yesterday he is preparing a "substantial" foreign aid program for fiscal 1957—the year that begins next July 1.

He told a press conference he is hopeful that outlays can be reduced "somewhat" below the \$3,900,000,000 total that the United States is scheduled to spend in fiscal 1956.

He said it is impossible to forecast whether the military aid part of the program will be smaller than the fiscal 1956 budget total of \$2,150,000,000. Economic aid will not be "very far short" of this year's \$1,750,000,000 total, he predicted.

### Stresses World Unrest

Hollister stressed that the United States cannot make sizable cuts in its military aid effort as long as "the world stays the way it is" and as long as it is necessary "to keep those big armies in the field." Any reductions that will be made in fiscal 1957 will be "pretty small potatoes," he declared.

Hollister replaced Harold E. Stassen as director of the foreign aid effort five months ago. Supporters of a strong foreign aid program questioned the wisdom of the appointment at the time since Hollister was then executive director of the Hoover Commission—a group that had proposed a severe pruning of foreign aid activities.

He said yesterday that he "always" is hopeful that world conditions will quiet down enough to permit reducing the foreign aid program.

Hollister returned Sunday from a four-week trip to Japan, Korea, Formosa, the Philippines, and southeast Asia.

Asked whether the free world is holding its own against Communism, he said the free world has been gaining in the part of the world he visited.

### Cites Diem's Victory

Hollister said the 98 per cent vote recently won by Ngo Dinh Diem, president of South Viet Nam, "is certainly a stabilizing force that wasn't there six months ago." He said he does not want to discuss each of the Asian countries individually but the Viet Nam election is a "perfect example of how the thing has improved."

He said there is no question but that the Communists would lose if a general election were held in South Viet Nam now.

Hollister played down reports of stepped-up Russian economic aid efforts. He said he saw "no great evidence" of Russian economic activities in his trip. He added that there is no evidence so far that the Russians are embarking on a general economic aid program comparable to the United States effort.

Earlier, Hollister announced the appointment of Guilford S. Jameson as deputy director of ICA for Congressional affairs. Jameson is a Washington lawyer.

## AFGHANISTAN THREATENS TO BUY RED ARMS

CAIRO, Nov. 2 (AP)—Afghanistan's Ambassador to Cairo, Salahuddin Elsalbouki, says his country will be obliged to buy arms from the Communist bloc if Afghanistan's demand for arms from Western countries is rejected.

Elsalbouki told newsmen yesterday Pakistan is "a great threat to us. So we are compelled to defend our frontiers and re-equip our army with new weapons."

Russia has a big program of economic technical assistance to Afghanistan which already is in operation.

Asked if Afghanistan ever bought arms from Russia, he said, "We used to buy arms from different countries including France, Czechoslovakia and Britain. But now we are in urgent need of modern weapons. We have already submitted requests to buy arms from the United States and Britain. If this is rejected we will be obliged to turn to Russia and the Communist bloc just as Egypt did."

## ROBBER MAKES VICTIM CALL POLICE, THEN STEALS \$180

PATERSON, N. J., Nov. 2 (AP)—"I want you to call the police and report an attempted robbery," said the hatless man in a trenchcoat last night, motioning with his hand in his pocket as if he had a pistol.

Tony Sabeh, manager of a food store, picked up the phone, got police headquarters and started talking.

"Sound more serious or they won't believe you and you'll wind up dead," the man said. As Sabeh talked the robber forced a store employee to open the cash drawer and hand him all the bills. Sabeh completed his call to police about the time the man finished stuffing \$180 into his pocket and fled.

Mrs. Sullivan Sees Dulles. GENEVA, Nov. 2 (UP)—Secretary of State John Foster Dulles received three Democratic members of the House Foreign Affairs Committee today. They were Edna F. Kelly of New York, Wayne L. Hays of Ohio and Leonard K. Sullivan of Missouri.

## 18 NEW MEMBERS PROPOSED FOR U.N.

U.S. Delegation Studying  
List — Lodge Criticizes  
Reds' Abuse of Veto.

UNITED NATIONS, N.Y.,  
Nov. 2—Chief United States  
delegate Henry Cabot Lodge

said last night that his delegation is studying a number of proposals which could bring as many as 18 new members into the U.N.

Lodge stated that the American position was based on the 1948 Senate resolution sponsored by the late Senator Arthur Vandenberg (Rep.), Michigan, in which permanent members of the U.N. Security Council agree not to use their veto power to block the admission of new members.

"It is the abuse of this veto power," Lodge said, "which has been the obstacle in the path of admitting new members."

A spokesman for the American delegation said that special attention was being given a Canadian proposal which will be introduced in the General Assembly's special political committee this session.

The Canadian plan calls for the admission of all applicants with the exception of the politically divided states of Korea and Viet Nam. To gain admission, an applicant needs the backing of two-thirds of the present 60 members of the General Assembly and seven of

## CHOU THINKS U.S. MIGHT RECOGNIZE REDS IN 101 YEARS

LONDON, Nov. 2 (AP)—Three British Quakers returned last night from Peking and said Premier Chou En-lai told them Red China "would wait 100 years and perhaps in the 101st year the United States would recognize us."

The Quaker good will mission spent a month in Communist China. Chou told the group in a two-hour interview that although Red China has been refused United Nations membership six times "she is still patient in the face of those six rebuffs." The Quakers suggested to Chou that China continue to exercise patience and he replied that the British too are well known as patient people.

Then Chou observed that the British government recognized Red China and yet in the United Nations voted not for it but for Chiang Kai-shek's Nationalist government.

Chou said China had no intention of asking Britain to "act as her bodyguard or escort into the United Nations but did ask Britain to vote for her."

the 11 members of the Security Council.

This includes all four of the permanent big-power members. Twelve of the nations on the Canadian list are non-Communist countries which have been blocked in every application by the Soviet veto in the Security Council.

so expensive looking!

## blue Swan opaque nylon tricotee slip

The slip that's bringing "oo'h" and "ah'h" yet bears such a modest price tag! Blue Swan blends beautifully constructed fit, delicate froths of nylon chiffon (lined at bodice and billowing at hem) and rows of unique rose-point-patterned lace into a masterpiece of lingerie elegance... so utterly feminine! ## URGES CRACKDOWN UNDER HOUSING LAW

Union Official Speaks After  
Baum Cites Difficulty of  
Enforcing Law.

The city's minimum housing standards ordinance should have its enforcement provisions strengthened, Sidney Zagri, community relations director of AFL Teamsters Union Local 688 told a union meeting last night, after City Building Commissioner A. H. Baum declared it was difficult to enforce. Baum told residents of the Third and Fourth wards, meeting at Ikel Auditorium, that it is difficult to establish legal proof of violations of the ordinance. He also said lawyers have many devices they can use to delay its enforcement. Only a house-to-house check throughout the city could uncover many violations of the ordinance, Baum declared. He said his office did not have a large enough staff to make such a check. Zagri declared that not one of 3600 known violations of the ordinance in pilot redevelopment

ment projects in the Hyde Park and Cherokee districts have resulted in prosecutions.

"Not provisions of the law are changed to make it enforceable in all sections of the city, we can look for a recurrence of the tragedy that took the lives of four young children last week," he told the group. He was referring to a fire last Thursday in the illegally-occupied basement apartment of Mrs. Barbara Dawson, a Negro, of 1805 North Sarah street, in which four children perished.

## MICHIGAN USES FUNNEL TRAP IN STUDY OF RUFFED GROUSE

LANSING, Mich. (UP)—A biologist with the state conservation department says a new type of funnel net trap for ruffed grouse has proven invaluable in research work.

Walter Palmer said Michigan conservationists adopted the trap after it was proven successful in Wisconsin. He said 23 grouse were trapped in the first 10 days.

Palmer, who built the five nets, said they consist of 50-foot runners of hardware cloth stretched on each side of a cloverleaf center. He said the grouse wander into them and follow the funnels until they wander into the cloverleaf.

## SOLUTION BEING SOUGHT TO CITY, COUNTY CONFLICTS

CHICAGO (UP)—The American Municipal Association reports more efforts are being made to resolve conflicts between city and county governments.

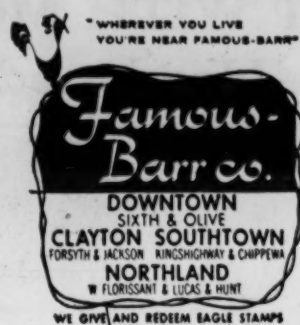

In Texas, the association said, a governor's commission has been appointed to study the possibility of a central government for metropolitan Houston. A citizens' committee has been incorporated to offer plans for possible co-ordination or consolidation of functions in the city and county of St. Louis.

The Public Administration Service recently recommended a metropolitan authority for Miami and Dade County, Fla., and the legislature has authorized steps to set it up.

## Sale! Modern Cold and Headache Reliever!

WHY WAIT FOR OLD-FASHIONED PAIN RELIEF?

# Bufferin

Acts Twice as Fast as Aspirin!  
Doesn't Upset Your Stomach ...

because Bufferin combines aspirin with two highly effective antacid ingredients which actually protect your stomach from aspirin irritation.

1. Medical science knows that a pain reliever must go through the stomach and into the blood stream to relieve pain.
2. Bufferin combines aspirin with two antacid ingredients. These speed the pain reliever out of the stomach and into the blood stream twice as fast as aspirin. So ...
3. Bufferin acts twice as fast as aspirin to relieve pain. And it won't upset your stomach as aspirin often does.

If you suffer from pains of arthritis or rheumatism, ask your physician about Bufferin.

### STRIKE ENDS IN 3 CHILE MINES OWNED BY AMERICANS

SANTIAGO, Nov. 2 (UP)—The three largest American-owned copper mines in Chile were operating normally again today after nearly 16,000 miners returned to their jobs, ending a 24-hour wild-cat strike.

Reports from Anaconda Copper Co.'s Chuquibambilla and Potrerillos mines and from the Kennecott company's El Teniente mine said operations were resumed after the brief stoppage.

The trouble arose over the workers' demand for uniform pay and working conditions in the three mines. Labor Minister Eduardo Yanez said a "copper miners' statute" providing for uniform collective contracts will be adopted soon.

### HENNINGS GROUP CLAIMS CREDIT FOR ARMY SHIFT

**Cites Reversal of Security Risk Finding in Second Guilt by Kinship Case.**

WASHINGTON, Nov. 2 (AP)—Senator Hennings (Dem., Missouri), says his subcommittee will study an "apparent conflict" between some aspects of the administration's employee security program and freedom guarantees in the Bill of Rights.

Hennings, chairman of the Senate Subcommittee on Constitutional Rights, announced this yesterday in claiming credit for the Army's reversal of a security risk finding against Walter K. Novak of Clio, Mich.

The Pentagon made no mention of the Hennings group in announcing yesterday that Secretary of the Army Wilber M. Brucker had ordered an honorable discharge for Novak, a former first lieutenant, after a personal review of the case.

Novak was given a discharge under honorable conditions last August after a security investigation in which charges of leftist associations were made primarily against his parents. This type of a discharge ranks below an honorable discharge.

**Second Case Cleared.**

"Lt. Novak's case is the second guilt by kinship case cleared up as a result of inquiry made by the subcommittee on constitutional rights," Hennings said in a statement.

The constitutional rights group took up Novak's case at the request of Senator McNamara (Dem., Michigan), who had said Novak was victim of "a shocking miscarriage of justice."

The other case Hennings cited was that of Fred Karpoff Jr. of Cleveland, who was dismissed in April 1954 from his job at the Lewis Flight Propulsion Laboratory in his home city. The Civil Service Commission announced last week it was withdrawing a finding that Karpoff failed to meet its "suitability standards."

The subcommittee said the dismissal of Karpoff, an aeronautical scientist, was based on a charge of "close and continued association" with his parents who, it said, had joined the International Workers Order to buy cheap insurance.

The I.W.O., a defunct fraternal group on the attorney general's list of subversive organizations, also figured in Novak's case, the subcommittee said. Although most of the Army's charges involved his parents, Novak was accused of having failed to disclose membership in the I.W.O. Novak contended he knew nothing about any such membership. His mother testified she enrolled him and his sister so they could get inexpensive insurance offered by I.W.O. She said neither child knew about being enrolled in that organization.

**Hearings Nov. 14.**

Hennings said his subcommittee will devote "a great deal of attention to the loyalty-security program" at hearings, starting Nov. 14, on free speech and assembly guarantees under the first amendment to the Constitution.

"We intend to acquaint the American people with the apparent conflict between some of the practices and policies followed in the security program and the principles embodied in the first article of the Bill of Rights," Hennings said.

He said, the subcommittee will take testimony "on the legal and constitutional authority behind the use" of the attorney general's subversive list and others like it. The attorney general's list is used as a guide in the federal employee security program.

Hennings said his group will ask government officials to cite authority for "branding individuals as security risks because of their association with individuals, including relatives, who are members of the so-called proscribed organizations."

### HARBORS TO BE UNDER U.S. AGENCY IN NEXT MAJOR WAR

HOUSTON, Tex., Nov. 2 (AP)—The chief of mobilization planning for the Interstate Commerce Commission said yesterday that in event of a major war the nation's harbors will be placed under control of a War Transport Administration.

Francis A. Silver told of government plans for wartime use of harbors in a speech before the American Association of Port Authorities. He said the plan lifts the ports from their World War I and II roles as "transport orphans" and places them under a single agency—the WTA.

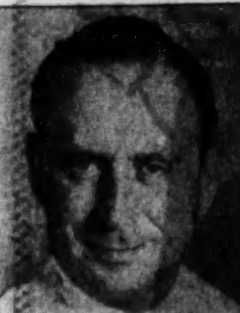

Silver said the plan was "completed and in the possession of the Government when the Korean emergency was thrust upon us in June of 1950." He said it was not ordered into effect because the Korean war did not involve full-scale mobilization.

### 3-YEAR DOCTOR TRAINING OUT IN RED CHINA, INDIAN SAYS

NEW DELHI, Nov. 2 (AP)—Princess Rajkumari Armit Kaur, India's health minister, reports Red China has abandoned a program to train doctors in three years.

Reason: "Not good enough." Instead, she said, the Chinese are giving a five-year medical course and plan to boost it to six. The princess has just completed a three-week trip to China.

## Sta-Puf BIG HIT WITH MOTHERS— No More Wash-Hardened Clothes!

**A Miracle for Diapers!**  
Sta-Puf makes diapers and baby clothes petal-soft as baby's tender skin itself. No more scratchy stiffness, even when you wash in hardest water. And Sta-Puf makes diapers far easier to pin. No strong finger-pressure needed. Used by leading diaper laundries and hospitals. Kind to skin—kind to hands. Protects fabrics—clothes last longer.

**Greatest Washday Discovery in 100 years!** Not a soap, not a detergent, not a water softener. STA-PUF is a totally new kind of washday product unlike anything ever known before. All you do is pour a little Sta-Puf into your final rinse water and presto!—everything comes so soft and fluffy that you can hardly believe your eyes! Harsh, "boardy" bath towels fluff up like magic! Wash-stiffened baby clothes and sweaters lose their irritating scratchiness in a jiffy! And even inexpensive-muslin sheets come out feeling like percale! STA-Puf is perfect for use in tubs, automatics or regular washing machines. And clothes come off the line almost wrinkle-free—are far easier to iron. Much of your flat work dries so beautifully smooth it needs no ironing at all!

**Remember—**  
Detergent-washing  
Hardens Clothes—  
**Sta-Puf**  
Makes Them  
SOFT Again!  
STA-PUF is the Trade Mark of a new and original product made by A. E. Staley Mfg. Co., Decatur, Ill.

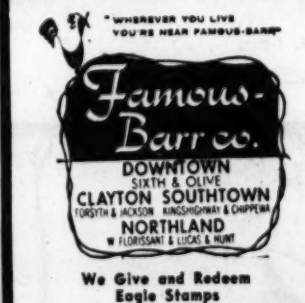

**You SEE the Difference!** The bath towels on the left were rinsed the ordinary way—while the towels on the right (rinsed with Sta-Puf) are more than half again as thick. This is visible proof of the washday wonders that Sta-Puf performs.

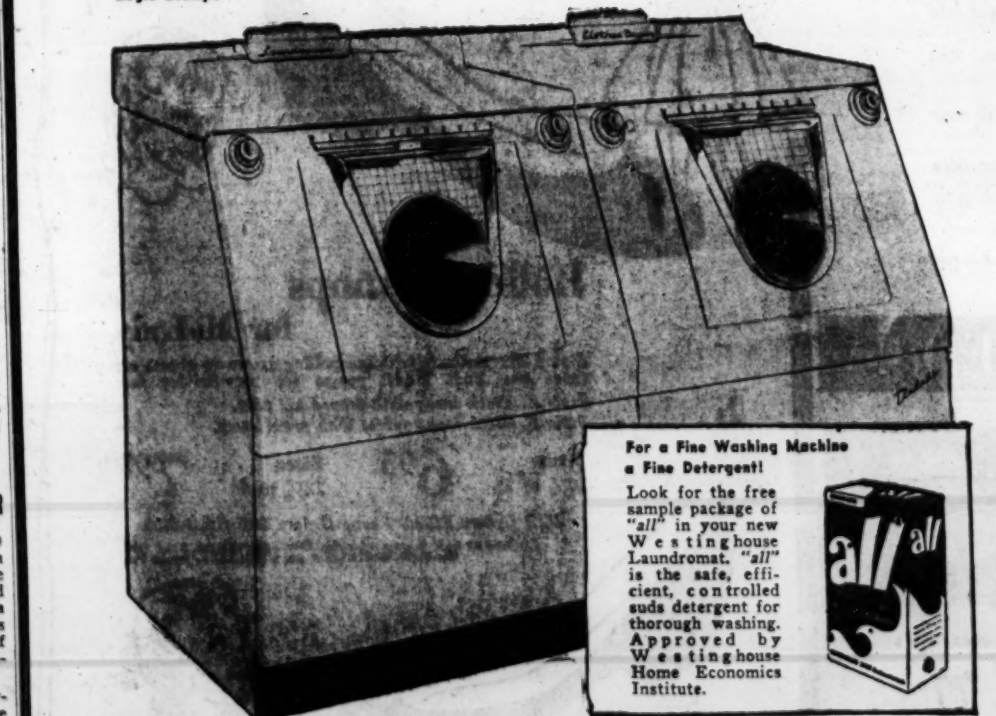

**You FEEL the Difference!** Bath towels, chenilles, woolens—all fabrics rinsed with Sta-Puf—come so velvety-soft that your whole family will notice the difference instantly. With Sta-Puf, you can say goodbye forever to coarse, wash-hardened clothes.

**Double-Your-Money-Back Guarantee!** Get Sta-Puf at your grocer's today. Double your money back if not delighted with results. Simply mail empty bottle to A. E. Staley Mfg. Co., Decatur, Ill. We'll refund double the price you paid. Sta-Puf is inexpensive. Quart only 49¢. Half-gallon—89¢!

**Buy Both and Save 150.00!**

# DULLES CABLES BEST WISHES TO UNESCO BRANCH

CINCINNATI, Nov. 2 (UP)—Secretary of State John Foster Dulles today cabled his "best wishes" to the United States National Commission for the United Nations Educational, Scientific and Cultural Organization.

Dulles sent the message to Maj. Gen. Milton G. Baker, chairman of the commission, on the occasion of its annual meeting here.

"The national commission is performing an important na-

tional service in continuing efforts to strengthen and improve the program and operations of the United Nations Educational, Scientific and Cultural Organization and its efforts to secure the understanding and support of the American people for the vital work to which this organization is dedicated," the cable said. "I extend to you and your colleagues... my best wishes for a successful commission meeting."

At its convention in Miami last month, the American Legion urged the United States to withdraw from UNESCO, charging the international organization was preaching world government.

# LADIES AID CAN'T EXPLAIN \$16,540 IT FINDS ON HAND

NEW YORK, Nov. 2 (AP)—A group of women, gathered for a charity meeting, had a different kind of money problem yesterday: They had \$16,540 in cash and couldn't account for it.

The money, in \$50, \$20 and \$10 bills, was discovered by a member of the Baron de Hirsch Ladies Aid Society at the Yorkville Temple when she went to prepare refreshments. The bills were in a paper bag in a cupboard.

Since no one could explain

where the cache had come from, the women turned the money over to police.

The money may go to the organization if the rightful owner does not claim it within 90 days.

**JAPAN WILL CELEBRATE  
ITS ANNUAL CULTURE DAY**

TOKYO, Nov. 2 (AP)—Japan celebrates its annual culture day tomorrow honoring Emperor Meiji, who guided Japan out of feudalism into the modern age.

Dances, music and athletic events are planned at Meiji shrine in Tokyo. More than a million are expected to worship there.

# YOUTHS ADMIT THEY SET FIRE IN WHICH FIREMAN DIED

SPENCER, Ind., Nov. 2 (AP)—Three Gosport (Ind.) youths have admitted they set fire to a bridge, causing the death of a fireman, their close friend.

Howard Boegsholtz, deputy state fire marshal, said the youths told him they started fires last Wednesday and Thursday nights in an old wooden covered bridge over White river at Gosport. He said they told him they had no malicious intent but were playing Halloween pranks.

Bert Dittmore Jr., assistant fire chief at Gosport, was

killed and nine other Gosport firemen were injured when the bridge collapsed while they were fighting the second blaze early Friday. They had put out the first one without serious damage.

**A Treat from a Trick.**

COLUSA, Calif., Nov. 2 (AP)—Mrs. Ernest Hubbard, while working in her garden last June, lost a 3/4 carat diamond setting from her ring. Monday a neighbor child asked if she could have a pumpkin from Mrs. Hubbard's garden. Mrs. Hubbard picked one and began carving a pumpkin head for the little girl. The diamond fell into her hand. The stone was imbedded in the pumpkin.

# U.S. TROOPS IN JAPAN TO EAT MORE LOCALLY-GROWN FOOD

NAGOYA, Japan, Nov. 2 (AP)—A Far East Air Forces doctor said today the use of Japanese-grown vegetables and fruits had peaked up the daily menus of United States troops.

Col. Benjamin F. Leach told the closing session of a three-day FEAF medical conference that a series of studies had resulted in the decision to use more locally-grown food products. Leach said a desire to improve menus and cut down on spoilage in perishable vegetables shipped from the United States had prompted the decision.

"However, the backbone of

# our subsistence supplies is now and will continue to be from stateside sources," he said.

**MISSOURI JOBS AT HIGHEST  
POINT SINCE DECEMBER 1953**

JEFFERSON CITY, Nov. 2 (AP)—Missouri had 1,278,700 workers in non-farm jobs in September—the biggest total since December 1953.

Gordon P. Weir, director of the State Employment Security Division, reported the figures yesterday. He said the total was 13,100 higher than in August and 29,800 more than in September a year ago.

It was the ninth straight month the number of non-farm jobs had increased.

## MONTGOMERY IN U.S., CALLS PEACE 'UNEASY'

NEW YORK, Nov. 2 (UP)—Field Marshal Viscount Montgomery, deputy supreme commander of the North Atlantic Treaty Organization, said today the so-called "new look" in East-West affairs "could be genuine," but he suggested that "the time has come to prove it with deeds rather than words."

the world today is our possession of the atomic bomb, but I think it is an uneasy peace. We have to be careful and not the spirit of Geneva elude us," he said.

The hero of the World War II North African campaign arrived on a British Overseas Airways plane from London to begin a 15-day visit in the United States.

Among the highlights of this visit will be a talk with President Eisenhower on Saturday and conferences with United States Chiefs of Staff in Washington and with Adm. Jerauld

Wright, supreme commander of the NATO Atlantic fleet, in Norfolk, Va., both next week. Montgomery will stay in New York until Friday. He said he will confer with Bernard Baruch while here.

### Nothing Sacred.

PHOENIX, Ariz. (AP)—A traveling salesman reported this theft to police with mixed feelings: One Bible, three books on religion and some blanks to be used in ordering religious articles. The articles were taken while he left his car in a parking lot.

## RANK OF RUSSIAN LEADERS SHOWN BY PROTOCOL LIST

MOSCOW, Nov. 2—Light on how Russia's top leadership is ranked was shed by Soviet protocol officers when diplomats of 12 Asian-African countries asked them how to seat Soviet officials at a dinner given last night for Burmese Prime Minister U Nu.

submitted the following names in this order:

Prime Minister Bulganin, Communist party leader Nikita S. Khrushchev, First Deputy Prime Ministers Lazar M. Kaganovich, Anastas I. Mikoyan, Maxim Z. Saburov and Mikhail G. Pervukhin and former Prime Minister Malenkov, now a deputy prime minister and also minister of electric power stations.

## COMPROMISE OPENS WAY FOR PERFECT CIRCLE PACT

CHICAGO, Nov. 2 (UP)—A long-sought compromise has been reached on which to base negotiations in the three-month-old strike of CIO United Auto Workers against four Perfect Circle Corp. plants, federal mediators announced today.

## ST. LOUIS POST-DISPATCH

Wed., Nov. 2, 1955 9C

New Castle is the UAW's majority undisputed. Federal mediator Edward Windes said any agreement reached on the New Castle plant will be extended to the firm's two Richmond plants and one at Hagerstown if the UAW retains bargaining rights there. The National Labor Relations Board has recognized decertification petitions at Richmond and Hagerstown and ordered elections held to determine representation. Dates for the elections have not been set.

# Kissin' Cousin of the Thunderbird

Thunderbird looks, this Ford has aplenty. And it has the mighty  
Thunderbird Y-8, too. All this, plus new Lifeguard Design!

A look at this Thunderbird-inspired '56 Ford plays hob with your heart. Here is a beauty just begging you to get behind the wheel.

Take your place! And place your foot on that hair trigger called a gas pedal. A nudge and you're off—Ford's new Thunderbird Y-8 engine\* melting the miles, making molehills out of mountains, making your driving more fun than it ever has been before.

And go where you will, how glad you'll be to have as your guardian Ford's new Lifeguard Design. Ford's new deep-center Lifeguard steering wheel, new Lifeguard double-grip door latches, new Lifeguard safety rear-view mirror, new optional Lifeguard padding and Ford seat belts—all combine to keep you safer in this '56 Ford. Come in and Test Drive the new Ford... and you'll know why people everywhere are saying "It's the fine car at half the fine-car price."

## I Want a Heart to Heart Talk with Everyone Wearing False Teeth!

I had fourteen upper and lower teeth extracted at eight o'clock in the morning and full upper and lower plates slapped in my mouth at three o'clock in the afternoon. It was agony but being a salesman, I couldn't go around without teeth and I couldn't afford to stay out of circulation while my gums healed up.

Anyway, my dentist told me it was better to put the plates right in if I could stand the pain. I thought I'd never live thru those first few weeks but somehow I managed to survive. He also told me that everybody's gums shrink after teeth are extracted and my shrinkage would be worse than usual because I had a bad case of pyorrhea. How right he was. I'll never forget trying to close a big contract and lost it because my teeth fell right out on the buyer's desk. Was I embarrassed? I'll tell the world.

Did I ever hot-foot it back to my dentist the next day. Of course, he had warned me about the shrinkage so I really couldn't blame him because my plates loosened up. There was nothing to do but let him take another impression and make two new plates. I thought I was all set for awhile, but no such luck. It was only a couple of months before my plates loosened up again and my gums got awfully sore.

I couldn't afford another set of teeth right away because business hadn't been so good. So I tried powders and sticks but they were messy and a pain in the neck. Every time I ate, I had to duck into a washroom and clean my plates. I thought I would go "nuts"—when a miracle happened! A friend told me about Snugg brand Denture Cushions. I didn't believe him at first, until he took out his teeth and showed me how this new soft plastic had tightened up his plates. Believe me! I tore right down to the drug store and bought a package—took them home—and, in a few minutes after following the simple directions, my plates were completely re-lined—tight as a drum.

I was like a new person. I could eat anything—corn on the cob or chew the toughest steak. I could talk my head off and never worry about losing my teeth. Another thing I found out—Snugg brand Denture Cushions were so easy to clean. All I had to do was brush them with cold water. How long did they last? Well, in my case they lasted about two months. And then it was a simple matter to peel out the plastic and put in another set of cushions. Because Snugg brand Denture Cushions are soft plastics, they never get hard or stick so tight that they ruin your plates.

And so my friends, why don't you profit by my experience. Don't blame your dentist if your gums shrink and your plates loosen up—get Snugg brand Denture Cushions and enjoy tight-fitting false teeth. Forget you ever had sore gums due to loose fitting dentures. See your druggist and you will thank the day you laid down \$1.50 for Snugg brand Denture Cushions. If you are not satisfied, the manufacturer will refund your money. What could be fairer?

Yours for tighter teeth,  
Joseph Snug

## Only 70 'Lost' Taxpayers Apply for Refunds in Day

Largest Amount Claimed Is \$168, and  
Smallest Is 80 Cents—More  
Names Listed.

Only 70 persons applied for income tax refunds at the Internal Revenue Service office yesterday. About 1500 persons have applied for refunds since Oct. 16 when publication of the names of "lost" taxpayers began.

William O. Heuman, 4051 Blow street, claimed the largest refund yesterday. It was \$168. Smallest amount claimed was 80 cents by Fred W. Bailey of Kennett, Mo., who applied by mail.

Those whose names appear in the published lists may apply for their refunds in person in the basement in the Federal building at Twelfth boulevard and Market street, or they may apply by mail. Identification in the form of a copy of the 1953-54 income tax return or some other bona fide paper is necessary. Telephone inquiries cannot be handled and relatives of taxpayers may not apply.

Today's list follows:  
Arlene, Charles E., 1724 California.  
Armstrong, Elmer, 2004 Duer.  
Armstrong, James A., 217 Glas-  
gow.

## FOSSIL FIND IN ARIZONA

BENSON, Ariz. (AP)—Fossils  
believed to be nearly 3,000,000

years old have been discovered  
near here. Dr. John Lance, a  
paleontologist from the Univer-  
sity of Arizona, said the re-  
mains include the hoof of a

pre-historic three-toed horse,  
bones of a mastodon and pieces  
believed to be from the shell of  
a glyptotherium, a seven-foot-  
long mammal.

# No One Has Ever Discovered A Faster, Safer and More Effective Pain Relieving Agent Than STRAIGHT ASPIRIN

## Day After Day Millions Use Straight Aspirin Without Stomach Upset!

Next time you hear or read about pain relieving products which make such claims as "better than aspirin", "faster than aspirin", "more effective than aspirin"—and which, incidentally, cost you substantially more—keep these facts in mind.

1 Aspirin is far and away the most widely used pain reliever in the entire world.

2 Bayer Aspirin's record of use by millions of people—without upsetting the stomach—is unmatched by any other pain reliever.

3 Aspirin is, as stated by highest medical authorities, probably the safest and most efficient of the pain-relieving drugs!

4 Aspirin is so gentle that doctors prescribe it even for small children.

So next time you have a headache, neuralgia or muscular aches and pains, take Bayer Aspirin—the sure, effective and time-tested pain reliever—the best aspirin the world has ever known.

## Why Bayer Aspirin Acts So Fast

Bayer Aspirin—which is straight aspirin, with no antacids added—is being absorbed through your stomach wall—right to your pain—from the instant the tablet starts disintegrating in your stomach. Medical authorities have found that the addition of certain antacids to aspirin can actually slow down absorption of the pain reliever through the stomach wall. Bayer Aspirin starts to disintegrate instantly—and heads right for the root of your pain.

## SENATORS TO MAKE SURVEY ON FAIR TRADE PRACTICES

WASHINGTON, Nov. 2 (AP)—A Senate Small Business subcommittee said yesterday it was sending a questionnaire on fair trade practices to 1700 manufacturers throughout the country. Under fair trade agreements, manufacturers set the prices at which their products

are to be sold to the public. The subcommittee's questionnaire asks manufacturers to report on the extent of their fair trade program, enforcement problems they have encountered, their future plans and what changes in fair trade laws they feel are necessary. As part of the subcommittee's study, a similar questionnaire is to be sent later in the month to retailers and wholesalers in states that have fair trade laws.

## MEDIATOR MEETS AGAIN WITH UNION IN P.S. CO. DISPUTE

Says He Senses 'Slightly Improved Attitude' on Both Sides Toward Settlement.

Daniel C. Rogers, chairman of the State Board of Mediation, and two St. Louis members of the board were meeting today with representatives of the transit union in further efforts to bring about a settlement of the wage dispute between Public Service Co. and its bus and streetcar operators.

Whether there will be a second conference today with representatives of the company will depend on the outcome of the talks with union representatives, Rogers said.

Commenting on the results of separate conferences yesterday with company and union, Rogers said he sensed a slightly improved attitude.

"I don't want to make this too optimistic," he said, "but it seemed to me there was a slight warming up on the part of the negotiators toward the necessity for a settlement."

Rogers said state seizure of the transit lines was an exercise of emergency police powers and violation of the seizure called for heavy penalties. "Therefore, upon seizure of a public utility," he became the public duty of the mediation board, the company and the union to effect a speedy settlement of the dispute so that the seizure may be removed," he added.

Rogers is being assisted today by Albert Fultz, a labor member, and C. R. Stockhus, a management member, of the mediation board.

The union, at the outset of negotiations on a new contract last December, asked for an across-the-board 26-cent increase in the hourly rate for its approximately 2500 members. Under the old contract, which expired last Feb. 28, the men were receiving the following scale: Bus and streetcar operators, \$1.72 at start and \$1.87 after one year; mechanics, \$1.58 at start and \$2.07 top rate, except that four mechanics with supervisory duties receive \$2.12 an hour.

Rogers is in charge of the transit property as the agent of Gov. Phil M. Donnelly, who seized the company under the King-Thompson Act three weeks ago to halt a strike that lasted three and one-half days.

RECTOR RESISTS \$64,000 GAMBLE, TAKES HIS \$32,000

NEW YORK, Nov. 2 (AP)—The Rev. Alvin Kershaw, Episcopal Church rector and jazz expert, has taken his \$32,000 winnings and passed up a chance for the grand prize on "The \$64,000 Question," CBA radio and television show.

He says he will use the money—after income taxes—to support settlement of displaced persons in his parish. He also will make a contribution to the National Association for the Advancement of Colored People.

The clergyman announced on the program last night that he would keep the \$32,000, rather than risk losing it in a try for more, because it was a "resource and opportunity to support many movements in our world—movements in laboring and struggling for brotherhood."

Herbert E. C. Weber Jr., a chemical worker, 4506 Kirkpatrick Homes, Granite City, was sentenced to three years in the penitentiary today by United States District Judge Fred L. Wham at East St. Louis after he pleaded guilty of impersonating an Air Force officer and cashing 32 bogus checks totaling \$2270.

Weber, a first lieutenant in the Air Force before his discharge last March 8 under conditions other than honorable, cashed worthless checks at various officers' clubs and post exchanges at military bases after his discharge. Assistant United States Attorney Jack Morris told the court.

He impersonated an officer and used the Air Force identification card he retained from his actual service to cash the checks, Morris said. Weber was arrested here last Aug. 24 by Federal Bureau of Investigation agents on a charge of cashing a bogus check at Scott Air Force Base in June.

JOHN H. MOHR FUNERAL SERVICES TO BE TOMORROW

Funeral services for John H. Mohr, a retired policeman and member of the St. Louis force for 33 years, will be at 2 p.m. tomorrow at Drehmann-Haral undertaking establishment, 1905 Union boulevard. The body will be cremated.

Mr. Mohr, 84, died Monday at St. Luke's Hospital of uremia. He retired from the police force in 1928. He is survived by his wife, Mrs. John H. Mohr, 1418 Burd avenue.

Deputy in State Department. WASHINGTON, Nov. 2 (UP)—William M. Rountree of Swainsboro, Ga., was named yesterday deputy assistant secretary of state for Near Eastern, south Asian and African affairs. He has recently been counselor of the United States embassy in Tehran.

### LINDA CHRISTIAN GIVES BACK \$132,000 IN JEWELS

LOS ANGELES, Nov. 2 (AP)—The \$132,000 worth of jewels that a Milwaukee admirer gave actress Linda Christian have been turned over to the New York jewelry firm from which they were purchased.

The check that Robert H. Schlesinger gave Van Cleaf and Arpels of New York bounced. Miss Christian, former wife of actor Tyrone Power, resisted efforts of the jewelers to obtain the gems, claiming they were a Christmas gift.

Yesterday, however, lawyers said an agreement had been reached out of court. Miss Christian, they said, had been given "an undisclosed sum" for the inconvenience.

Schlesinger avoided litigation and declined comment in the matter.

### Lie Awake Last Night?

because of stomach acid?

#### Do This Tonight:

Why let excess stomach acidity keep you tossing and turning in a vain attempt to sleep? Do as millions do—take 2 Tums as a "night cap." See if you don't fall asleep more easily—feel fresher in the morning. Tums neutralize excess acid almost before it starts. Always keep Tums handy to counteract fullness, acid indigestion—day or night. Get a handy roll today.

So economical—only 10¢ a roll. See ad p. 254

### Parents of Kidnap Victim

Air Force SGT. JERRY DAMMAN (second from right) assisting his wife down steps of their home at East Meadow, N.Y., yesterday after authorities listed as a kidnapping the disappearance of their son, Stephen. Others are SGT. LOY BROWN and Damman's former commanding officer, GEN. ROBERT E. CONDON.

STEPHEN DAMMAN

### MISSING BOY NOW BELIEVED KIDNAPED

Search in New York Suburb Called Off — Parents Broadcast Appeal.

EAST MEADOW, N.Y., Nov. 2 (AP)—Three-year-old Stephen Damman, still missing after a painstaking search of this New York suburban community, is now believed by police to have been kidnapped.

The house-by-house, ditch-by-ditch search over an area of 20 square miles was called off last night.

Several thousand volunteers, including hundreds of the father's fellow airmen at nearby Mitchell Air Force base, had joined in the search for the child.

The father, Jerry Damman, a Continental Air Command sergeant, broadcast an appeal to the supposed kidnaper, saying:

My wife and I are beside ourselves with worry and anxiety. We'll promise to forgive you if you'll only bring him back to us.

The boy disappeared Monday from in front of a supermarket where his mother, Marilyn, had left him and a carriage holding his sister, Pamela, 7 months.

The boy, the baby and the carriage were gone when she returned from her shopping.

The baby girl was soon found in her carriage behind the store.

How she got there remained a mystery. It was apparent that the boy could not have pushed the carriage there himself since he would have had to buck traffic and go over rough ground.

A Federal Bureau of Investigation spokesman in New York City said the FBI is "keeping tabs and watching what develops" but as yet is not "actively investigating" the case.

'STOLEN' GOODS QUICKLY FOUND—AT HEADQUARTERS

CAMDEN, Me. (UP)—Police Chief John Rainfrette gave a service station operator, Ollie Dore, fast service after Dore reported three car mufflers stolen from in front of his station.

Rainfrette took down the complaint and went out to a patrol car to start searching for leads on the missing mufflers.

He was startled to find them in the rear seat of the patrol car.

Seems the night police crew had found the mufflers lying in front of the gas station and took them to headquarters for safe-keeping but forgot to tell the chief.

NO REWARD, ACCEPTS HELP

WATERBURY, Conn. (AP)—When Mrs. Sarah Silverman found \$400 and returned it to John Ruegg, an electrical contractor, she refused a reward but accepted his offer to make some electrical repairs at her home without charge.

### WIFE GETS WATCH THAT WAS 11 YEARS UNDER LAYAWAY

MEMPHIS, Nov. 2 (AP)—Willie Kelly got his wife's Christmas present out of layaway yesterday, 11 years after he made the first payment.

The Negro truck driver smiled as he fastened the \$395 watch on Mary Kelly's wrist. A jeweler had held the watch since Kelly paid two dollars down in September 1944.

Kelly had hoped to pay for the watch by the following Christmas. He failed. He set his sights ahead a year. It's been that way every year since.

He was so set on buying the watch that the store made an exception in its layaway policy and decided to hold it for him

indefinitely. Bit by bit, Kelly had paid \$283.91. Then, a few weeks ago, columnist Lyndel Sims of the Commercial Appeal wrote a story about the marathon layaway.

Newspaper readers chipped in to help Kelly. One contribution came from Alaska. The largest was \$50.

The \$105.50 in contributions, plus Kelly's \$283.91, left a balance of \$56.94 on the original cost plus taxes. The jeweler made up the difference.

Back On Job.

PLATTEVILLE, Wis. (UP)—When Robert White, physics instructor at Wisconsin State College here, became ill recently his father substituted for him. It was nothing new for J. W. White. He had taught the classes for 29 years before his son took over in 1949.

### NATIONALIST CHINA HOLDS MILITARY TEST ON QUEMOY

TAIPEI, Formosa, Nov. 2 (UP)—Nationalist China showed off its armed might on the offshore island of Quemoy yesterday in a large-scale air, sea and ground war exercise within

miles of the Communist coast.

A wing of jet planes and a great number of naval ships and foot soldiers, plus an array of American-built heavy weapons, took part in the war games, officials reported.

The highlight of the mock war was a beachhead landing exercise, under the supervision of Lt. Gen. Lo Li, deputy chief of the general staff.

Elephant Hide, Bones Separated.

MEDFORD, Mass. (UP)—P. T. Barnum's famous elephant Jumbo was killed in a railroad accident in Canada 70 years ago. Today, its stuffed hide is on display at the Tufts University Museum here. The elephant's skeleton is on exhibition at the Smithsonian Institution in Washington, D.C.

## NORTH DAKOTA EX-OFFICIAL LOSES APPEAL

Court Here Upholds  
Sentence of Christian-  
son on Gaming De-  
vice Charge.

The convictions of Elmo T. Christianson, former attorney general of North Dakota, and Herman Paster of St. Paul, Minn., of conspiring to transport gambling equipment into North Dakota were upheld yesterday by the United States Court of Appeals here.

Christianson, 34-year-old World War II bombardier, and Paster, a coin machine distributor, were convicted in a United States District Court at Bismarck, N.D., in April 1954. The former attorney general was sentenced to a year and a day in prison. Paster was sentenced to two years and fined \$10,000.

The court here found there was abundant evidence to support their convictions under the Johnson act, prohibiting interstate transportation of gambling devices.

There was a conspiracy between the two men and others "to move slot machines into the state of North Dakota, where they were to be operated after Christianson became attorney general in January 1951," the Appellate Court ruled.

During the trial in Bismarck, James L. Brastrup, formerly of Grand Forks, N.D., testified he made arrangements between Christianson and Paster for bringing in the machines with the understanding they would be permitted to be operated in North Dakota under a pay-off system.

Christianson, with less than two years experience as an attorney, was elected on the Re-

publican ticket in the general election in November 1950. He was re-elected in 1952, after he had been indicted. He and Paster have been at liberty under \$2500 and \$10,000 bonds, respectively.

## STATE AFL, CIO OFFICERS AGREE TO OFFICE MERGER

JEFFERSON CITY, Nov. 2.—Ten leaders of the Missouri AFL and CIO agreed yesterday to a proposed merger of the two state offices.

Frank J. Murphy, Kansas City, secretary-treasurer of the state federation of labor, said he expects ratification of the proposal at the national AFL meeting in New York Dec. 1.

Under the proposed setup John I. Rollings, St. Louis, president of the Missouri Federation of Labor, will be president of the merged organization. The leaders also proposed to retain the same personnel for both offices here.

Others attending the meeting included Lester H. Schwitzgebel, business representative of the Kansas City Bakery Drivers; Warren S. Welsh, president of the St. Joseph Central Labor Union, and Arthur A. Hunn, secretary of the Painters District Council No. 2, St. Louis.

## SYMINGTON ASSAILS POLICIES OF BENSON

Says Secretary 'Does Not  
Represent the Ameri-  
can Farmer.'

Secretary of Agriculture Ezra T. Benson is a fine, patriotic American citizen but "he does not represent the American farmer," United States Senator Stuart Symington (Dem.) of Missouri told the Lions Club of Downtown St. Louis today.

"Everybody else is being supported — why shouldn't the farmer get supported?" the Senator asked in a talk at Hotel Statler. He said farmers represent 14 per cent of the national population and receive only 5 per cent of the national income.

Business, Symington said, has

protection from tariffs, and some enterprises, such as airlines, are "supported outright." Labor, he said, has its \$1 an hour minimum wage and other guarantees against bad times.

The Senator, taking notice of defense of the Administration's flexible support system for farm commodities, predicted that declining income of farmers would be a major issue of the 1956 presidential campaign.

He warned that slumps in farm income and on the stock market had presaged the economic depression of the 1930s. Such a depression, if it hit the nation today, would be far more expensive to cope with than it was under the Hoover government, he said.

Symington also warned against the concentration of capital in the hands of a few large financial institutions. He said the trend was hostile to small business men, adding that when capital becomes over-concentrated, "it is just a step across the street to socialism."

Speaking of surplus commod-

ities held by the American Government, Symington noted that the major opposition to sale of these wares abroad came from the State Department. He said: "We've got to get rid of this production, or something is going to happen."

Symington, in response to a written question from the audience, vigorously defended the Democratic record on unemployment insurance and social security. He said he knew of no Democratic-sponsored social legislation that had been repealed under the Republicans.

The Senator, who served as first Secretary of Air Force, applauded a speech made in England last month by British Field Marshal Montgomery. Montgomery advocated unification of armed forces and a greater emphasis on preparing for nuclear warfare.

"I'm one that agrees with Monty," Symington said. He declared that billions could be saved in defense expenditures through unification and a more intelligent approach to the realities of the nuclear age.

## BRITISH SOLDIER FACES NINE YEARS WITH HIS BOOTS OFF

LONDON, Nov. 2 (UP).—A 31-year-old soldier of Britain's Coldstream Guards complained today because the army has ordered him to spend his next nine years of service with his boots off. Edward Francis Lee explained he developed foot trouble during Middle East duty

and doctors ordered him not to wear boots. But the army insisted he finish the last nine years of his 12-year hitch. Lee said he lounges around all the time in his bedroom slippers. "I just can't stand it much longer," he said. "I shall die of boredom with my boots off."

## SEWER UNIT STUDIES OWN FEE COLLECTION

Metropolitan District Would Not Use Water Utilities Under Proposal.

The Metropolitan St. Louis Sewer District is considering making its own arrangements to collect a proposed sewer service charge. Instead of using the facilities of the city water department and the St. Louis County Water Co., the Post-Dispatch was told today.

William Q. Kehr, executive director of the sewer district, said he had been authorized by the district trustees to make a study to determine what the cost of such a collection system would be.

The sewer district is negotiating with the city and the county water company for the use of their facilities for billing water customers. Under the district's proposal, these customers would also be billed for sewer service, which would be \$6 a year for most householders.

**Billing Machine Difficulty.**  
Kehr said the alternative of sewer billing by the district itself is being considered because it was learned that the water authorities' present billing machines could not be used to produce sewer bills.

New machines will have to be purchased, no matter what collection system is used, he said. He added that in either case the district would need to use the city and county water company customer lists.

One advantage if the district did its own billing would be the need for only one set of machines, Kehr said. If billing is done through two water

authorities, two sets of machines would be required, he said.

**Other Negotiations.**  
Kehr said he did not know whether the same difficulty concerning the use of billing machinery applied in the cases of Webster Groves, Kirkwood and Florissant, the only county communities which retail water to their residents. The district has begun negotiations with officials of the three cities for use of their billing arrangements.

Collection of the sewer service charge is intended to give the district revenue to enable it to take over operation of city and county sewers. It also will give the district the financial stability necessary before bonds for new sewer construction can be issued, district officials have said.

The trustees have voted to hire St. Louis Sewer Commissioner Ernest Paffrath to make a comprehensive survey of existing sewers in the city and county, together with recommendations for their maintenance. Paffrath would be paid \$3000 for the job, which he would do on leave from his city position.

## SENATOR KERR A VISITOR AT LYNDON JOHNSON RANCH

AUSTIN, Tex., Nov. 2 (AP)—Senator Robert S. Kerr (Dem., Oklahoma), visited today at the ranch of Democratic Senate majority leader Lyndon Johnson of Texas.

Johnson has been conferring with Democratic leaders in recent weeks, including Adlai Stevenson, a possible candidate for the Democratic presidential nomination; House Speaker Sam Rayburn (Dem.), Texas, and Senator Stewart Symington (Dem.), Missouri.

Kerr arrived last night and will leave this afternoon.

## UNITED FUND LIFTS HOPES FOR CHILD WITH BRAIN INJURY

Kevin received a brain injury at the time of his birth. His parents were shocked and felt helpless. They didn't know where to turn.

A neighbor told them about a group of parents of retarded children who had organized to try to solve their mutual problems. This group calls itself the St. Louis Association for Retarded Children, a United Fund agency.

When the parents attended a meeting of the association, they learned they were not alone. Approximately 2,000,000 children in the country are retarded. Most important, they learned that these children can be helped.

Now Kevin, after help from the association's nursery school, is attending a special grade school. The child and the parents can now face the future with confidence, thanks to the help of a United Fund agency. The fund is now conducting its annual campaign for contributions.

**Paradise Lost.**  
KNOXVILLE, Tenn. (AP)—While Knoxville appliance dealer G. E. Cathey took his wife to Jamaica in the West Indies for a week's free vacation he won for all-conditioning sales, his home burned down.

## KILLER OF STATE TROOPER FATALLY SHOT BY CAPTIVE

NEPTUNE TOWNSHIP, N.J., Nov. 2 (AP)—A man shot and killed a state trooper, and then was killed by a motel owner he had held captive for almost an hour.

The man, identified as Sammy Alvarez of Brooklyn, N.Y., entered the Fernwood Motel early today as state police searched for him.

Alvarez had fatally wounded state trooper John Anderson late last night when the latter

stopped him for a check on the Garden State Parkway in the vicinity of Red Bank.

At the motel the man, who police said may have originally been fleeing from a service station holdup in Keyport, shoved the owner, Edward Whritenour,

into a closet and attempted to assault Mrs. Whritenour. Whritenour found his hunting rifle in the closet. He pushed open the door and shot Alvarez in the head.

## TURKEY TELLS OF RED BUILDUP NEAR BORDERS

**Bayar Sees No Evidence  
Communists Have Re-  
nounced Aggressive  
Intentions.**

ANKARA, Nov. 2 (AP)—Turkey's President Celal Bayar said yesterday that despite the high level Big Four meeting, Turkey can see no evidence that the Soviet-led Communist world has renounced aggressive intentions.

On the contrary, Bayar said in his annual state of the nation address to Parliament, "according to information reaching us these (Communist) states are increasing their armaments daily. We observe near our borders certain manifestations and activities that are far from reassuring."

Bayar did not specify what borders he referred to. However, Turkey has a common border with Red Bulgaria in Thrace and a frontier with Russia in the east.

**Parliament Opens.**  
The President delivered his address at the opening session of Turkey's one-house Parliament. It was attended by most diplomats accredited to Turkey, including those from the Iron Curtain countries. Parliament adjourned for 10 days after Bayar finished his speech.

The 71-year-old President devoted most of his talk to Turkey's activities in the foreign field. He stressed particularly

the successful conclusion of the Baghdad pact welding Turkey, Iraq, Iran and Pakistan into a defensive alliance along Russia's southern boundary.

"The only aim of this pact," he assured the 540 deputies, "is to deter potential aggression." He added, "with gratitude," that the pact enjoyed the "continuous assistance and encouragement of our great friend and ally the United States."

**Anti-Greek Riots.**  
At the outset, Bayar dwelt at length with the violent anti-Greek riots at Istanbul and Izmir Sept. 6 on that date, demonstrations supporting Turkey's position on the Cyprus question turned into uncontrolled riots. Mobs caused vast damage to Greek orthodox churches and to stores owned by Greek, Jewish and Armenian minorities.

"There can be no doubt," Bayar said, "that for our country... the ugly incidents were the most important event of the year."

He attributed the incidents to "elements alien to the Turkish nation and to her enemies."

**BOARD OK'S \$10,000 FUND  
HIKE, 3 AUTOS FOR DOWD**

An increase of \$10,000 in Circuit Attorney Edward L. Dowd's contingent fund and purchase of three radio-equipped automobiles for investigators on Dowd's staff were approved yesterday by the Board of Estimate and Apportionment.

The funds and automobiles are necessary to continue the inquiry into alleged police pay-offs, Dowd said.

Dowd sought an appropriation which would have made the funds available until used, but the board held that the appropriation should be made for the remainder of the current fiscal year. Under this arrangement, unused portions of the money will revert to general revenue next April and a new appropriation must be sought if the investigation continues beyond that time.

ernment Charges of Ad-  
vertising Conspiracy.**

NEW YORK, Nov. 2 (AP)—The American Newspaper Publishers Association yesterday denied Government charges that it conspired to allocate newspaper advertising to a selected group of advertising agencies in violation of anti-trust laws. The A.N.P.A. asked United States District Judge William B. Herlands to dismiss the case.

Five other defendants were named with the A.N.P.A. last May. They are the American Association of Advertising Agencies, the Publishers Association of New York City, the Periodical Publishers Association, Associated Business Papers and the Agricultural Publishers Association.

The Publishers Association

of New York City also filed an answer to the government suit denying the allegations. The other four defendants asked for and obtained a 90-day extension in which to make their replies. The A.N.P.A. denied that it or anyone authorized to act for it is engaged in a conspiracy in restraint of trade, or that it intended to do so by any of its actions.

The A.N.P.A. said it has a right to gather and disseminate to its members credit information on anyone placing ads in daily newspapers.

The Government had charged that this activity was designed to restrict the placing of ads to a selected group of advertising agencies.

The A.N.P.A. denied this, saying the information it gathers and distributes to members "is normally and reasonably ancillary to the lawful and main purpose of its credit information and credit rating service."

This information is confidential, the A.N.P.A. said, and is for use by its members "in the exercise of their individual business discretion."

The association said it has no rules or by-laws regulating the dealings of its members with advertisers and advertising agencies. It added that publishers alone have the right to

accept or reject what appears in their papers.

The A.N.P.A. said that over the years it has "consistently sought to assist advertising agencies rather than to restrain them."

It said more than 1000 agencies now have credit ratings fixed by the A.N.P.A., with capital ranging from as little as \$5000 to more than \$1,000,000.

The list is not a "frozen" one, as charged by the Government, but a fluid one that changes from time to time, the brief said.

**Security Council Dinners Out?**

UNITED NATIONS, N.Y., Nov. 2 (AP)—Monthly Security Council dinners may be on the way out. French Delegate Herve Alphand, the council president for October, broke a series of such dinners that began in 1946 by failing to arrange one last month. Delegates complain they are too costly and are getting boring.

## AUTO GOES OUT OF CONTROL, AIRMAN ON LEAVE KILLED

Airman 3C John Plummer of Batchtown, Ill., was killed early today when the automobile he was driving went out of control on Illinois Highway 100 about 14 miles west of Jerseyville, police reported.

Plummer, 19 years old, had been stationed at Scott Air Force Base, where he was assigned to the 333rd Student Squadron. He was on leave, preparatory to going overseas, a Scott Base spokesman said. He was the son of Mr. and Mrs. Harry Plummer of Batchtown.

## TEACHERS DISCUSS CROWDED ROOMS BELLEVILLE BOY DIES; TRUCK HIT BICYCLE

Convention Opens—Public Schools Closed Tomorrow, Friday.

Friend Who Was Riding With Victim Is Seriously Injured.

Classrooms in Missouri public schools are seriously overcrowded and large numbers of teachers are continuing to leave for better jobs elsewhere, delegates at the opening session of the ninety-third annual convention of the Missouri State Teachers Association were told here today.

Public schools in St. Louis, St. Louis county and throughout the state will be closed tomorrow and Friday so that teachers will be free to attend general sessions of the convention, which will be held at Kiel Auditorium. At least 10,000 are expected to attend.

About 900 delegates took part in a business session today at Hotel Jefferson, to elect new officers and act on resolutions and committee reports.

A report by the policy and plans committee said that overcrowding has resulted in "an impaired educational opportunity for boys and girls and difficult working conditions for teachers."

Another committee report said that of 3100 teachers who left Missouri schools last year, 47 per cent of the men and 29 per cent of the women took teaching jobs in other states. The median gain in salary in these states was \$682 for the women and \$725 for the men.

The policy committee report said an additional 27 per cent of the men teachers took other kinds of jobs, in which their median income gain was \$1206.

Teacher Training Criticized. Delegates also heard a report criticizing teacher training in the state. The report said less than half the number of teachers required in Missouri were trained in teaching schools in the state this year.

Many of these either do not teach or take teaching positions in other states, the report added.

Lynn Twitty, superintendent of schools at Sikeston, was elected first vice president of the association. He succeeds Miss Reuby S. Moore, elementary school principal of St. Joseph, who will be installed Friday as president.

Other officers elected were Mrs. Nadine McVay, Butler, second vice president, and Miss Frances Moore, Columbia, third vice president.

Dillard Mallory, Buffalo, was elected to a one-year unexpired term on the executive committee. Re-elected to the committee, for three-year terms, were Carl Henderson, Moberly; Joe Herndon, Raytown, and John E. Evans, Kansas City.

Gen. Carlos P. Romulo, Philippine Ambassador to the United States, will address the convention's first general session tomorrow.

A three-day conference of Lutheran school teachers of the Western District, Missouri Synod, opened today at Lutheran High School. About 450 teachers were expected to attend.

### STEEL HOUSE IN CONCRETE CALLED HURRICANE-PROOF

SOUTH ORANGE, N.J. (INS)—A hurricane-proof house—also fireproof, waterproof and termite proof—is being erected for steelman Lawrence Schacht on a hilltop in South Orange, N.J. How did it happen? Schacht says it just came naturally.

A structural steel fabricator himself, when he decided to build a house for the family, he did it in the only way he knew how—of steel-frame construction like a skyscraper, only shaped differently.

Outwardly, it resembles any ranch-type home of stone and redwood; but because of its structural steel skeleton set in a solid concrete foundation and its industrial-type roofing, building experts acclaim it as the safest house in the world.

The pay-off: Schacht has it insured as a brick-and-wood dwelling, because as yet no insurance rating exists in New Jersey to cover a steel-frame house that is hurricane-proof, fireproof, waterproof and termite-proof.

### SALMON OPENED, GOLF BALL FOUND INSIDE STOMACH

SAN FRANCISCO (INS)—A tip to manufacturers of fish lures: make one resembling a golf ball.

Jerry Vest, San Francisco sportsman, reported finding a golf ball in the stomach of a salmon caught near the lightship, about 11 miles offshore. It is likely that many fish swimming in the Redwood Empire waters of northern California may be carrying similar digestive impediments. This is why.

Hundreds of golf balls are deliberately driven into the entrance of San Francisco bay by golfers playing the Lincoln course. The 16th hole tee is on a bluff overlooking the ocean which is a target even the novices can hit with great consistency to make a satisfying splash.

## CITY, 4 COUNTIES SIGN DEFENSE PACT

Agreement Calls for Co-operation and Mutual Aid in Enemy Attack.

A civil defense mutual aid agreement has been signed by civil defense officials of St. Louis, St. Louis county and the three adjoining Illinois counties of Madison, St. Clair and Monroe, it was announced today.

The agreement calls for co-operation and co-ordination of all civil defense plans throughout the area and require the signatories to furnish assistance to each other in the event

of a properly proclaimed civil defense emergency caused by enemy action subject to availability of help in the judgment of the party furnishing the assistance.

While the agreement is not binding on the political subdivisions within the area because of lack of enabling legislation in Missouri and Illinois, it was expected the agreement would improve understanding and enhance the co-ordination of planning and action in the event of an enemy-caused emergency.

### Tragic Sequence.

COVINGTON, Ky. (UP)—Mr. and Mrs. Ronald Percival of Ennis, Tex., came here for the funeral of a cousin. They stayed on when Mrs. Percival's mother died during the visit. On the return trip, Mrs. Percival died within 80 miles of Ennis.

## MAN HELD IN KILLING OF 3 BOYS CLEARED

Passes Lie Detector Test—Second Expected to Be Exonerated.

CHICAGO, Nov. 2 (AP)—A lie detector test today cleared one man seized in Wisconsin of any connection with the strangling of three boys and indicated his companion was not linked to the killings.

Charles Driscoll, 19 years old, was exonerated in his second examination under the machine. He and his companion, Ed Kline, 30, who were arrested Monday night at Ladysmith, Wis., volunteered for tests.

Officers called off at least for today a lie detector examination for Kline because, they reported, he is "too nervous." They said, however, that Driscoll had been asked under the machine whether he knew of any connection between Kline and the killings. The machine, detectives said, showed Driscoll was telling the truth when he said he did not.

Their arrest was ordered after Driscoll's mother told police they had been together from 5 p.m. until sometime after 11:30 p.m. on Oct. 16, the night the three boys were killed.

The bodies of Robert Peterson, 14, John Schuessler, 13, and his 11-year-old brother, Anton, were found Oct. 18.

Driscoll underwent a 45-minute lie detector test immediately upon his return to Chicago, but police said the results were "inconclusive."

Frank Ferlic, assistant state's attorney, said both men denied any participation in the killings. "There were matters which Kline talked about which appear inconsistent. Matters concerning his mental background that must be checked to determine the reliability of his statements," Ferlic said. Chief of Police Orville Woods of Ladysmith, said Kline ad-

mitted seeing the schoolboys the night of their disappearance and described in "minute detail" what they were wearing. Woods said the admission came under questioning by a Chicago detective at Ladysmith.

Kline later denied making any such admission, police said. Meanwhile, police crime laboratory experts examined a length of clothesline rope, a handkerchief and a piece of rug mat found in the car used by Driscoll and Kline.

Chief Woods said both the handkerchief and mat appeared to be bloodstained.

### HALF-AND-HALF ISLAND

PAPEETE, Tahiti (AP)—This South Sea island for the past few months has presented the spectacle of an island that is half garden, half desert.

Rain-laden winds have been blowing only from the south. The southern half of the island has been practically flooded. High central mountains have cut off the northern half, where vegetation is withered thus making a sandy waste.

# LATE IMPROVEMENTS IN STOCK MARKET

## Third Day of Quietly Selective Markets With Few Highlights

NEW YORK, Nov. 2 (AP)—The stock market closed quietly today with a bit of improvement in late dealings after a day of irregular price movements.

The market started higher and then turned down around mid-session. In the late afternoon, however, improvement was apparent.

Prices ranged around 2 points in the direction with a number of leaders up to 2 points.

Associated Press average of 60 stocks was .1 of a point higher at 168.8 at the close. The industrial component was 1 lower, while rail was 3 higher and utility 1.

Dow-Jones average of 30 industrial stocks was .13 of a point higher at 454.92 at the close. Ex-dividends reduced the average 1.32. The 20 rail index was up to 149.98 and the 15 utilities 63.88 off 1.51.

Trade was in 1100 issues, 40 less than yesterday, 40 less than 49 issues higher, 368 lower and 426 unchanged at the close. New 1955 highs were by 21 and new lows by 29.

Trading was mild at an aggregate of 1,510,000 shares. That compares with 1,590,000 shares traded yesterday when the market on average held unchanged.

This is the third day of quiet selective trading, and there were no big swings in any direction among major divisions.

Some of the better gainers included Chrysler, Anaconda, C. Montgomery Ward, International Nickel, American Cyanamid, Westinghouse Electric and Filtrite.

Lossing ground were United Aircraft, Consolidated Natural Gas, Fabco, Southern Railway, United Air Lines, and Distillers Corp.

Phelps Dodge was strong on a quarterly dividend of 75 cents as against 65 cents previously compared with a 40-cent extra a year ago.

Filtrite was ahead after directors declared an increased quarterly dividend and a 5 per cent stock dividend.

General Foods, up 2 1/4 yesterday, held steady today after directors declared a dividend of 85 cents as compared with 75 cents in previous quarters.

A block of 2700 shares of Sears Roebuck traded at 103 off 1 1/4. It recovered some of its extreme loss within a short time.

The market currently is moderately above the lows reached in the great fall that came with news of the President's illness late in September. Brokers feel the market right now is in a test of those previous lows, and quiet selective trading is regarded as a phase of that test.

The American Stock Exchange was higher for the most part on light trading.

London stocks were higher today, the Financial Times index gaining 1.9 points at 193.2.

454.79	149.98	63.88	144.39

## LEADERS IN SESSIONS TRADE

Am Radiator	Gen Electric	Nat Container	Sid Oil Ind.
45.00	45.00	45.00	45.00
45.00	45.00	45.00	45.00

Day's Sales, 1,590,000. Prev. Session, 1,800,000. Year Ago, 533,826. Year to Date, 434,777,329.

NEW YORK, Nov. 2 (AP)—The stock market closed quietly today with a bit of improvement in late dealings after a day of irregular price movements.

The market started higher and then turned down around mid-session. In the late afternoon, however, improvement was apparent.

Prices ranged around 2 points in the direction with a number of leaders up to 2 points.

Associated Press average of 60 stocks was .1 of a point higher at 168.8 at the close. The industrial component was 1 lower, while rail was 3 higher and utility 1.

Dow-Jones average of 30 industrial stocks was .13 of a point higher at 454.92 at the close. Ex-dividends reduced the average 1.32. The 20 rail index was up to 149.98 and the 15 utilities 63.88 off 1.51.

Trade was in 1100 issues, 40 less than yesterday, 40 less than 49 issues higher, 368 lower and 426 unchanged at the close. New 1955 highs were by 21 and new lows by 29.

Trading was mild at an aggregate of 1,510,000 shares. That compares with 1,590,000 shares traded yesterday when the market on average held unchanged.

This is the third day of quiet selective trading, and there were no big swings in any direction among major divisions.

Some of the better gainers included Chrysler, Anaconda, C. Montgomery Ward, International Nickel, American Cyanamid, Westinghouse Electric and Filtrite.

Lossing ground were United Aircraft, Consolidated Natural Gas, Fabco, Southern Railway, United Air Lines, and Distillers Corp.

Phelps Dodge was strong on a quarterly dividend of 75 cents as against 65 cents previously compared with a 40-cent extra a year ago.

Filtrite was ahead after directors declared an increased quarterly dividend and a 5 per cent stock dividend.

General Foods, up 2 1/4 yesterday, held steady today after directors declared a dividend of 85 cents as compared with 75 cents in previous quarters.

A block of 2700 shares of Sears Roebuck traded at 103 off 1 1/4. It recovered some of its extreme loss within a short time.

The market currently is moderately above the lows reached in the great fall that came with news of the President's illness late in September. Brokers feel the market right now is in a test of those previous lows, and quiet selective trading is regarded as a phase of that test.

The American Stock Exchange was higher for the most part on light trading.

London stocks were higher today, the Financial Times index gaining 1.9 points at 193.2.

# Day's Review Of Business And Finance

NEW YORK, Nov. 2 (AP)—

Nation's electric power production edged higher last week, reaching a level 16.5 per cent ahead of the like week of 1954.

Edison Electric Institute reported output of 10,650,000 kilowatt-hours, compared with 10,644,000,000 in the week before and 9,152,000,000 in the comparable week a year ago.

All sections of the country showed output gains over a year ago.

Standard Oil Co. (Indiana) and its subsidiaries reported net earnings of \$102,783,318 in the first nine months of 1955, a 26.2 per cent increase over a year ago.

This amount to \$3.16 per share, compared with \$2.62 per share in 1954.

Kennecott Copper Corp., world's biggest copper producing company, earned \$81,983,463 in the first nine months this year, equal to \$7.58 a share, compared with \$57,973,802 or \$5.36 a share in like 1954 period.

Strikes and flood damage cut into Kennecott's earnings during the third quarter. C. I. Con. president, said Profits for the third quarter were equal to \$1.53 a share, against \$1.47 in the like period last year.

Eagle Picher Co. declared a quarterly dividend of 45 cents, putting the stock on an annual basis of \$1.80 a share, compared with 37 1/2 cents compared to \$1.50 annually in previous quarters.

Directors also declared an extra dividend of 22 1/2 cents, bringing payments for this year to \$1.80 compared with \$1.50 paid in 1954. Both dividends are payable Dec. 9 to record Nov. 18.

State Bank and Trust Co. of Weston stockholders will be asked Jan. 17 to authorize a stock dividend of 30 per cent amounting to 2000 shares and the sale of an additional 2000 shares at \$70 a share to holders of record Jan. 3. After approval of these actions capital will be \$600,000 compared to \$500,000 at present.

Phelps Dodge Corp. declared a dividend for the fourth quarter of 75 cents and a year-end extra of \$1.20, bringing dividends declared for the year to \$4 against \$3 in 1954 when an extra of 40 cents was ordered. The regular dividend is payable Dec. 9 to record Nov. 18 and the extra, Jan. 6 to record Dec. 16.

United Aircraft Corp. reported earnings of \$7,430,211 for the quarter which ended Sept. 30 compared with \$5,538,300 for the like period in 1954.

For the first nine months, earnings were \$22,732,949 compared with \$18,804,884 a year ago.

Earnings per share of common stock for the third quarter were \$1.47 compared with \$1.61 a year ago, but on the basis of the split stock now outstanding, a company spokesman said, the third quarter earnings for 1954 would be about \$1.07 a share.

Commonwealth Edison Co. voted to offer stockholders the right to purchase 1,110,307 additional shares of Edison common stock at \$37.50 a share in the ratio of one new share for each 15 shares of common stock owned as of Oct. 1, 1955.

The plan, which would be applied toward the utility's construction program.

Mallinckrodt Chemical Works reported unaudited third quarter net income of \$132,000, equivalent to 37 cents a share on 375,000 shares.

Nine months net was equal to 46 cents a share.

## COMMODITY PRICES

NEW YORK, Nov. 2 (AP)—Associated Press weighted wholesale price index of 100 (1926=100):

METAL GOODS A FAVORITE OF PROSPERITY

By Sam Dawson

NEW YORK, Nov. 2 (AP).—

ANOTHER rise in metal prices is threatening today to plague the manufacturers of many of the goods you want to buy. The price of copper has jumped in London again, and users here are wondering what's in store. Producers of nickel have raised the price charged their Canadian customers. Platinum has gone up \$6 an ounce—an item of interest not only to jewelry makers but also to the oil industry which uses the metal in some of its refining processes. A maker of magnesium rods, bars and tubes has hiked his price an average 5 per cent. A few special steel products have risen. Prosperity is labeled the cause of much of the inflation in the metal markets of recent weeks and months. General prosperity around the world has swelled the demand for goods made of metal—for cars, refrigerators, TV sets and the multitude of things that men want in order to raise their standards of living. The visible prosperity has encouraged labor to ask for higher wages. With demand for metals rising and the costs of mining and processing it also rising, the two forces have united to boost the price of most metals high above their levels of recent years.

THE LATEST FERMENT IN THE COPPER MARKET started in Chile where the miners went on a 24-hour strike against the American-owned mines. So tight is the world copper supply that the loss of one day's production is felt and the uncertainty over the length of the strike and the ultimate terms of settlement upset the market. This immediately sent the price of copper up 2 cents to 46 3/4 cents a pound on the London Metal Exchange. The first effect in New York was to send the price for future delivery up sharply on the Commodity Exchange. Copper has been in short supply here for some time, and any interruption in deliveries from Chile would be quickly felt. American mines are charging 43 cents a pound for the metal. Custom smelters which refine copper from scrap have been getting 45 cents and in some cases 45 1/2 cents.

A YEAR AGO THE STANDARD PRICE for copper was 30 cents and the postwar low was 16 cents for a time in 1949. The big advance in price in recent months has spurred many of the big users of copper to look for cheaper substitutes. Aluminum has been the chief gainer. Many products that once used copper extensively are now being made of aluminum. This has spurred producers of aluminum to plan another round of expansion to be in position to go after still more of the market. Aluminum, too, has risen in price since the war, but much more modestly and now sells at 24.40 cents a pound.

COPPER PRODUCERS AREN'T UNAWARE OF THE DANGER of pricing themselves out of the market. Some of the large American producers have said they were reluctant to raise prices in the past. But the big premium which copper has commanded in European markets in recent months has attracted world supplies there and made the American supplies even tighter. Producers say that to get Chile to send more copper to the United States the price has had to be raised. Whatever the reasons, the prices of a number of metals have risen enough this year to put a definite squeeze on the sales margins of many manufacturers. This, together with their own rising labor costs, has caused many of them to raise their factory list prices. These price hikes have been delayed in most cases and are just being announced this fall. The ball is now being tossed to the retailers who will have to guess: First, how their customers will react to higher prices; and second, what their competitors down the street will do.

## GREEK RIOTERS BREAK WINDOWS OF U.S. BUILDING

ATHENS, Nov. 2 (AP).—The United States Information Agency center at Patras, 100 miles west of Athens, was attacked and damaged slightly in rioting yesterday in which 80 civilians and 40 policemen were injured.

The demonstrators called for an end to British rule over the island of Cyprus. The Greek-descended majority on the island have been violently demanding the right of self-determination, leading to eventual union with Greece.

The riots, described as Greece's most serious outbreak so far over the Cyprus issue, raged for five hours before they were quelled by reinforced police and armored car crews.

Police finally opened fire on the mob with pistols and rifles. Damage at the U.S.A. building consisted of broken windows.

Demonstrations also were reported in other Greek towns, including Mytilene, capital of the Aegean island of the same name; Tripolis, capital of Arcadia in the Peloponnese; and on the island of Crete.

## PSYCHOLOGIST BELIEVES AMERICANS ARE FRIGHTENED

LOS ANGELES (INS).—A Chicago psychologist, worried about the upbringing of future generations, believes that Americans are a "generation of frightened people."

Dr. Rudolf Dreikurs, a professor at the Chicago Medical School, said in Los Angeles: "As we emerge from a fear-ridden autocratic society, we are still too fearful to respond to the freedom and demands of a democratic society."

Drive it at your Plymouth dealer's—the car that's going places with the Young in Heart!

**FABULOUS AERODYNAMIC STYLING!**

The look that goes with Push-Button Driving and 90-90 Turbo-Torque Power in the new Plymouth '56

Here is a car more truly representative of our jet air age than any you have ever seen... in startling, sweeping new Aerodynamic Styling... in bold new concepts like Push-Button Driving. There's 90-90 Turbo-Torque Power and the great new Hy-Fire V-8 or new PowerFlow 6 to give you Top Thrust at Take-Off. And Plymouth is larger and longer outside... roomier inside... with sparkling new "miracle" fabrics and decorator-tuned color harmonies. It's all breath-takingly ahead of its time—at your Plymouth dealer's today—to see and drive!

**PUSH-BUTTON DRIVING**

With a finger-tip touch on a button you select your driving range. As easy as flicking a light switch! Then Plymouth's fully automatic PowerFlite—the world's smoothest, most advanced transmission—takes over. It's the ultimate in driving convenience and another Plymouth first in the low-price three.

All-new Aerodynamic **PLYMOUTH '56**

300 V-8 hp available with PowerPak in all 4 lines—Belvedere, Savoy, Plaza and Suburban. Or choose 187 hp in Belvedere and Suburban lines. In Savoy and Plaza lines you get 180 V-8 hp. If you prefer the super-economy of Plymouth's PowerFlow 6—also available in all 4 lines—you get 125 hp, or 131 hp with PowerPak.

Now... **Four Roses** (*America's finest blended whiskey*)

introduces a companion... **Four Roses BOURBON**

Today—as in the past—Four Roses Blended Whiskey stands out as the whiskey we firmly believe to be the finest in America.

Millions share this belief...and have proved it by buying more Four Roses than any other whiskey at or above its price.

Now—just for those who drink bourbon—the makers of Four Roses are introducing Four Roses Bourbon—a whiskey which we know to be head and shoulders above any other bourbon in America:

For it is more than just a single fine whiskey. It is a skillful blending of several straight bourbon whiskeys—each contributing its own particular virtue...aroma, body, smoothness, mellowness. In no other way is it possible to achieve a bourbon of the finest flavor and quality—a bourbon that is truly uniform from bottle to bottle, from year to year.

If you are a bourbon drinker, be sure to try this magnificent bourbon today.

**Santa's here  
tomorrow! See  
the wonders of  
SBF's Christmas  
Toyworld**

Yes, Santa is all excited over his wonderful collection of toys! He came from the North Pole early so that you could have more time to enjoy thinking about what you'd like for Christmas! How surprised he was, when he found out that many of you don't have to go to school tomorrow ... he just *knew* then that coming early to SBF was the best idea he'd had all year, and he's staying here every day 'til Christmas! You'll thrill when you see his trains, dolls, big toys, little toys, mechanical toys... toys from all over the world! And if you can't get to see him in our big Fifth Floor Toyworld, Downtown, he says you can meet him in our beautiful new Westroads suburban store, on the Fourth Floor.

Both stores open Thursday night! Shop Downtown 9:30 a.m. to 8:30 p.m.;  
Westroads 9:30 a.m. to 9:30 p.m.

### WALLS MADE OF CANE FIBER COME IN VARIOUS COLORS

CHICAGO (INS)—If you are remodeling a room in the house you can build walls or ceilings without having to paint them later.

A cane fiber material for interior walls and ceilings comes in a variety of colors now—white, blue-green, willow-green and rose.

This material also has insulating properties and comes in sculptured, linen or ripple textures, reports a spokesman for the Celotex Corp. of Chicago.

### WOMAN HURT WHEN AUTO STRIKES POLE ON TRAILER

Mrs. Walter P. Haller, 3730 Dixie drive, St. Louis county, suffered serious head injuries today when the automobile she was driving ran into a telegraph pole being transported on a trailer at Sarah street and Page boulevard. Part of the 90-foot pole protruded from the trailer, police said.

Arthur Klayser of Centerville Station, driver for Eldridge Drayage Co., East St. Louis, said he was going west on Page and stopped for an electric signal at Sarah when the accident occurred.

Police said the pole went through the windshield and extended more than four feet out of the rear of Mrs. Haller's machine. She is the wife of a lieutenant in the Ladue Police Department. Mrs. Haller was taken to Homer G. Phillips Hospital.

## 'FLOOD POLITICS' CHARGE RAISED IN SENATE HEARING

**G.O.P. Senator Urges Committee to Wait for Administration Insurance Plan.**

WASHINGTON, Nov. 2 (AP)—Senator Prescott Bush (Rep., Conn.), suggested yesterday that Congress forget about "flood politics" and give the Administration a little more time to develop a flood and disaster insurance program.

He spoke out at a hearing called by the Senate Banking Committee to explore the possibilities of giving citizens better financial protection against disasters as floods.

Bush's statement was directed in part at the acting chairman of the committee, Senator Herbert Lehman (Dem., N.Y.), who criticized the Eisenhower Administration Monday for not having an insurance plan ready for the hearings.

Lehman, replying to Bush, said: "I feel that I'm justified in bringing every possible pressure to bear on the Administration—as promised by President Eisenhower—to develop its recommendations, and I shall continue to do so."

**Not Yet Ready.**  
Lehman said Mr. Eisenhower promised last month that some recommendations would be ready for the committee at this time. But Administration officials testified at Monday's hearing that they were not yet prepared to present a program to Congress.

Bush recalled that the question of flood control insurance was raised in Congress four years ago. Saying that less than three months have passed since flood waters ravaged Eastern states and increased the urgency of the problem, Bush added: "I think it is somewhat unfair to criticize the present Administration for not preparing in less than three months a detailed flood insurance program when the Congress itself—and this committee—has failed to do so with four years to consider the problem."

**Experimental Program.**  
The Administration's idea of an experimental program to run for a limited length of time was supported in testimony yesterday by Senator Frederick G. Payne (Rep., Maine). He proposed that any federal program draw heavily on the facilities of private insurance companies.

Wendell B. Barnes, head of the Small Business Administration, testified that his agency found after the recent floods that the demand for business loans in the flooded territory far exceeded the demand for residential loans.

He said that after the August floods caused by hurricane Diana "94 per cent of the total amount of applications filed for disaster loans was for business loans."

Barnes reported SBA has approved 1300 loans totaling more than \$16,500,000 to help repair flood damage, and that 450 loan applications totaling more than \$16,500,000 are under study.

### \$2245 IN OFFICE EQUIPMENT STOLEN FROM TWO FIRMS

Office equipment valued at \$2245 was stolen last night from two business concerns in the same area. Police believed the same burglars may have committed both crimes.

Otto Eichhorn, secretary of Thompson Biscuit Co., 2728 South Second street, said a bookkeeping machine, two adding machines and two typewriters were missing this morning. He estimated the loss at \$1195. Entry was made through a side window.

From the St. Louis Paint Manufacturing Co., at nearby 301 Barry street, thieves broke a window and took two electric adding machines and a typewriter valued at \$1050. The burglary was reported by Carl Bler, manager of the paint concern.

### TO APPEAL AGAINST JURY VIEWING SCHWIMMER DATA

An attempt to keep from the federal grand jury case records belonging to Harry I. Schwimmer, Kansas City attorney, was made today when a notice of an appeal was presented to the Court of Appeals by Morris A. Shenker, attorney for Schwimmer.

The appeal will seek to set aside two court orders entered by United States District Judge George H. Moore. Under the orders, records of Schwimmer's dealings with Shu-Stiles, Inc., Irving Sachs, president of the firm, and Mrs. Laura Taylor, an officer of the company, were subpoenaed and turned over to a representative of the court for sorting.

David L. Sheffrey, Kansas City attorney who has in the past represented Sachs and Shu-Stiles, was heard by the jury today. Also scheduled to appear was Fred M. Seltzer, former counsel in Kansas City for the old Bureau of Internal Revenue. Schwimmer, a former St. Louis attorney, is expected to testify next week. The jury is investigating reports of tax case "fixing."

**For Nuclear Bill Change.**  
MEXICO CITY, Nov. 2 (AP)—Leftist groups have asked Congress to amend a bill, submitted recently by President Adolfo Ruiz Cortines, proposing creation of a nuclear energy commission. They charge the bill leaves the way open for foreign acquisition of Mexico's uranium and other fissionable resources.

### EXPANSION OF WEST END ASSOCIATION INDICATED

About 20 additional block groups have expressed interest in participating in the work of the Central West End Neighborhood Improvement Association, J. B. McDonald, chairman, reported last night.

The association was organized last spring to prevent spread of blight in the area bounded by Union boulevard, Washington boulevard, Whittier street and Forest Park avenue.

The association agreed to set up a permanent office with a paid director and secretary sometime in the future. The group reviewed past accomplishments, which included increased light wattage in the area, trimming and pruning of trees, added police protective measures and individual housing improvements.

## Mother Relieve Your Child's Cold's Misery

**Where are you going to see the Truly New '56 CHEVROLET?**

**WHERE?—At the 16 Factory-Authorized Chevrolet Dealers of Greater St. Louis.**

**WHEN?—This Friday and Saturday, from 8 a.m. to 9 p.m.**

**Which comes first, giving or getting?**

"What's in it for me?"

"That's the question you'll have to answer," says the advertising man, "if you want to get people interested in the United Church Canvass a week from next Sunday."

"Show them how their Church helps them solve a problem—or gives them something they want. That's the way to any man's pocketbook."

"Sounds sensible," says a canvass committee member.

**"The Church helps us solve our most basic problems—and offers rewards every man hungers for."**

"Take our community problems," he continues.

"Strong churches are the best answer we have to juvenile delinquency—or to the threat of Communism. They create the kind of moral climate in which all of us want to raise our families."

"As for me, an individual, my church helps me find an inner peace and security that has carried me through the roughest problems I've faced yet."

"That's all very true," says another canvass committee member.

**"But if you give in order to get, you're going to be disappointed."**

"This may seem like hair-splitting, but to me it's the secret of Christian giving," he continues.

"I give because I believe that God is the source of all that I have."

"My pledge to my Church is a thank offering for what God has already given me—not a bribe for what I hope He will give me. It is a token payment on a debt I can never really repay. It is the most pressing claim I face—and it takes priority in the family budget even over food, clothing or payment on our mortgage."

"That helps me place God first in all departments of my life, in all the decisions I have to make. And that gives me a central purpose to which I can relate all the conflicting demands that press on all of us every day of our lives."

**"We'll miss the whole point of Christian giving if we appeal to selfish motives."**

"The true rewards of Christian living can only be achieved if we learn first to give with no hope of reward—but in thanks for the blessings God has already given us."

★ ★ ★

This, we hope, is the message many St. Louis church-goers will hear a week from next Sunday, November 13.

On that day, many of the Protestant churches of Greater St. Louis will join in a United Church Canvass, each seeking support for its own program. Their primary concern, however, will not be the gift—but the giver. For your sake, fully as much as for the sake of your Church, may you hear—and respond—to their appeal!

## IN-SCHOOL PROGRAMS ON TV START MONDAY

First Semester KETC  
Courses to Be on Air  
Hour and Half a Day.

First semester programs for in-school use on educational television station KETC will begin Monday, consisting of four courses filmed last year, Clair R. Tettemer, director of school programs, announced today.

Tettemer, who assumed his post in early October, said it was decided to repeat programs filmed last year so that his four-man staff can devote its time to planning new courses for second semester use. This will include three experimental courses made possible by a special \$95,110 fund for the Advancement of Education grant made last spring.

The first semester programs will be on the air one and one-half hours each day, he said. Each kinescoped lesson will be televised five times in a given week, so that teachers in different schools will be better able to integrate the televised instruction with their routine, he said. The courses will last 14 weeks, finishing in February.

Last spring the station was providing approximately 15 hours of in-school programs weekly, repeating programs in a similar fashion, Tettemer said. He hopes to reach the 15-hour goal for weekly programming in the second semester of this school year.

**"Learn to Spell" Is New.**  
"Learn to Spell," a 20-minute program for children in the third through sixth grades, will be the only program of the four that has not been televised here previously. Miss Kay Ware, a general consultant on spelling in the St. Louis public schools, is the instructor. Martin Schneider produced it last spring.

Three programs repeated from last year are "Science in Sight," for sixth-grade students, and two high school history programs, "Before There Was a

U.S.A." and "Roots of Our Republic."

Tom Weir, executive producer at KETC for the three experimental programs, said they will involve 900 students at Beaumont and Roosevelt high schools and Jackson, Clinton-Peabody and Pruitt elementary schools. A total of 80 minutes of direct instruction will be provided daily.

The purpose of the experiment is to determine if a single teacher presenting instruction on television can be as effective

as a large number of classroom teachers, Weir said.

The teacher presenting the television program will be responsible for providing direct instruction to the student viewers, Weir explained. In other television lessons presented for in-school use previously, the programs have supplemented—not replaced—classroom presentation of material, he pointed out.

English, Science Courses.  
An English composition course and a general science

course will each be presented one period daily to groups of 150 ninth-grade students at Beaumont and Roosevelt, Weir said. A single teacher will supervise each group.

The supervisory teacher will have regular classes during other periods of the school day. A full-time clerk will assist the supervisory teacher with paper work. In this way, a high school teacher can reach at least an additional 100 pupils each day in one subject, Weir declared.

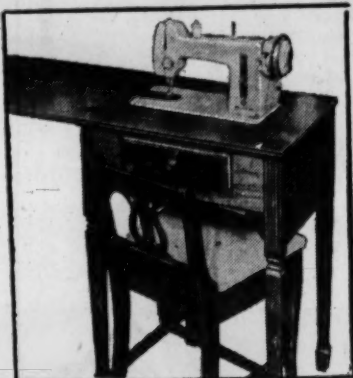

The supervisory teacher will give examinations.

In the three grade schools a similar routine will be followed with 300 pupils in a second-grade spelling instruction. Television students will have

**Say NIX to perspiration**

# UNANIMOUS U.N. VOTE SOUGHT ON RADIATION STUDY

**Russian, However, Pushes Kremlin Line on Disarmament, Red China.**

UNITED NATIONS, N.Y., Nov. 2 (UP)—The United Nations aimed today for a unanimous vote on a Western proposal to establish an 11-nation group to survey human hazards of atomic radiation.

Russia announced support for the broad outline of the proposal sponsored by the United States, Britain, Australia and Canada, opening the way for the second unanimous ballot of the current General Assembly session when the main political committee votes, probably tomorrow.

But Soviet Deputy Foreign Minister V. V. Kuznetsov, declaring his delegation "supports the creation of such a committee," pushed the Kremlin's current line of interjecting disarmament, prohibition of nuclear weapons and recognition of Red China's rights into the picture.

He had followed a similar line when the 60-nation committee debated the Western "atoms-for-peace" resolution, but joined in the unanimous vote—marred only by abstention of the six Arab countries because Israel was a sponsor.

**Resolution's Provisions.**  
The resolution before the Political Committee calls on the General Assembly to establish a "scientific committee" comprising one scientist each from Australia, Brazil, Canada, Czechoslovakia, France, India, Japan, Sweden, Britain, the United States and Russia.

This committee would be instructed to:

1. Receive and assemble "in useful form" reports from members of the United Nations and its specialized agencies on observed levels of radioactivity and its effects "upon man and his environment."
2. Recommend uniform standards for sampling and counting radiation.
3. Review and evaluate reports from the various countries to determine their usefulness.
4. Make yearly progress reports and develop a summary document on radiation hazards and their effects on humans by July 1, 1958.
5. Transmit "as it deems appropriate" documents and evaluations to Secretary-General Dag Hammarskjöld for circulation among members of the U.N. and its specialized agencies.

Since Japan is not a member of the U.N., the resolution empowers Hammarskjöld to invite the Japanese to nominate a scientific representative to the 11-nation committee.

**Russian's Arguments.**  
Kuznetsov, speaking on the proposal late yesterday, offered these contentions:

1. That Russia, to end the danger of atomic radiation, repeatedly demanded "international agreement on the prohibition of nuclear weapons and... the discontinuation of tests of all types of these weapons."
2. Bidding for a place for Red China, Russia "considers that all the states, both members and non-members of the U.N. or of the specialized agencies, should take part in the co-operation in this field."
3. That the proposed committee should report by Oct. 1, 1956, instead of by July 1, 1958, as suggested by the Western sponsors of the resolution. The resolution, however, provides that the committee may report earlier, "if the assembled facts warrant."

## LIQUOR PROPOSAL DEFEATED

Voters of Woodson Terrace in St. Louis county yesterday defeated a proposal to authorize the sale of intoxicating liquor by the drink.

Unofficial results of the special election showed 407 votes against the proposal and 209 in favor of it.

## PROPOSES ASC OFFICE MANAGERS BE ELIMINATED

WASHINGTON, Nov. 2 (AP)—Representative Christopher (Dem.) Missouri, said yesterday he will introduce legislation next year to eliminate the post of manager at county offices of Agricultural Conservation and Stabilization committees.

County committees of three members elected by farmers have conducted the business of the offices before, he told a reporter, and can do so again without office managers.

"The county office manager

is in some cases recommended by the Republican county chairman or passed by the state Republican chairman," he declared.

He contended that "some county committees have been discharged if the members fire the office manager who has been appointed."

"I resent the implication," he continued, "that there are not at least three farmers in every agricultural county with enough brains and integrity to administer the farm program. These committees are elected by farmers and do not need a politically appointed office manager to dictate to them."

## Why this is a man's drink

The magnificent rums made in Puerto Rico today are noted for their superb dryness. They are always clear, always light and very dry.

Which brand should you buy? All Puerto Rican rums are wonderfully light and dry — yet each is subtly different from the others. To find the Puerto Rican rum of your choice, try more than one. An excellent brand is Carioca.

## Smiling Princess Makes First Appearance Since Big Decision

### Shows No Sign of Strain — Townsend to Return to Brussels Without Seeing Her Again.

LONDON, Nov. 2 (AP) — Princess Margaret emerged tonight from two days of seclusion for her first public engagement since she renounced love for duty.

The Princess smiled and waved to the crowd outside Clarence House and showed no sign of strain as she pursued the royal destiny she put ahead of marriage with Group Capt. Peter Townsend.

Margaret went to St. Paul's Cathedral to attend a religious service on the fiftieth anniversary of the death of Dr. Thomas Barnardo, founder of a number of children's homes.

Townsend said today he has no intention of seeing the Princess again before he returns to his post as air attaché in the British embassy in Brussels on Sunday.

The handsome Royal Air Force hero, whose love Margaret renounced for God and country, talked to newsmen at the gates of Eridge castle, home of Lord Abergavenny in the rolling Sussex countryside.

He came over from nearby Uckfield House, where he has been staying since he was trusted with the Princess last weekend, in an automobile driven by Lord Rupert Nevill, a brother of Lord Abergavenny.

Wearing riding clothes and looking relaxed, Townsend told reporters:

"I expect to be going back to Brussels by car and air, probably Sunday. I will return to the embassy there as air attaché. I will stay at Uckfield House until I leave for the Continent and I probably will not return to London. However, I intend to come over here (to Eridge) for occasional rides."

No Plans to See Princess.

He said he had no plans to see Margaret. He declined to

say whether he saw—or took part in drafting—the statement in which she announced her decision not to marry him.

Townsend galloped for an hour around the Eridge castle grounds, then drove back with Lord Rupert.

Lord Abergavenny said Townsend did not plan to make any further statement before leaving for Brussels.

Margaret, after making her decision not to marry Townsend, R.A.F. group captain and divorced father of two children, spent yesterday in seclusion with Queen Mother Elizabeth at their London residence, Clarence House.

Offers of Jobs.

Townsend was reported to have received numerous job offers from prospective employers in Britain and America. Newspapers, news syndicates and book publishers were hopelessly bidding large sums for the inside story of his romance.

His friends said it was unthinkable that the airman, who was a fighter pilot hero of the Battle of Britain, would decide to cash in by publishing details of the courtship which stirred the British throne. They added it is not unlikely he soon may end his Air Force career and seek private employment, perhaps in the aircraft industry.

Townsend himself gave no hint to newsmen of his plans beyond his return to Brussels.

All that is known is that his 2½-year tour of duty as British air attaché in Brussels ends in January. He is now on a leave.

As R.A.F. group captain, Townsend receives £1800 (\$3040) a year. If he were to retire at his present age—he will be 41 Nov. 22—he would get an annual pension of around £700 (\$1960).

### RENEGOTIATION BOARD HEAD, FRANK L. ROBERTS, RESIGNS

DENVER, Nov. 2 (AP) — President Eisenhower yesterday accepted the resignation of Frank L. Roberts, chairman of the renegotiation board which reviews Government contracts from time to time with a view to saving money.

In a letter to the President, Roberts said he was resigning because of "personal considerations." In accepting, Mr. Eisenhower said the renegotiation board "has derived much benefit from your long experience and capable leadership." Roberts was appointed to the board in Oct. 1951. He was designated chairman by Mr. Eisenhower last December.

The President designated Earl L. Butz, assistant secretary of agriculture, to serve as the United States member at the eighth session of the Food and Agricultural Council of the United Nations. The session will open Nov. 4 in Rome.

### STIX, BAER & FULLER CO. HONORS VETERAN EMPLOYEES

The fourteenth annual reunion luncheon for retired and veteran employees of Stix, Baer & Fuller Co. was given today at the downtown department store.

Guests included employees who have been with the store 40 years or longer. More than 100 guests attended. Leo Fuller, chairman of the board, and seven other management representatives also attended.

### Saving the Hard Way. PIEDIMONTE DALIFE, Italy, Nov. 2 (UPI)—Physicians opened up the stomach of Addolorata Carbonelli, a farmer's wife, last night and removed a bundle of keys. She said she swallowed the keys to the drawer where the family savings are kept to prevent her husband from squandering the money.

### ATOMIC TEST SO QUIET FEW ARE AWARE OF IT

LAS VEGAS, Nev., Nov. 2 (AP)—The quietest series of atomic tests has started.

The Atomic Energy Commission issued this statement yesterday:

"In a test today there was a detonation of a nuclear device. No fallout problem exists because there was no measurable nuclear detonation, even though fissionable materials were involved."

Residents of this resort city

heard and saw nothing. An unofficial report from the Yucca Flat test site was that even there some persons were unaware any test was made.

The AEC is trying to find out whether atomic weapons can be exploded accidentally. It said the tests would continue today, weather permitting.

## FORD '55 PROFITS SO FAR TOP ANY PRIOR FULL YEAR

Board Head Speaks  
Here, Puts Year's  
Wages, Salaries at  
\$1,123,000,000.

Ford Motor Co.'s profits for the first nine months of 1955 are greater, both before and after taxes, than any total year's profit in the history of the company, Ernest R. Breech, Ford's chairman of the board, said here last night.

The company's earnings before taxes for the whole of 1955, Breech estimated, will surpass the aggregate earnings of the motors concern for the entire 21 years prior to World War II, from 1919 to 1939 inclusive.

In a highly optimistic address before the Century of Commerce Club of the Chamber of Commerce of Metropolitan St. Louis at Hotel Jefferson, Breech said Ford's total wage and salary payments this year, not counting fringe benefits, would be \$1,123,000,000, a new record.

Family-Owned Firm.  
Ford Motor Co. is family-owned and does not file a detailed financial statement. How-

## Speaker

—By a Post-Dispatch Photographer.  
ERNEST R. BREECH

the company will have spent more than \$2,600,000,000 since 1946 on facilities alone, with an outlay of more than a billion for special tools in manufacturing and assembly operations.

"So, by the end of 1957," he said, "Ford Motor Co. will have spent or committed more than three and three-quarters billion dollars to become competitive and to stay that way in a market that is really competitive."

Can't Meet Demand.  
Breech added that despite plant expansion and extensive use of overtime with two and even three-shift operations, Ford still had been unable "to produce enough cars to meet the demand."

A Missourian, born at Lebanon in 1897, Breech left Bendix Aviation Corp. to join Ford in 1946. In his speech last night, he reviewed the comeback made by Ford in the last 10 years, declaring:

"Here was a firm that in 1921

had taken 62 per cent of the passenger car market in its stride. In 1946 it was selling only about 22 per cent of the industry total and was still sliding downward. . . . We found ourselves short on everything but determination—and a great asset in the name Ford."

At the dinner, representatives of seven St. Louis concerns that have been in business here for 100 years received certificates from Stratford Lee Morton, chairman of the Century of Commerce Club. A total of 99 such concerns have received certificates.

The seven honored last night were: Baltimore & Ohio Railroad; Baptist Tent and Awning Co.; Graham Paper Co.; E. K. Leiber Leather Co.; Mercantile Trust Co.; New England Mutual Life Insurance Co.; and Oliver Corp.

Joseph F. Holland presided at the dinner, which was attended by about 500 persons.

## U.S. COAL BUYING NOT NEEDED NOW, AID CHIEF SAYS

WASHINGTON, Nov. 2 (UP)

—The International Co-operation Administration says emergency Government purchases of United States coal are no longer necessary because coal exports were at near-record levels this summer.

D. A. Fitzgerald, acting direc-

tor of the foreign aid agency, made the statement in a letter to Representative John P. Saylor (Rep.) of Pennsylvania, one of a number of coal area Congressmen who have protested abandonment of the coal purchase plan.

Harold E. Stassen, then director of the Foreign Operations Administration, announced in September 1954 that his agency would buy 10,000,000 tons of United States coal to help distressed coal areas.

John B. Hollister, who succeeded Stassen as foreign aid

## ST. LOUIS POST-DISPATCH

Wed., Nov. 2, 1955 7E

chief, has abandoned the plan. Fitzgerald said coal for the foreign aid program will be bought on the "free world market" and United States coal producers have "competitive opportunity" to participate. Coal exports ran 3,700,000 tons a month in August and September. He said this was a "near-record high level."

'Smallest Baby' Dies.  
BOWLING GREEN, Ky., Nov. 2 (AP) — Rosemary Christian, the smallest baby ever recorded here at birth, died yesterday at the age of 10 months. The girl weighed 20 ounces when born four months prematurely last December. Doctors said she died from complications arising from the premature birth.

## COME-DOWN FOR CLIMBER

A Baltimore (Md.) resident, identified as Kenneth Reiblich, pauses on his climb up Baltimore's 240-foot-high Washington Monument last night to listen to Fireman Carol Hanley (atop ladder). Hanley talked Reiblich into climbing back down the lightning rod conductor after he had gone almost two-thirds of the distance up the column. Reiblich, apparently trying to be the first to scale the monument, dropped the last 20 feet into net held by firemen at base of column.

—Associated Press Wirephoto.

## DISASTER SYMBOL

The tail assembly of a United Air Lines plane which crashed near Longmont, Colo., last night, stands as a grim relic of the disaster which took the lives of 44 persons. The tail section, virtually intact, is resting in a sugar beet field more than a mile from the spot where most of the wreckage and bodies were found. The four-engine plane was on a New York to Seattle flight when the crash occurred, killing everyone aboard.

—Associated Press Wirephoto.

## SELF PORTRAITS

Bizarre face makeup plays an important part in the spectacles presented by these members of the Chinese Ballet, a classic theatrical group currently appearing in Rome. Skill with brush and paints is as essential for artists in the Oriental theatre as singing, dancing, acting and the performance of acrobatic feats.

—United Press Photo.

## AFTER COLLISION WITH TELEGRAPH POLE

Patrolman John O'Connell examining damage to the automobile in which Mrs. Walter P. Haller, 3730 Dixie drive, St. Louis county, suffered serious head injuries after an accident at Sarah street and Page boulevard today. Mrs. Haller, wife of a lieutenant in the Ladue Police Department, drove into a telegraph pole being transported on a trailer, and was pinned in her car by the pole. She was taken to Homer G. Phillips Hospital for treatment.

—By a Post-Dispatch Photographer.

## OLD GLORY THREATENED

A Greek demonstrator scaling flagpole on the United States Information Agency's office in Patras, Greece, yesterday, in an attempt to tear down the flag. Rioting mobs smashed windows at the center and stormed the British Institute, destroying furniture and books in demonstrations over the Cyprus issue. Crowds stoned police trying to prevent the attacks on the buildings, and officials reported 40 policemen and 19 demonstrators injured in the melee.

—Associated Press Radiophoto.

## LAST BLAST FOR HOODLUMS' GUNS

Chicago Police Capt. John J. Walsh hurling submachine gun into blast furnace of the Wisconsin Steel Works plant in Chicago yesterday as he destroyed weapons confiscated from hoodlums over a 17-month period. About 2600 weapons, including submachine guns, shotguns, rifles and revolvers were destroyed in this manner, along with 5000 knives, razors, brass knuckles and black-jacks. Melting the contraband arms saved the city \$1000, formerly spent to hire tugboat which dumped the weapons into Lake Michigan.

## On Broadway

By Walter Winchell

THE BROADWAY LIGHTS: Shirley Booth (one of the theater's Golden Girls) attracted gilt-edge notices for her delightful make-believing in "The Desk Set," which came to the Broadhurst Theater. . . . Unfortunately, the reviewers testified that the script was barren of nuggets. This spectator (a militant dissenter) rejoiced: "Shirley Booth is the Sun, the Moon and the Star of another laugh hit." . . . Her popularity is like this: The advance sales (especially parties) assure the show of a run until after the Yule holidays. . . . Miss Booth, you may recall, was last in a musical which suffered the same critical appraisal—but it ran for 23 weeks. . . . The famed Gallic troupe, "Comedie Francaise," arrived with Moliere's "Le Bourgeois Gentilhomme." The critics gave it a long embrace of welcome. The oo-la-lahs were unanimous. . . . "The Chalk Garden"

SHIRLEY BOOTH... GILT-EDGE NOTICES.

(at the Barrymore) impressed most critics and confused several. But all were encouraged by a brilliant cast. . . . Atkinson blessed it as "a drama of quality." . . . "Deadfall" starring Joanne Dru and John Ireland came to The Holiday, where it will not enjoy one.

★ ★ ★

**STAIRWAY TO THE STARS:** The word from New Haven is that R. & H.'s latest musical, "Pipe Dream," is not another "So. Pac." or "Oklahoma." It is merely entertaining and has a million-dollar advance sale. . . . "Janus" (starring Margaret Sullivan) was appraised by Variety's Wilmington exile: "Offers bright lines, amusing situations and topnotch performances." (He means it's a hit). . . . Broadway has nine shows playing to SRO. . . . Tuffest-Ticket: "No Time for Sgts."—some specs getting \$50 a seat. . . . "Fanny" is still biggest grosser, even with Pinza ill. Did \$63,000 last week. . . . Opening night ducats for "Pipe Dream" are in such demand one broker is asking and getting \$300 per pair. . . . Mrs. Lee Shubert attended her first opening (Comedie Francaise) since her husband passed on. . . . Never give up, kids. Andy Griffith, who got his name in lights (at the Alvin Theater) a few nights after making his debut on the local stage, flopped in a N.Y. night club not long ago. . . . They should change the title of "No Time for Sgts." to "Fine and Andy."

★ ★ ★

**THE STORY-TELLERS:** The ultimate in Do-It-Yourself news is the Statepost's essay named: "How to Build Your Own Country Club." . . . The week's contrib to feminity is Anita Elberg in Tempo. . . . Newsweek is extremely helpful. Advises those who have a million dollars how to invest it. In fewer words: If you have a million but you can be a millionaire. . . . Incidentally, the United States has 6000 millionaires, which gives you an idea how many folks you envy.

★ ★ ★

**TYPEWRITER RIBBONS:** A. O'Malley: Sorrow, like rain, makes roses and mud. . . . K. Burke: If you can learn to profit by adverse criticism your enemies will work for you without pay. . . . Anon: As prejudiced as the other side.

## Keeping Busy

By Dr. Paul Popenoe

ALL people need some sort of absorbing interest that satisfies their hunger for escape from the workaday world. But older persons need this even more, because in many instances they have nothing else to do. An idle older person can cause a great deal of trouble to younger relatives, so it is up to the latter to stimulate the interest of parents and in-laws in something constructive and even amusing. Mrs. B. has a problem of this nature.

DR. PAUL POPENOE

"My husband's mother has two daughters and two sons. The daughters married, moved away from this city, and will have as little to do with their mother as possible. The two sons are here, and my mother-in-law spends most of her time, it seems to me, interfering with one or the other. She has a tantrum if she is not invited for Sunday dinner. She sulks for a week if either son entertains friends and doesn't invite her, even though she doesn't know the people and has nothing in common with them. I could give a hundred more details, but you see the point. Is there anything on earth we can do decently to protect ourselves?"

★ ★ ★

**YES, MRS. B.,** it would be very considerate of you to help your mother-in-law get something else on her mind. Unfortunately, many of the hobbies which people cultivate are isolating hobbies. They are unsuited to the older years because it is important then for them to do things that bring them into association with their contemporaries. The man whose hobby is woodworking, or the woman whose hobby is raising African violets, is not well prepared for retirement.

On the other hand, everyone has skills which could be put to use. The pastor of a church found one of his members, a retired accountant, "rocking himself to death." The man was asked to take the responsibility for the church records. He has done a wonderful job.

★ ★ ★

**NEAR ONE TOWN,** there is a huge mental hospital. A retired violinist formed a small orchestra among his neighbors, and they play two or three times a week for the patients. A dancing class of older people holds a dance every Saturday afternoon for the patients. An elderly woman who used to own a beauty parlor, volunteered to give hairdos to some of the women patients. She has built up the morale of some of these women more than a psychiatrist could.

Find something your mother-in-law can do, Mrs. B., and arrange tactfully behind the scenes to have her do it.

## Try and Stop Me

By Bennett Cerf

FANNY BUTCHER has come up with a dog-eared old copy of a book called "Will Cressy's History of New England," which contains the following nuggets: "New England consists of six states and Boston, which is frequently in an awful state."

"They do not 'till' the soil in New England. They blast it. The crops are planted in among the rocks with a bean shooter or a gun. They harvest them with search warrants."

"The Down East Yankee has a keen gift of humor, because it is a gift."

"Statisticians have figured that, judging from the amount of furniture brought over in the Mayflower, the boat was slightly more than three miles long."

# Sight-Seeing Through Missouri on TV

Weekly Program Takes Viewers on Tour of State—Producing Show Presents Surprises

By Mary Kimbrough

MISSOURIANS now have a chance to tour their state by television—to see through the eye of a camera its historic markers of yesterday, its fabulous industries of today, to hear its luscious legends and the plaintive folk songs that still echo through the shadowy Ozark hills.

They will speed down flat highways, wander along dusty trails. They will float down the Mississippi, creep into caves that once were explored by Tom Sawyer and Huck Finn. They will watch unraveled the mysteries of crime detection, walk through the doors of factories and through squeaking gates to tiny Ozark cabins. But their tour won't take in the surprises and occasional headaches that go with producing a television show—the actor portraying Frank James who couldn't ride a horse; the Ozark settler back in the woods who wanted to discuss political theory; the capricious clouds and weather; the hill country family who had never heard of television.

Sponsor of the televised tour is Southwestern Bell Telephone Co.; the guide is a Texas writer with a love for Missouri, Robert Duncan of Dallas. The show, "Telephone Spotlight on Missouri," presented over KSD-TV formerly at 8:45 p.m. each Saturday, will change to 6 p.m. this weekend.

On only one occasion—for the filming of the story, "The Hidden Treasure of Frank James"—a professional actor was employed. Others appearing in the films are persons already involved with the project being portrayed, or residents of the community willing to act on television.

"It's hard work for them," said Duncan, "and most of them, after one such experience, lose all their ambition to become film stars and are much more content to do any other kind of work for a living. Often, shooting will start as early as there is enough sunlight. Exterior shots will consume most of the day, then the interiors and exteriors which need special lighting are shot at night, sometimes into the early morning."

"Most people don't realize how much is involved in a film lasting 10½ minutes. It often takes two weeks on the part of the research and script department, and two more weeks of editing, and completing the final narration."

"At one factory where we arrived to shoot film, the manager proudly announced that he had allowed 20 minutes from a busy schedule to shoot 10½ minutes of film. According to his ideas of film making, that would give us twice as much time as we needed."

DUNCAN and the camera crew—all of whom are from Southwestern Bell Telephone Co. in Dallas—also have found Missouri's character to be something with which to reckon. "One time, the beautiful Missouri sky was filled with puffy clouds which would float across the sun and cut off our light at two-minute intervals. Everyone would get into place while the clouds obscured the sun, then we would shoot for a couple of minutes until the clouds came along again. "But the clouds co-operated

A SCENE BEING SHOT NEAR HANNIBAL, MO., FOR THE "TELEPHONE SPOTLIGHT ON MISSOURI" TELEVISION SHOW.

beautifully. At precisely noon, the sky darkened while everyone was at lunch and at precisely 1 o'clock, when lunch time was over, the sky suddenly cleared and we went back to work."

Chosen to portray the role of Frank James was Laurence Torno, former flutist with the St. Louis Symphony and former director of the St. Louis Philharmonic, who later conducted his own programs on radio and television. Torno's principal worry was that he had never ridden a horse.

"To shoot the scenes, he would start the horse and the camera would start grinding," said Duncan. "But there was only one hitch. He couldn't get the horse to stop. So the cameraman, after the actor had ridden out of range, would have to make a mad dash, stop the horse, turn it in a new direction and dash back to start the camera again."

"Incidentally, Torno also barely escaped slicing off a few toes in a woodchopping scene as he was more used to handling a baton than an ax."

Duncan, an authority on Ozark folklore and folk songs, was searching for a folk singer back in the Missouri hills when he came to an isolated cabin where an old man was rocking on the front porch, his hound dog at his feet. "I asked him if he knew any of the old songs and ballads. He nodded and led us inside, then sat down by an old pot-bellied stove and said nothing. I asked him again about the songs. His eyes lighted up and he said: 'Well, I ain't goin' to sing the old songs. They're too sad. "He reached down and picked up a bright new copy of a political history of contemporary America. "I just got this from a li-

TWO MUSICIANS WHO APPEARED IN A TELECAST ON OZARK MUSIC.

brary bookmobile," he said, "and I ain't got anyone to talk about it with. Figured you folks looked likely." So we forgot about folksongs and spent a pleasant morning discussing the trend of American politics."

BUT the writer and camera crew have recorded the story of Missouri's city people as well as its isolated cabin dwellers. They have gone into such firms as the Midwest Research Institute of Kansas City which handles research projects for small business houses. They have toured Jefferson City through the eyes of a couple represented as returning to the capital after a long absence and noting the changes in the state's governmental center. They have told the story of Kansas City's famed stockyards, of Washington's Meerschaum pipe production and Boy's Town of Missouri.

Among programs outlined for the future are Central Institute

for the Deaf and the Missouri Botanical Gardens, both in St. Louis; Don Faurot, University of Missouri football coach; Roaring River State Park, School of the Ozarks, Highway Patrol, and the special training of city policemen. Former President Harry Truman will be interviewed in connection with the Truman Memorial Library, in Independence.

"We aren't trying to compete with giant television shows," said Roy L. Moskop, information manager at Southwestern Bell Telephone Co. "We want to talk about the people and the places right here at home. We feel that Missouri is an endless story to tell and is an endless source of material. These films are shot right on the spot, telling Missouri's story with Missouri's people as the stars."

"After these stories have been recorded on film, they will be made available to service clubs or other groups who want to show them to their people."

## Secrets of Charm Leg Exercises

### Brain Game

THIS quiz is based on events that made news in past November. Six answers correct is excellent.

1. Who became dictator of France on Nov. 18, 1942?
2. Can you name the First Deputy Foreign Minister of the Soviet Union who died in the United States on Nov. 22, 1954?
3. Who was given command of the Army of the Potomac on Nov. 1, 1861?
4. Where was John Bunyan imprisoned in November 1660?
5. Who piloted Com. Richard Byrd over the South Pole in November 1929?
6. What was the name of the Boston night club destroyed by fire in November 1942?
7. On Nov. 1, 1940, a huge suspension bridge collapsed in what city?
8. The first United States Government Post Office was opened in November 1783 in what city?

### ANSWERS

1. Pierre Laval. 2. Andre Vishinsky. 3. Gen. George B. McClellan. 4. Bedford, England. 5. Bert Balchen. 6. Coconut Grove. 7. Tacoma, Wash. 8. New York City.

## Ripley's Believe It or Not

DANIE, the Italian poet, HAD A PHOBIA AGAINST CANDLESTICKS. SO HE TRAINED A CAT TO HOLD A LIGHTED CANDLE IN ITS PAWS.

THE TOWN THAT HONORS A FRIGHTENED COW. LARA, a community in India, GETS ITS NAME FROM "LARA," the Hindi word for "fear." A FROG KILLED A HENLY MAN'S COW AND THE VILLAGE STORIES WERE NARRATED FOUND A TALE OF FEAR FROM THE TERRIFIED ANIMAL'S MOUTH.

**USUALLY YOUR WALK WILL SHOW UP THE FAULTS IN YOUR LEGS.**  
your regular stance. If you had always stood and walked with a slightly bent knee, your problem would not now be quite so difficult.

**Knock Knees.** Basically, when knees turn inward, it comes from the same source as the functional bowed leg—a tensed knee joint. The above exercise is equally good for knock-knees. If you have fatty spots on the inner part of the knees, here's just one more exercise. Sitting in a chair go forward on the right side, so that the right knee is slightly ahead of the left knee. Keeping feet flat on the floor, slap the knees together 20 or 30 times. Now, reverse and do with other knee.

Created for readers of this column, dance steps anyone can do. They bring increased grace and reduced measurements. Write to Secrets of Charm in care of the Post-Dispatch, enclosing a self-addressed, stamped envelope and 10c (in coin) for a copy of "Dance Through a Week to Beauty."

**Evening Jewelry**  
Rhinstones are unusually popular for evening jewelry. Two-way paved ridges featuring baguette stones on one ridge and paved round stones on the opposite ridge are responsible for the elegant appearance of some of this jewelry. The rhinstones frequently are combined with pseudo-emeralds, sapphires and rubies to provide a brilliance of color.

## Contract Bridge

By Ely Culbertson

RESCUING partner from a suit contract into no-trump at the slam level is occasionally a good idea, but not here: Both sides vulnerable.

♠AQ9  
♥K3

♣82

The bidding (rubber bridge): South West North East 1♥ Pass 3NT Pass 6♥ Dbl. 6NT. Pass Pass Dbl. (final call)

North could have gone down one if he had played to the best advantage, but his play was no better than his bidding and so the actual outcome was a 500-point defeat.

"Thank you!" said South bitterly. "I love to be rescued!" "Well," North said sulkily, "I didn't do you much harm—you would have been down one at six hearts, with that horrible heart break."

"Wrong again," said South. "Six hearts would have been a spread—and if you think that a swing of 2160 points against me isn't harmful, you have very strange ideas!"

South's statement was true, of course: the doubled six-heart contract could have been made with relative ease by any declarer worth his salt. The two trump tricks West apparently had to make could be reduced to one trick via the simple expedient of South's shortening his own trumps and then using a throw-in play—as follows:

Assume West leads the club jack (not that this matters). Dummy wins and South leads a heart to his ace, confirming the indication that West has all the missing trumps. Now South's course is charted for him. He leads to the other club, then cashes the ace and king of diamonds and ruffs a diamond. Next, he takes the spade finesse, cashes the spade ace and ruffs a spade.

With West having to follow suit throughout, it would now be known that he was reduced to the Q-10-9 of trumps, against South's K-J-7. It would not take much doing for South to exit with his low trump and wait for West's forced return to the K-J.

### Tea Scheduled Tuesday For Guatemalan Visitor

By Karin Hayward

SENORA DE CASTILLO ARMAS, wife of the president of Guatemala, will be guest of honor from 3:30 until 5 o'clock next Tuesday afternoon at a tea at the home of Mrs. Thomas M. Sayman, 5399 Lindell boulevard, Mrs. Raymond R. Tucker and Mrs. Sayman will serve as co-chairmen of the committee in charge of the tea which is part of the official visit of the Guatemalan President and his party to St. Louis.

Additional women in the group from Guatemala include Senora de Cruz Salazar, wife of the Guatemalan Ambassador to the United States; Senora de Linares Aranda, wife of the Chief of Protocol of Guatemala; Mrs. Edward J. Sparks, wife of the United States Ambassador to Guatemala, and Senora Mila Sandoval de Midence, secretary to Senora de Castillo Armas.

The Veiled Prophet queen, Miss Audrey Faust Wallace, will pour and will be assisted by several debutantes of the season. Members of the tea committee are Mrs. Howard F. Baer, Mrs. Aloys P. Kaufmann, Mrs. Nelson B. Gatch and Mrs. John R. Longmire.

### St. Louisans Return From Europe.

MRS. AND MRS. JOHN DENSON ADAMS, 15 Lake Forest, Richmond Heights, returned home Saturday after five weeks in Europe. They made the entire trip by plane and concentrated their sight-seeing in France and Spain. Mr. and Mrs. Adams were accompanied on the trip by her son-in-law and daughter, Dr. and Mrs. James E. Robinson Jr., of West Palm Beach, Fla.

A month's motor trip in Europe has been taken by Mr. and Mrs. Charles B. Podmaniczky, 7149 Westmoreland avenue, University City, who recently returned. Traveling in a car owned by Mr. Podmaniczky's mother, who lives in Munich but was in Greece at the time, the St. Louisans spent all of their time in Bavaria, Austria and Switzerland, and a trip to Lake Como, in Italy. They visited Munich, Salzburg, Innsbruck, St. Anton, famous Austrian ski resort, and Lugano, Lucerne and Zurich, returning home on the Queen Elizabeth. They made the trip over by plane.

### Pre-Wedding Parties for Miss Anne Brown.

MISS MARIE ANNE BROWN, daughter of Mrs. Thomas K. Brown, 7439 Buckingham drive, Clayton, has been honored at a series of parties. She will be married Nov. 12 to Lee William Short Jr., son of Mr. and Mrs. Lee W. Short, 1434 Bredell avenue, Richmond Heights.

Starting the parties was a party shower given Oct. 1 at the home of Mr. and Mrs. William H. Killough by the choir at Pilgrim Congregational Church where the prospective bridegroom is choir master and organist. Mrs. Harry T. Lange was hostess Oct. 8 at a luncheon and kitchen shower at which she entertained a group consisting of mothers, daughters and daughters-in-law.

The next night Mr. and Mrs. Roland A. Lea gave a dinner Oct. 10 Miss Brown was honored at a linen shower given at the home of Mrs. A. L. Knudstad. Oct. 15 Mrs. Edw. Davis entertained friends of Mrs. Brown at a tea in honor of the bride-elect and the next evening Dr. and Mrs. Leland B. Alford honored the engaged pair at a dinner at the University Club. Mrs. Hugh M. Bowen and her daughters, Mrs. William W. Carter and Mrs. C. Read Boles, were co-hostesses Oct. 20 at a luncheon and paper shower for Miss Brown at the Junior League tearoom.

Mr. Short received gifts of household accessories at a dinner and shower given Oct. 22 by Mr. and Mrs. R. C. Biss for friends of the couple. Last Friday Miss Helen Tobin entertained a group of physical therapists, associates of Miss Brown, at an evening party and linen shower. Last night the bride-elect and Mr. Short were honored at a dinner given by Mr. and Mrs. Karl F. Wackman.

Still to come is the rehearsal dinner which will be given Nov. 11 by Mr. and Mrs. Chester W. Kotsman for the bridal party and out-of-town guests.

### Former St. Louisan Visits Here.

MRS. HAROLD F. NELSON of Leawood, Kan., a suburb of Kansas City, is here this week with Mr. Nelson, who is on a business conference, and is staying at the Jefferson Hotel. The Nelsons lived in Clayton until a few years ago.

Monday Mrs. Nelson entertained a group of close friends at luncheon and bridge in a private room of the Chase Hotel, her guests including Mrs. M. H. VanderPearl, Mrs. Arthur Brereton, Mrs. Juliette Withington, Mrs. Benjamin Morgan, Mrs. Walter Lindeman, Mrs. Ernest Richardson, Mrs. Otto Broeder, Mrs. John Shirley and Mrs. Gerard Varnum.

Yesterday Mrs. Nelson was a guest at a luncheon and book review at Norwood Hills Country Club.

### Mrs. Moore to Entertain Bride-Elect.

MRS. WILLIAM STEWART MOORE, 7030 Washington boulevard, University City, will be hostess today at a luncheon in honor of Miss Marilyn Joy Walke, daughter of Mr. and Mrs. Richard Henry Walke, 28 Westmoreland place. Miss Walke is to be married Saturday, Nov. 12, to First Lt. Harry Noble Fisher, now serving at Parks Air Force Base in Oakland, Calif.

The luncheon will take place at the Junior League tearoom and will be followed by a fashion show staged by the league in conjunction with Scruggs-Vandervoort-Barney. An epergne holding pale pink carnations, which will serve as a table centerpiece, will have at its base shirred tulle ornamented with delicate Dresden cups. The young women will receive jeweled lipsticks as favors.

Dr. and Mrs. Earl C. Bean entertained approximately 24 boys and girls Saturday night at a wild duck dinner preceding the first Assembly dance of the season which was held in the Tiarra room of the Park Plaza. The dinner party was given at the Bean home, 3 Fair Oaks, Ladue, as a surprise birthday celebration for 16-year-old William Hassett II. To emphasize the duck theme which prevailed at the party, a decoy duck was placed on a glass lake as a table centerpiece.

## Vacationers in Sicily

MR. AND MRS. HARRY S. KRAMER JR., WHO LIVE IN THE GREYSTONE APARTMENTS, SHOWN IN TAORMINA, SICILY, A STOP ON A SEVEN-WEEK CRUISE IN THE MEDITERRANEAN ABOARD THE CARONIA. THE KRAMERS, WHO DEPARTED LATE IN SEPTEMBER, HAVE VISITED EGYPT, ISRAEL, TURKEY, GREECE, ITALY AND SPAIN.

## Fall Festival At Cathedral

THE women of Christ Church Cathedral will sponsor the cathedral's annual Fall Festival from 10 o'clock tomorrow morning until 9 o'clock at night. Bishop Tuttle Memorial Building, 1210 Locust street, will be transformed into a foreign bazaar for the occasion. The goal of the festival is to complete paying for the restoration of the cathedral's pipe organ.

Mrs. Donald Kane is general chairman of the festival. Mrs. George Diekmann, Mrs. Russell Lowell and Mrs. F. L. Rehkop will be in charge of the Sidewalk Cafe, the French Pastry Shop and the Gourmet Shop; Mrs. B. W. Follenius, La Boutique; Miss Laura Bier, International Post; Mrs. Clara Hahn, Toy Shop; Mrs. A. E. Bauer, Curio Shop; Mrs. Diekmann, Christmas Stocking; Miss Edith Magoon, Books and Records; Mrs. Louis Sabadie, Needle and Thread; and Mrs. Carl C. Mose, Almost New Shop.

A complete smorgasbord will be served from 5 until 6:30 o'clock.

## Out-of-Town Guests, Fall Trips Interest Kirkwood Families

DR. AND MRS. A. JOHN D. LOGGREEN, 300 North Taylor avenue, departed Thursday for a 10-day trip East. They will spend most of their time in Washington visiting their son, Navy Capt. E. J. Loggreen, his wife and their three children, John, Deborah and Linda.

Mr. and Mrs. Joseph C. Wiegman, 621 East Monroe avenue, have just returned home from a three-week holiday in the South. After visiting for two weeks at Sarasota, Fla., they spent some time fishing at Muscle Shoals, Tenn.

Mr. and Mrs. Robert D. Morrison, 907 North Taylor avenue, spent last weekend at Dallas, Tex., where they visited their daughter, Miss Barbara Morrison, a freshman at Southern Methodist University. It was the university's homecoming.

Mr. and Mrs. Joseph R. Burcham, 114 Parkland avenue, Glendale, spent last weekend in Chicago, visiting Miss Janet Flegner. Miss Flegner, who with her parents, Mr. and Mrs. Carl G. Flegner of La Jolla, Calif., formerly lived in Kirkwood, has announced her engagement to George Albert Wilcox, also of Chicago.

Miss Burcham, who attended Vanderbilt University, Nashville, Tenn., last year, is a sophomore at Washington University.

Mrs. Milton Doner of Detroit concluded a visit here last weekend with Mr. and Mrs. Robert H. Kittner, 3 Wildwood lane. Mrs. Kittner invited friends to her home Thursday morning to meet her house guest.

The Kirkwood Theater Guild will have its annual fall party, Friday night at Garavelli's restaurant. Mr. and Mrs. Joseph Monolo are planning entertainment to conform to the theme, "One Enchanted Evening." A supper dance, the affair will be from 9 to 1 o'clock.

The guild had a cast and crew party, Saturday night, at Zippy's restaurant after the final performance of "Harvey," its first play of the season. Mrs. Kingsley Suits is president of the organization.

Recent visitors here were Mr. and Mrs. John L. Hawkins, who have returned home to Pass Christian, Miss. They visited their daughters, Mrs. Ralph Kraus, 706 East Monroe avenue, and Mrs. Davis Biggs Jr., 457 North Taylor avenue.

## Soothes Diaper Rash

## My Day

### Visit With Friends of Walter White

By Eleanor Roosevelt

CHICAGO.

I HAVE just been sent from South Africa a book called "Episode in the Transvaal." Now I learn that it is on sale in our bookstores and I think it should be read by everyone. It will help us to understand the difficulties confronting those who are trying to find some way of bringing about peace in an area where the only answer to criticism of their Government and its policies from the United Nations was withdrawal from the U.N.

ON MONDAY AFTERNOON I went to meet with friends of the late Walter White and his wife in the latter's house. This was a sort of launching of the book, "How Far the Promised Land" by Walter White.

The last time I had been in this house I had talked with Walter White himself and hoped he was well on his way to recovery after the operation which still lay before him. Now he is gone and this book was his last work addressed not only to his fellow countrymen but to the world.

Mr. White's writing is an effort to make us at home more conscious of what remains to be done, and to make the world more conscious of what has been done by this nation in attempting to solve the race problem here.

THE PROBLEM is far from solved as yet, but Walter tells the story of his own dedication to this task and of the happenings through the years. The last paragraph sums up his conclusions and his hopes, I think: "The job of curing and preventing man's mistreatment of another man because of his race or color in the United States or, for that matter, anywhere else in the world is not done. But we are on our way."

Walter White was a courageous fighter. He never had acknowledged that he belonged to the Negro race, but I always feel that he liked the challenge and that he could not have been coward enough to hide behind the fact that his skin was white and he was blonde. He lived the truth and he wanted his friends to be real friends, not friends who could not see beyond the pigment of his skin.

## Women's Clubs Fall Fiesta to Aid Hospital

By Fay Proffitt

THE St. Louis Women's Auxiliary of the American Medical Center, founded by the Jewish Consumptives' Relief Society, will give a fall fiesta frolic and bazaar Sunday at B'nai El Temple, Delmar boulevard and Clara avenue, from 3 to 11:30 p.m. Mrs. Philip F. Lichtenstein is auxiliary president and Mrs. David Lieberman and Mrs. Philip Bach are general chairmen for the fiesta. Proceeds will go to the American Medical Center, Denver, a free, non-sectarian and national hospital for the treatment of persons afflicted with cancer or tuberculosis.

The temple auditorium will be gaily decorated and a prize will be awarded for the most attractive booth. There will be a show for children, at 3 and at 4 p.m., and dinner will be served from 5 to 8 p.m. Mrs. Leonard Krost is chairman and Mrs. Maury Citrin is co-chairman for the show; Mrs. Walter J. Simon and Mrs. Sam B. Margulis are in charge of the dinner.

A feature of the fiesta will be the post office booth which will contain gifts autographed by famous actresses and actors as well as gift wrappings. Mrs. Max Kopman and Mrs. Harry Margulis will serve as chairman and co-chairman, respectively, at this booth. The following chairmen and co-chairmen will preside at the various booths: Mrs. Michael Levin and Mrs. Sam Stern, general store; Mrs. Emil Roodman and Mrs. L. C. Rose, grocery; Mrs. Marshall Friedman and Mrs. Jacob Finke, jewelry; Mrs. Louis Daenger and Mrs. Herman Landau, sewing; Mrs. William Geiger and Mrs. Albert Marlam, jellies; Mrs. Rubin Frank and Mrs. Eugene Simon, cakes; Mrs. Donald Simon and Mrs. Harold Levy, hobby; Mrs. Bernard Levinson and Mrs. Nate Shear, handbags. Others to be in charge of booths are: Mrs. Nate Rosenblum and Mrs. Harry Goffstein; Mrs. Charles Kaufman and Mrs. Maury Furman; Mrs. Max German and Mrs. Sam Rabushka. Mrs. Leo Sigoloff is publicity chairman.

The annual fall festival sponsored by the Woman's Society of Christian Service of Clayton

MRS. PHILIP F. LICHTENSTEIN, LEFT, PRESIDENT OF THE ST. LOUIS WOMEN'S AUXILIARY TO THE AMERICAN MEDICAL CENTER, AND MRS. DAVID LIEBERMAN, GENERAL CHAIRMAN FOR A FIESTA TO BE GIVEN BY THE AUXILIARY SUNDAY. MRS. PHILIP BACH, THE OTHER GENERAL CHAIRMAN, WAS NOT PRESENT WHEN THE PHOTOGRAPH WAS MADE.

Mrs. Maurice R. Chambers, 554 Lyman place, Webster Groves, will be hostess to the Webster Groves Chapter D.A.R. Thursday at 2 p.m. Joseph W. Rosenauer, director of Civil Defense of Webster Groves, will be guest speaker. Assisting Mrs. Chambers will be Mrs. William E. Blair Jr., Mrs. John B. Brunner, Mrs. Raymond L. Williams, Mrs. James R. Hanson, Mrs. Charles Maxey, Mrs. Maylin J. Pickering, Mrs. Obie Surles and Mrs. L. Austin Warren.

Methodist Church will be held at the church, Maryland and Bemiston avenues, Nov. 10 beginning at 10 a.m. Mrs. Russell Michaels is chairman for the festival and Mrs. Lew Moeller is chairman of reservations for luncheon to be served at noon. A wide variety of gifts, home-made bakery goods, toys and white elephant gifts will be displayed at attractively decorated booths.

## Why settle for less when Mountain-Grown Folger's gives you MORE FLAVOR PER CUP

Folger's skillful blending and roasting of nature's most flavorful coffees makes the difference!

Folger's, you see, starts with only the choicest coffees . . . Mountain-Grown coffees that are naturally richer, heartier, more flavorful.

They blend and prepare these finer coffees in an unique way, with their century-old Folger "touch" that produces not only a richer flavor, but a truly distinctive flavor no other coffee can match. And because Folger's blends to a flavor,

not to a formula, you can be sure of the same rewarding goodness cup after cup, day after day.

Why not serve your family the one coffee that over the years has been specially made to give you more flavor, more coffee satisfaction in every cup. Serve them Mountain-Grown Folger's. We think that once you've tried Folger's, you'll never be satisfied with anything less.

SO MUCH RICHER IN FLAVOR YOU ARE URGED TO USE 1/2 LESS THAN WITH LESSER FLAVORED BRANDS

"My Sal knows her stuff!"

I have to hand it to my Sal. She's just a whizz at taking the work out of housework. For instance, most gals practically kill themselves scrubbing and waxing wood floors. But not my Sal! She cleans and waxes them in one easy operation with Bruce Cleaning Wax. The job's done in half the time and with a lot less work. And you should hear all the swell compliments about our beautiful wood floors! My Sal and her Bruce Cleaning Wax sure make simple work of a tough chore. And they make me mighty proud too!

P.S. For lighter waxing on linoleum and wood, Sal uses Bruce Floor Cleaner.

IT'S MOUNTAIN GROWN ...

AT YOUR GROCER'S IN 1 AND 2-POUND CANS—REGULAR, Drip and FINE GRIND

# Martha Carr's OPINION

Dear Martha:  
My husband and I have been married almost four years. We are both 22, and have two children. He makes a reasonable salary. However, he never takes me anywhere when it would cost him a dollar or two, not even to a movie.

Because of our babies, I am tied down to the house during the day. I never ask him to go anywhere on week nights except on Thursday when we do our shopping. He even resents that, and tells me to ask my parents to come over and take me during the day. He wants a business of his own, yet won't go to any kind of school and learn a trade. I'm so bored and sick of staying in, I could scream and pull my hair if I just let go. The children are active, and after all day and all evening when my husband is in the basement workshop, I'm so nervous that I sometimes lose my temper with them. I have neglected my home for the last month, because I've got to the point I just don't care. I thought of leaving him, but I love him, and I love my babies, and I know I could never separate them from their father.

BETTY.

Every mother who is responsible for her children's care during the day certainly has a right to go out occasionally in the evening, and it's a smart husband who realizes that. But if your husband refuses to take you out, you'll only make matters worse by nagging at him. Maybe you can go shopping with your parents. It would give you an opportunity to be with them, or maybe you could leave the children with them and take their car to the market. How about inviting another couple over occasionally? If your husband doesn't like to go out, he might enjoy entertaining company. The Y.W.C.A. has a "homemakers' holiday" during which you can enjoy such activities as swimming and crafts with other young mothers while the children are cared for in a nursery. You owe it to your family as well as to yourself to try to find some way of easing the tension so that you can be a better mother and a happier woman.

★ ★ ★

Dear Martha:  
I BELONG TO A BRIDGE CLUB of eight members. One of the girls is causing a lot of trouble by gossiping all the time. She has hurt the feelings of several members of the group by her ugly remarks and now one of the other girls we all like a lot has said she won't come back as long as this one is a member. I'm afraid the club will break up unless something is done. What do you suggest?

JANEY.

Does the gossip have a particularly close friend in the group who could take her aside and tell her what trouble she has caused? It would be a shame to let the other girl drop out and let this one keep on talking and hurting more feelings. Of course, any of you could stem the tide at any time by suggesting that everyone stop gossiping. Those who listen to gossip without any effort to stop it are almost as guilty as the one who does the talking.

★ ★ ★

IN ANSWER TO ANNE: What if your daughter-in-law does make a few mistakes in her housekeeping methods? Don't try to force your own ideas of efficiency on her, even if you cringe to see the dust left in the corners and the toast burned with disheartening regularity. Every young homemaker has to learn and she'll be far more eager to find out the right methods of keeping house if she is left alone than if she is constantly receiving suggestions from her more experienced mother-in-law.

Planning a party for the small fry? Martha Carr's free leaflet, "Let's Have a Party," will help with your plans. Please inclose a stamped, self-addressed envelope with your request.

## Sitting With Poise

By Josephine Lowman

TODAY let's tackle the hazards of entering a room full of people, selecting a chair and seating ourselves. Perhaps you arrive at a party after most of the guests are assembled. If you feel at all nervous or self-conscious stop

JOSEPHINE LOWMAN

them. Never barge into a room even if you are late. Take that little momentary pause during which you collect your wits and your balance. This is a trick well known to public speakers.

★ ★ ★

THEN DON'T RUSH for the nearest chair as though you were playing "Musical Chairs." Look the situation over and approach a chair if you wish to and if one is available. If not, join some group and introduce yourself if your hostess is busy elsewhere. Guests at the same party do not have to be introduced to one another formally. When it is a big party the hostess cannot be everywhere at the same time.

When you approach a chair don't do it head on. Turn sideways a bit so that you do not have to execute an about turn. One foot will be a little in front of the other. Keep your back straight and let your thighs do the work. In this way you will seat yourself with controlled motion rather than flopping.

★ ★ ★

KEEP YOUR BODY WEIGHT centered in the hips. This will allow you to get up easily. Keep your back straight. Let your grace of movement come from the waist. If you cross your legs, cross them either at the ankles or above the knee. If you cross them at the knee it will broaden the calf.

Keep your hands in your lap in a relaxed way or place them on the arms of the chair but do not slump. Keep your back straight. When you do get up place one foot in front of the other, keep your back straight and do not push with your hands unless you have to in order to arise from a very deep chair or divan.

These are the things the models learn. Why not you?

## Social Problems

By Emily Post

"RECENTLY my husband and I had some friends in to dinner. They brought us a bottle of select dinner wine. However, my husband did not open it, but put it aside and served the wine which he had chilling. Later we wondered if we were rude in not having served the wine brought by our dinner guests and if they could justly feel offended at our not doing so."

You were entirely correct in using the wine you had prepared for dinner and keeping the gift bottle for some future dinner.

## Cauliflower A Popular Fall Vegetable

By Edith M. Barber

CAULIFLOWER is one of the most popular fall vegetables. It is gratifying to have this vegetable come into its own just as many of the summer vegetables are reaching the end of their best period and before southern states begin to send us their products.

Cauliflower is attractive in its flavor, form, texture and creamy white appearance. It is only recently that we began to appreciate the small raw flowerettes as a relish and for dunking.

We choose cauliflower with a particular eye for freshness. There must be no brown spots, and the leaves which surround the heads should not be withered. When it comes to cooking, we are just as careful as we are when buying. Overcooking spoils both color and flavor.

If the head is to be served whole it should be cooked with the head down in boiling salted water for 10 minutes. Then it should be turned and cooked until just tender. If the head is broken into flowers, these may be cooked in a small amount of boiling, salted water under a cover that should be lifted occasionally.

Often cauliflower is dressed merely with plenty of melted butter. This may be flavored with lemon juice, or a hollandaise sauce may be used. Both cheese and tomato sauce are often chosen for service with this vegetable. A cream sauce flavored with lemon juice and combined with chopped, hard-cooked eggs is another favorite.

For a casserole dish the flavor of bacon with soft bread crumbs and tomatoes is appropriate.

Fresh Cauliflower With Egg Sauce.

Remove outer leaves and head stalks from medium-sized head

CAULIFLOWER, SOFT BREAD CRUMBS AND TOMATOES MAKE A GOOD CASSEROLE DISH.

of cauliflower but leave tender inside leaves on head. Cut out center core. Wash and drain. Place head down in boiling salted water and cook ten minutes. Turn head right side up and finish cooking 10 to 15 minutes longer. Place on serving dish and spoon the following sauce over the cauliflower. Top with a sprinkle of black pepper. Yield: four to five servings.

Egg Sauce.

Two tablespoons butter; two tablespoons flour; one cup milk; one-fourth teaspoon salt; one-eighth teaspoon ground black pepper; one egg yolk, lightly beaten; two tablespoons melted butter; two tablespoons lemon juice; one hard-cooked egg, sieved.

Melt two tablespoons butter in saucepan. Remove from heat and blend in flour. Gradually blend in milk. Add salt and pepper. Cook until thickened, stirring constantly. Remove from heat. Beat in egg yolk. Gradually beat in melted butter,

then the lemon juice. Fold in sieved egg.

Whole Cauliflower Au Gratin.

One medium head cauliflower; one and one-half cups medium cream sauce; three tablespoons diced pimientos; three tablespoons chopped green pepper; one-half cup sautéed sliced fresh mushrooms; one-eighth teaspoon ground nutmeg; one-eighth teaspoon ground black pepper; one-fourth teaspoon salt; one-fourth cup fresh bread crumbs; one-fourth cup grated American cheese; two tablespoons butter.

Wash and trim cauliflower, leaving some of the tender inside leaves on the head. Cook until tender. Place in greased baking dish. Combine next seven ingredients. Pour around and dribble a little over the cauliflower. Mix crumbs and cheese. Sprinkle over sauce. Dot all with butter. Bake in moderate oven (350° F.) 10 to 15 minutes or until sauce is golden brown. Yield: six servings.

## The Human Mind

### It Takes a Brave Man to Stand Alone

By Mary Margaret McBride

IN the course of uncovering hidden facets of the human mind, one of our big universities has been running a series of tests with a metronome. In the course of this experiment, a human guinea pig was exposed to the mechanism and told to count the number of ticks he heard. There were eight ticks and he heard eight ticks.

Miss McBride

But by prearrangement, he was questioned with a number of men and women who he believed had participated in the same test but who actually had been briefed ahead of time. They reported that they had heard 10 ticks. And so, overwhelmed by the unanimity of opposing opinion, the guinea pig wavered, decided he must be wrong, and finally announced that he too had heard the metronome noise 10 times. But just then another man spoke up. He said firmly that it was 11 ticks he had heard. The lone dissenter supplied the courage the guinea pig needed. He asked permission to change his answer and said quite confidently now that he had heard eight ticks.

I KNOW just what went on in that poor fellow's mind when the group reported. Confronted with positive-sounding opinions which differ radically from our

'Controlled' Silhouette

The "controlled" silhouette, as the slender but tapered line of many costumes is called, is featured extensively in the designs in the Jack Horwitz collection. Most of these are in junior sizes but are created in a sophisticated manner so are suitable for any woman who finds the junior sizes best for her figure. Many of the dresses are accompanied by three-quarter length coats although the hip-length jacket with a square shape is also popular. Variety of color and texture is recognized as equally important with silhouette. Many brown tones are used and there is an abundance of black. The revival of the evening coat and the interest in knitted fabrics for carefully tailored clothes are noteworthy.

Sandwich Filling

Sandwiches for lunch? Mash six hard-cooked eggs with a small-sized can of deviled ham; add salt, pepper, prepared mustard and a little mayonnaise. Use as a sandwich filling with lettuce or sliced cucumber.

own, few of us would act differently. In such a situation we all have a tendency to hesitate, become confused and finally unsure of the evidence supplied by eye, ear or brain.

Perhaps it is partly our over-consciousness of human fallibility. We've had this beaten into us by methods such as the old professor's trick of rigging a scuffle among three students in front of the class and then, after they've run out the door, asking the other students to report exactly what they've seen.

Veteran police officers, lawyers and judges know that such witnesses can come up with widely varying accounts. In the case of street accidents, the descriptions of a suspicious person seen leaving the scene can run from a tall man in a cap to a woman in evening clothes.

THE MOLDERS of public opinion understand about the need of the average person to feel he is not alone in his beliefs. So they take care to embroider their propaganda with as many endorsements as possible from the great and near-great. That is why so many petitions are circulated, so many surveys made. The weight on

the individual of other people's opinions is considered important enough that the weaker political party, nervous about its own strength, does everything it can on the eve of crucial elections to discredit if not halt the straw votes.

Quite often as in the metronome test, the influence of one voice disagreeing with the mass encourages other dissent. You can often see that point illustrated at a dinner table. Someone will toss out an opinion about public affairs. It will be endorsed heartily by several, and the rest will sit silent, disagreeing but not ready to speak out. Then some brave soul will clear his throat and murmur mildly, "Oh, I don't know about that," and suddenly, as if pressure had been loosed, a vocal free-for-all bursts into action.

It's true: people are runny—but interesting.

## Teen-Age Allowance Question

By Elinor Williams

"HOW much allowance do you think I should get?" is the question that troubles many high school girls. It would be fine if we could pull the perfect answer out of a hat like magic—but it's not so easy. You see the amount of your allowance, if any, is an individual matter, differing with each girl and boy, because it depends on so many things.

The amount of coin or folding money that you tuck into your purse every week depends on your family's income, how many children in the family and whether you're expected to earn some of your cash. It also depends on whether your allowance covers big basic needs like clothes or whether it's for smaller items such as bus fares, school lunches and entertainment.

So have a family conference to decide (1) if you're to have a weekly allowance; (2) which expenses it will cover; (3) whether you'll earn some of the money you need.

No matter how much your allowance is, you'll be a smart girl if you learn right now that we all have to plan our expenses and often must make a choice . . . you just can't have everything!

So be a big girl and decide for yourself whether your entertainment money this week is to be spent for a movie or a new record—one or the other—instead of using it for the record, then going to Dad for more money for a movie.

## It's an Idea

By Vera

Create a partition with translucent corrugated plastic sheeting. Simply set panels into a stone or wooden floor planter. Good also for overhangs, carports, breezeways or windbreaks.

## By for and about Women

### Star Pattern

SOFT looking yet handsome casual that provides the perfect answer to "what shall I wear?" Note its flattering face-framing collar, the way its skirt trim makes light of your hips then flares to a graceful sweep.

FABRIC SUGGESTIONS: Rich rayon crepes in moss green, navy, black, plum . . . even supple jerseys in tones as light or dark as you please.

Star Pattern No. 232 is cut in Sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32 and 34.

MATERIAL REQUIREMENTS: Size 18: 3 3/4 yards 39-in. For a Star Pattern send 50 cents in coin to Star Pattern Department, St. Louis Post-Dispatch, Box 350, Madison Square Station, New York 10, N.Y. Please include pattern number.

Velvet Dresses

Regal-looking velvet dresses are among the evening modes featured this season. Electric blue is a striking shade that is used by several designers. The Fath collection includes some Spanish themes that have matching collars. Shawl collars are flattering. Some of these collars extend to form a stole effect with looped ends taking the place of pockets.

# So Dazzling... So Durable!

Diamonds By Cartier

## Cutex Absolutely Defies Chipping!

Pound a typewriter. Play a piano. Put your hands in water time and time again.

Just like dazzling, durable diamonds, Cutex Nail Polish defies chipping and peeling . . . is absolutely unbeatable for lasting beauty and longer wear. Guaranteed to out-wear other polishes or it costs you nothing!

Detergent-defying discovery, Enamelon . . . exclusive in Cutex . . . is the reason! Tests prove even nail polishes that cost over twice the price cannot out-wear this revolutionary nail polish formula!

Keep your fingertips always beautifully groomed, always glowing with color. Choose Cutex today! In all the prettiest colors, plus the safe Spillproof bottle, just 25¢ plus tax at toiletries counters.

WHY PAY MORE?

# CUTEX

Solution of Yesterday's Puzzle

**Quick Raisin Cookies**  
Ingredients: One-half cup light or dark raisins, one-fourth cup shortening, one and one-half cups biscuit mix, three-fourths cup firmly-packed brown sugar, one egg, three tablespoons milk, one-half teaspoon vanilla.  
Method: Rinse and drain raisins. Melt shortening and allow to cool while measuring remaining ingredients. Stir biscuit mix, sugar and raisins to-

gether. Beat egg lightly; stir in cooled melted shortening, milk and vanilla. Stir into dry mixture well. Drop by teaspoonfuls onto greased baking sheet, allowing a couple of inches between cookies. Bake in moderate (375°) oven 10 to 12 minutes. Remove to wire rack to cool. Makes about 40 cookies.

**Coffee Chocolate Sauce**  
Ingredients: Three squares (3 ounces) unsweetened chocolate, one-half cup strong brewed coffee, one-fourth cup milk, two-thirds cup sugar, one tablespoon butter or margarine, dash of salt, one-half teaspoon vanilla.

Method: Put chocolate, coffee and milk in a heavy saucepan over low heat; stir constantly until chocolate melts and mixture is smooth. Add sugar, butter and salt. Cook and stir constantly three to five minutes or until slightly thickened. Remove from heat; stir in vanilla. Serve warm or cold. Makes about one and one-half cups.

WHEN?—This Friday and Saturday,  
from 8 a.m. to 9 p.m.

## Western Omelet

Ingredients: For each serving—two tablespoons butter or margarine, two tablespoons finely diced onion, two tablespoons finely diced green pepper, one-fourth cup finely diced cooked ham, two eggs, one-fourth teaspoon salt, one-fourth teaspoon pepper, one tablespoon chili sauce.  
Method: Melt butter in eight-inch skillet; add onion, green pepper and ham and cook over low heat for several minutes. Beat eggs with salt and pepper enough to combine yolks and whites; pour over vegetables and ham in very hot skillet. As egg sets at sides of pan, draw toward center; tilt pan so uncooked egg will run over edges. Have heat moderately high at first to set egg, then lower so as to have top set without browning bottom too much. Spread chili sauce over half of omelet; fold over and turn out.

**Poppy Seed**  
Your family like poppy seed? Spread crackers with soft butter and sprinkle with poppy seed. Heat in a moderate oven. Let cool a few seconds, then serve at once.

## REDHEAD from TEXAS

CHAPTER EIGHTEEN

WALTER SYMINGTON was genuinely upset. His usually smooth facade was punctured by emotions Molly had not seen before. "I can't tell you the woman's name," he insisted.

"Why not? Even Debra knows that," she said.

"Yes," he said with bitterness. "Small wonder she gave her the milk coat. But Debra warned me I wouldn't tell you when I found out. She was right."

Molly reviewed the facts. H.J. had been married in Puerto Rico. Upon realizing the unsuitability of the marriage, he had tried to get rid of his wife. But she would not divorce him, without the kind of publicity H.J. Braden would never permit and he would not allow this woman to become mistress of the acres he held so dear. He had paid huge sums of money to keep her away and to prevent his daughter from knowing of his folly.

"I wouldn't have cared," she said aloud. "If only he had confided in me."

"Your father is a proud man," Walter reminded her gloomily. "It would kill him to have to

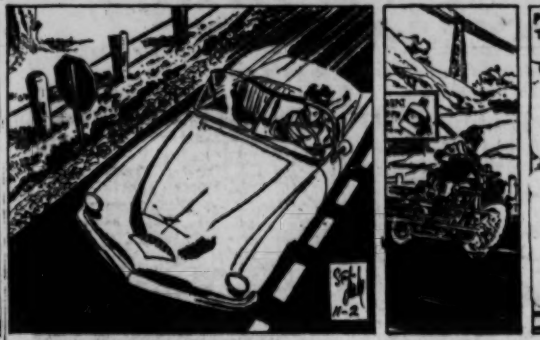

## CHUCK NORMAN

ON SEGREGATION—Just remember that it takes both the black and the white keys to play the Star Spangled Banner. The SOUND TRACK—All these pop hits aren't square. Dig Jere P. Morgan's "Pepper Hot Baby." Has such as Eddie Safranski on bass, George Barnes guitar, and Oso Johnson drums. . . . Vaughn Monroe's "Black Denim Trousers" spotlights bassist Milt Hinton. . . . Louis Bellon beats up a storm on Winterhalter's "Serenade To A Wealthy Widow" and a real live canary helps the Three Suns "Arrivederci Roma."

Better hurry on Glenn Miller's new Army Air Force Band Album because dealers report fast sales. Fifty pictures including names like Johnny Desmond, Mel Powell, Ray McKinley, Jerry Gray and the Crew-Chief. . . .

Just heard about a gangster who went up to a movie box office with a gun in his hand and said, "What a lovely picture! Gimme everybody's money back!" KNIFE OF THE PARTY—At Amadeus: "There he is—the greatest scum on earth!" . . . At the Chi Chi: "He should pawn himself and lose the ticket." . . . At the President: "He's not really cheap—he just has ingrown pockets."

any good come from unearthing secrets which others prefer to keep. Why don't you let your father handle this in his own way?"

He did not understand, of course. How could he know of the close relationship between H.J. and his only daughter. The Bradens were fighters and they stood firmly together against outside adversity. Perhaps H.J. was too tired and ill to cope with the woman determined to ruin his life but Molly was not. She returned to her hotel, walking through the heat of the

sultry night, busy with her own plans. She had not been in her hotel room an hour before the telephone rang. A girl's voice said, "Molly, it's Jean Martin from Texas."

Jean Martin? Molly forced her mind back to the childhood friend who worked in a department store in Dallas.

"I'm here in New York," Jean reported, "on a vacation. I tried to call you long distance at El Rancho but Wong told me you were here."

"What's wrong, Jean?" Molly

asked, sensing urgency in the other's voice.

"I must see you right away. Tonight. I've found out something about . . . well, about H.J."

(Continued Tomorrow.)

## Uncle Ray's Column

By Ramon Coffman

YESTERDAY I spoke about a pioneer rail line at Baltimore, but South Carolina was ahead with a train pulled by a steam locomotive on a regular schedule. The people of South Carolina can be proud of leading the way in this field.

The first steam locomotive on the South Carolina Railroad was made in New York 123 years ago. It was carried by sea to Charleston, S.C.

After being placed on tracks which had been laid in advance, the locomotive was tested. It was called the "Best Friend of Charleston," and later simply the "Best Friend."

The "Best Friend" traveled 30 miles an hour on a solo run. When four cars were hitched to it, it made a speed of 21 miles an hour.

IN JANUARY, three months after that locomotive reached Charleston, the opening of a steam railroad was celebrated. Here is a shortened account of the event:

"About 150 stockholders assembled in the morning, together with invited guests. The first trip was performed with two pleasure cars attached, also a small carriage containing a cannon and some United States troops.

"Another trip was made at about 1 o'clock in the afternoon, with upward of 100 passengers in three cars. A band livened the scene . . . and good humor prevailed."

ALL WENT WELL for about a year on that railroad. Then a man was hired to help the engineer. His task was to put wood in the firebox, and he did that well enough, but he was bothered by the noise of escaping steam. To stop the noise, he sat on a lever and in that way shut the safety valve. Soon there was an explosion when the boiler burst. The engineer was injured, as well as the helper.

Work went on in extending the road. A second locomotive, the "West Point," was obtained from New York. Within three years the South Carolina Railroad extended 136 miles, from Charleston to a point across the river from Augusta, Ga.

For HISTORY section of your scrapbook.
